

# *PHOTOGRAPHY MENTORING*

*NOTHING  
GOOD*

COMES FROM  
COMFORT ZONES!

## **Be honest....**

Do you have a DSLR camera that you got for your birthday eleven years ago because you had *\*really\** good intentions of learning how to use it?

Do you also have said camera gathering dust somewhere because despite your *\*really\** good intentions... You never learnt how to use it?

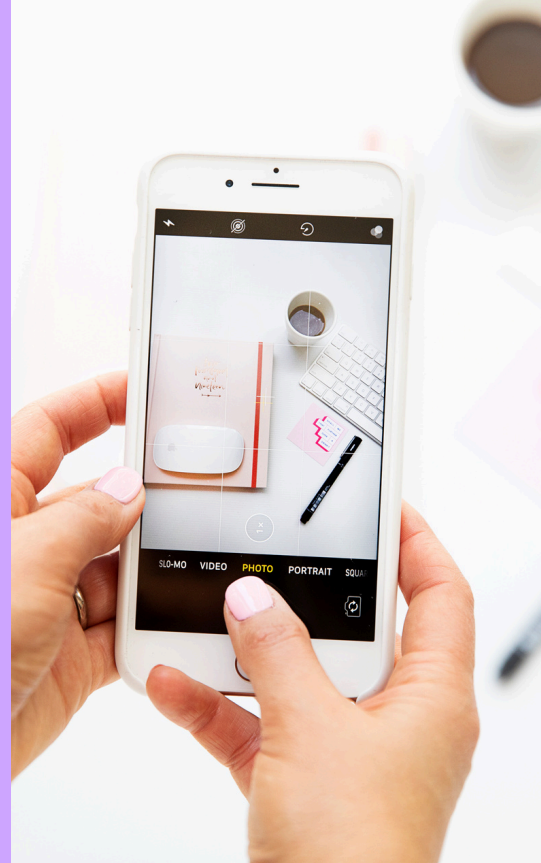

It's OK. I'm not here to judge! We've all been there... honestly.

If you do want to dust off your little camera friend and learn how to use it to it's full potential; including manual mode, aperture, shutter speed, ISO, editing & more in a HANDS ON environment...

Look no further, this workshop is for you.
