

Proverbs 29:18 - Where there is no vision, the people perish ...

Specific

Set a goal that is specific enough to be accomplished. It should answer the following: Who, What, When, Where, and Why?

Measureable

How can you measure your success? Date? Money? Grades? If there is no way to measure, go back to step 1.

Attainable

Are you capable of achieving this goal? Why? If not, is there anything you can change? If this goal is not attainable, go back to step 1.

Relevant

How does this goal align with my values, beliefs? Is it worthwhile? Is this the right time to set this specific goal? If this goal is not relevant to you, go back to step 1.

Timely

What is the deadline? Is it realistic? "Someday" and "Eventually" are *not* dates. If there is no timeline for this goal, go back to step 1.

SMART GOAL

Create a goal statement based on your analysis above.
