FAQs

When do I need to finalize my linens?

Your linen count and color must be finalized 30 days prior to your wedding date to avoid late deliveries. We cannot guarantee on time shipping if linen selection is made after that 30 day mark.

How do I view the color options?

You can view all the color options we have through [We Rent Linens](#). Our pricing reflects linens in the solid color collection.

Will The Eloise set up the linens?

Absolutely! You got them through us and we will take care of setting them on your tables and taking them off at the end of the night.

How are the napkins displayed?

The napkins are folded in a standard tri-fold pattern. At this time, we don't offer another option.

What if there are additional charges for laundering linens due to staining?

If there are stains to the lines that cause additional charges, we will notify you and discuss reimbursement. Your damage deposit will be used in this instance.
