## HI FRIEND!

---

I'm so excited you've reached out to me and I am beyond honored to be considered as your photographer to capture sweet moments of you and your loved ones!

A little about me. I'm married to my best friend, Dustin, and we have a 5-year-old little girl. I've truly been blessed and it all started with our "I Do". I started photographing families and couples in 2012 and have been capturing love stories and special moments ever since! I am a full time wedding photographer, but also know the importance of family photography, so I love to continue to offer portrait sessions around my wedding schedule. I am most honored when I see the images I have captured displayed in homes, at graduations, weddings and even used during funerals. The joy and nostalgia photos can provide are invaluable.

If you've looked around my website or social media channels, you've probably gotten a good sense of my photography style. I love classic images filled with joy, light and color. Many of my families/couples wonder if they will look this way in their images because they are unsure of how to pose or flatter their bodies. The answer is yes! I take care of all of this! I love a mixture of candid moments and posed shots to make you look your absolute best!

If you have any more questions, please let me know! I'd love the opportunity to serve you!
