Hey Mama!!!

If you're reading this, you're most likely going to have a BABY!!!! **Congratulations!!!!**

I am SO excited to share my client closet with you! This thoughtfully curated collection of dresses, hand-picked by me, is now available to you for your maternity and newborn sessions! I chose these dresses for you because they are flattering and photograph so beautifully! Most of them also bump-friendly, nursing friendly, and have stretchy/flexible material that allows them to fit a range of sizes! My hope is that you find this client closet takes a little bit of stress away from all that you have to do to prepare for baby!

Below you'll find a catalog of my client closet dresses along with detailed descriptions! You'll find more details on the last page with helpful information on selecting and borrowing your dresses!

Happy Shopping!

Much love,
Rachel

Additional Styling Tips

1

Comfort + Confidence

The most important thing is that you and your family feel comfortable and confident on photo day! Try on outfits in advance and make sure everyone feels good in what they are wearing!

2

Neutrals + Pastels

Lighter colors create lighter photos with a timeless look to them! You can start with 1-2 pastel colors (ex: light blue or pink) and add neutrals (beige, cream, grey) to complete your palette!

3

Coordinate

Coordinating outfits tends to photograph much better than outfits that match exactly! You can start with one person in a pattern and coordinate your colors from that pattern if you'd like!

4

Accessorize

Don't forget about socks, shoes and bows! A pair of muddy sneakers or brightly colored socks can throw off a whole look!
