

Unravel is a nonprofit organization with one goal in mind – **We will unravel pediatric cancer.**

Why We Flutter: **JENNIFER**

Jennifer (JLK) was a beautiful 6-year-old who was born with glitter in her veins. She sparked from the inside out and brought out the sparkle in everyone she met.

Jennifer was diagnosed with DIPG on her 6th birthday. DIPG is a type of brain tumor that has no real treatment options and no cure. It is terminal upon diagnosis. The average life span for someone with this tumor is 9 months from diagnosis. Jennifer lived 3.5 months. It was never a fair fight.

Jennifer's tumors were donated and a cell line has been created from them. Jennifer will be part of finding a cure and her family and friends want to do their part to. Unravel is how we are doing it, spreading knowledge and raising funds. Because knowledge is like glitter...it sticks with you and multiplies, and once we know better, we can do better.

About Unravel Pediatric Cancer

Inspired by the life of Jennifer Lynn Kranz, who was diagnosed with an incurable brain tumor called DIPG on her sixth birthday, Unravel is working to spread awareness about the harsh realities of pediatric cancer research, which is alarmingly and devastatingly underfunded. All money raised by and for Unravel goes *directly* to the fight against pediatric cancer. To find out more about what Unravel supports, please visit our website at www.unravelpediatriccancer.org.
