

Website Disclaimer and Privacy

This Website and all Programs offered by Natalie Louise Gauger, MS, CNS and Natalie Louise Functional Nutrition, LLC are for informational purposes only. If you think you have a medical emergency, call your doctor or 911 immediately. Do not rely on electronic communications or communication through this website for immediate, urgent medical needs. This website is not designed to facilitate medical emergencies.

Information on this web site is provided for informational purposes only. Natalie Louise Gauger, MS, CNS is not in any way responsible for information provided by other organizations. This information is not intended as a substitute for the advice provided by your physician or other healthcare professional or any information contained on or in any product label or packaging. Do not use the information on this web site for diagnosing or treating a health problem or disease, or prescribing medication or other treatment. Always speak with your physician or other healthcare professional before taking any medication or nutritional, herbal or homeopathic supplement, or using any treatment for a health problem. You should not send us any individually identifiable health information or other confidential information in response to this website. Such responses cannot be treated as protected health information, and whatever you disclose to us will not be privileged or confidential. Information provided on this web site and the use of any products or services purchased from our website by you does not create a doctor-patient relationship between you and any of the physicians affiliated with our web site.

If you have or suspect that you have a medical problem, contact your healthcare provider promptly. Do not disregard professional medical advice or delay in seeking professional advice because of something you have read on this web site. Information and statements regarding dietary supplements have not been evaluated by the Food and Drug Administration and are not intended to diagnose, treat, cure, or prevent any disease.

The material on this website may not reflect the most current medical, legal, or academic research developments. The content and conclusions of research addressed herein are subject to revision. We disclaim all liability in respect to actions taken or not taken based on any or all the contents of this site to the fullest extent permitted by law.
