# Timeless Heirloom Portraits

At Ashley McKinney Photography, we know that you want stunning portraits of your children with wonderful memories attached. You want an easy, stress-free, and joyful experience that results in beautiful images. I love being able to create that environment for my clients that result in capturing your child's joyful self during the session.

AMP has always been committed to create simple, timeless images, and I am so excited to be able to offer stunning heirloom portraits to my clients. Heirloom portraits are truly a work of art that captures the innocence, simplicity, and joy of childhood for you to remember and treasure for generations to come. These sessions are ideal for children who can sit well independently up through elementary school aged children.

These sessions will take place in my Charlottesville studio. The session fee includes the portrait sitting for your child, a proofing gallery for you to view the images and select five favorites, and my editing and artistic work to turn those five images into timeless heirloom portrait images in both color and black and white. You also receive complimentary watermarked social media sized files of all ten images with any print, frame, or digital purchase. All prints, high resolution digital images, and any framing will be purchased separately, after the heirloom creation of your five chosen images.

HEIRLOOM PORTRAIT SESSION FEE  
\$300  
Sibling add-on - \$200

*Please note that your session fee includes both the session and my detailed editing + heirloom image creation of five images in color and black and white. Prints and high resolution digital images are purchased separately from your gallery once my final editing is complete.*

## What Makes AMP Different

In every image, I strive for sharp focus so you can see the sparkle in your child's eye, minimal shadowing so the image feels bright and crisp, and creamy heirloom tones for an ethereal feel that is truly timeless.

I have always loved heirloom portraits and have been working toward offering these for a long time. It was important to me to only offer these sessions once I knew that I could consistently create stunning, timeless, heirloom artwork that truly stands apart from any other style of heirloom portraiture.
