

ENVIRONMENTAL POLICY

Diatreme Resources Limited ACN 061 267 061 (**‘Diatreme’**) is committed to leading in environmental stewardship by adhering to the highest standards of environmental performance.

Diatreme’s primary objective is to achieve sustainable development by balancing social, economic, and environmental considerations. Diatreme is dedicated to minimising the environmental impact of its operations and promoting responsible environmental practices across all levels of the organisation.

This Policy applies to all staff (including managers, employees, officers, potential employees, and contractors working with Diatreme (including employees of vendors)). Diatreme also expects the same standard of behaviour from its clients and visitors to its premises.

DIATREME’S COMMITMENT

Diatreme aims to achieve this by:

- complying with the requirements of all applicable environmental laws, regulations and requirements and apply standards where laws do not exist;
- understanding the environmental risks associated with our activities and strive to conserve local biodiversity and natural environments;
- preventing pollution and developing response plans for emergency situations;
- reducing our environmental footprint by efficient use of resources, management of water and energy consumption and management of waste and emissions;
- developing a culture of environmental responsibility by engaging our workforce and promoting effective communications, including the prompt reporting of environmental incidents;
- managing land to limit disturbance and rehabilitate areas in accordance with environmental permits;
- implementing appropriately resourced environmental systems and monitoring, auditing, and reviewing performance to enable continuous improvement of our environmental practices; and
- undertaking training and awareness that promotes good environmental governance and practices.
