Since January 2019, I have been awarded 16 times by the prestigious WPJA for my work:

*"The WPJA is pleased to present Virginia, United States wedding photographer Andrew Morrell with an official Master Piece Award as recognition for exceptional wedding photojournalism."*

*The best wedding reportage photographers from around the globe submit their top photos to the Wedding Photojournalist Association's photography contests because they appreciate having the opportunity to be recognized. Their photographs are scrutinized by some of the most notable and respected working photojournalists and picture editors in the news industry (not the wedding industry). Winning these competitions is a true accomplishment for a documentary wedding photographer."*

"Andrew was voted our best vendor at our wedding! By us and by friends that got to know him.

From our first phone call I was like, man this guy is cool and relaxed...

I HIGHLY recommend Andrew if you want a bad-ass photographer who is fun and awesome. Simple as that."

Shahrzad, 2014

"Awesome, marvelous, amazing, incredible, wonderful, fantastic, first-rate, sensational, superb, charming, witty, personable, gregarious, fun, talented, creative, unique, imaginative, thoughtful....all words to describe Andrew and his STUNNING photos. My husband and I (and our entire wedding party!) HIGHLY recommend Andrew."

Regina, 2016

"I'll tell you. His ability to recognize little moments, the special ones that no one sees. His natural talent for understanding dynamic environments and being able to move in and out of your sphere of motion without even letting you know he's there. His work, his communication, his quality of service and professionalism are far above what a 5 star rating can provide him. These are memories that need to be captured the right way, naturally, perfectly, the first time. There are no re-dos on your wedding day. "

Jesse, 2018

"What to say about Andrew? There may not be enough room on the entire internet to list all of the great things about him, so I will try to keep this brief. He is the consummate professional, and he has every tool in his tool belt (literally - he has a photographer's tool belt!) He will work to make sure you have THE BEST photographs taken at your wedding.

On top of that, he is a heck of a lot of fun. He's charming, exuberant, full of energy, and a blast to be around - and all of this without being the center of attention ..."

Rachel, 2016

"Andrew's talent is unparalleled in wedding photography. He really captured the special & unique things about us as a couple and as individuals. That is the one thing that all our family and friends say to this day about his photographs.

And I feel that is a wonderful treasure to add to our memories of our wedding. We were so fortunate!"

Shirley, 2011
