CHECKLIST

EVERY LITTLE DETAIL

Chances are, you've put a lot of effort into picking out every little detail of your wedding day. From the shoes, to the jewellery, to the flowers, each detail tells a piece of the story of your once-in-a-lifetime-day! The wedding morning is the perfect time for me to capture all those little details before the craziness of the day starts! So, by having all these items gathered ahead of time and ready to go when I arrive, we can ensure that everything is documented without running around during the morning to look for everything! This guide will tell you all the items you'll want to gather together and some tips to make the whole process smoother!

THE ESSENTIALS

Here are the main items you'll want to have gathered together at the beginning of the wedding day. Keep reading for additional items that you can include, plus tips for taking your detail photos to the next level!

EXTRA ITEMS

Here are some extra items you can include with your details that will elevate your photos and ensure that all important items are photographed

HEIRLOOMS

Do you have any special heirloom items like your grandmother's wedding ring or a special handkerchief that are a part of your wedding? Include them with your details to be captured!

STYLING ITEMS

Including extra styling elements that go with your wedding theme and colours like fabric, ribbon, patterned paper or trays can also help to give the detail photos a cohesive look that is consistent with the rest of your wedding!

RING BOX

Want to display your ring in a luxury velvet box that will also serve as an heirloom for future generations? Consider investing in a Mrs Box at <https://themrsbox.com>

LOOSE FLOWERS

Loose flowers and greenery make such a lovely addition to detail photos! Ask your florist to include some loose florals and greenery with the bouquet delivery!

HELPFUL TIPS

Here are a few tips that will ensure everything runs smoothly and your detail photos really shine!

FLOWER DELIVERY

Have the bouquets, boutonnieres and loose florals delivered to your getting ready location 30 minutes before I am scheduled to arrive to ensure they are ready to go when I get there.

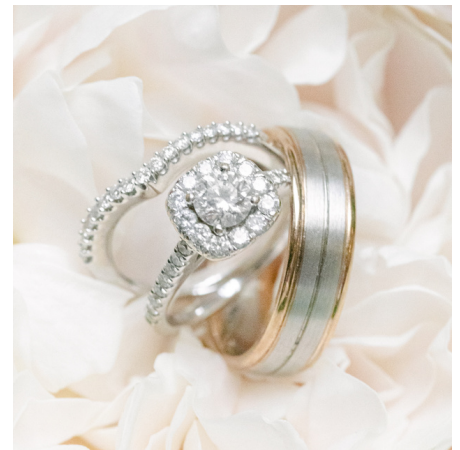

CALLIGRAPHY

If you had calligraphy or any special lettering for your invitations, have an extra copy made for me to photograph! You can use a fake address or even the address of your venue!

ALL THREE RINGS

Have all 3 rings included with your details so I can photograph them all together! Once I am done with them, we can give the bands to whoever is allocated to look after them.

INVITATION SUITE

Be sure to also include all the envelopes with your invitation suite so that I can capture the entire design! And feel free to include your Save the Date as well!

DUPLICATE INVITES

Save two copies of your invites for me to photograph on the wedding morning. This is so I can capture both sides of the design in one image.

CO-ORDINATING PAPER

If there are any other paper items that coordinate with your invitation suite, feel free to include those too! Things like menus, table numbers, place cards, vow books, etc.

DELEGATE

The key to a stress-free wedding day is to delegate tasks! Assign the task of knowing where the detail items are to someone, so you don't have to worry about a thing!

PARTNER'S DETAILS

You can also include any special details that your partner would like photographed! Things like cuff links, tie, shoes, tie clip, etc.
