

Biography - Dr. Robert A. Peck

1971 – 1997 - Robert Peck grew up in Pennsylvania for most his life being baptized at 7 with a love for Jesus. However, it was not until he was in college until he had an encounter with the Holy Spirit instilling a peace that the world can neither give nor take away. Particularly, the compassion of Jesus, even to those who tortured and ridiculed Him, overwhelmed Robert during His baptism in the Holy Spirit. From this moment on, Robert has sought to live for God and be led by His Spirit.

1998 - After working as a wetland scientist for a few years at Penn State, where he received a bachelor's in science (1995), Robert prayed continuously for a year, asking God what is his purpose in life. God responded, "I want you to work with children." And the course was set.

2002 - The Holy Spirit led Robert to marry Virginia, a native from Venezuela, in 2002. Robert and Virginia Peck have been blessed with 6 beautiful children, Kama, Gabriella, Lily, Reuben, Israel, and Snookie Bear, Grace.

2001 – 2015 - Robert first served children in the inner city of Harrisburg Area School District for 14 years as a math teacher and administrator. After a short period, Robert became discontent with the way children were being educated and asked God for more. The Lord responded.

The Lord gave a two specific dreams, one showing children wanting to break out of traditional education to the green pastures of the Lord and a second, where Robert led a little black girl off a burning school bus. These dreams helped to confirm that the Lord wanted Robert to pursue understanding of Godly education and in time, open a school.

During this same time, Robert obtained a Math Teacher's Certification, master's in education leadership (Wilkes University) and a Principal's Administrative Certification from Penn State.

2011 – The Lord opened the doors for The Samuel School to launch, a school designed and developed through Holy Spirit revelation, though not perfect in man's sight. Robert continued to work as a public-school employee until Life Center supported half of Robert income for him to work full time at The Samuel School. His other half of the income to cover the jump into private education was covered via an educational sabbatical through Harrisburg School District. This began Robert's doctoral work (2014).

2011 – Present – Dr. Peck continues to seek the Lord and develop The Samuel School through auspice of Kingdom Education. He finished his doctoral degree in Christian Education Leadership from Regent University (2025). Through revelation and his dissertation (starting in 2020), Robert Peck began unpacking the Kingdom Restoration process through the Parable of the Prodigal Son. Robert continues Kingdom Restoration work through writings, meetings, and consultations in conjunction with the Kingdom Restoration survey. Robert also currently helps to council schools during the launch process while also serving as an administrator at The Samuel School in Harrisburg, PA.

I keep asking that the God of our Lord Jesus Christ, the glorious Father, may give you the Spirit of wisdom and revelation, so that you may know him better. Ephesians 1:17 (NIV)
