YOUR COMPLIMENTARY GUIDE TO
THE PERFECT WEDDING DAY TIMELINE

hello

And congratulations on your upcoming nuptials!

Welcome to my space within this big huge world and where I have the honor of working with beautiful people telling the story of the beginning of their forever!

LISTEN, I COMPLETELY UNDERSTAND -

Weddings are a *BIG* deal and a monumental moment in your life! And you may say, "*Katina, I am always on time and never run late.*" And I believe you! However, with weddings there are a million moving pieces. starting with your first vendor and circumstances that may unfold throughout the day. *THAT* will set the schedule for the rest of the your wedding day.

Your planner has a timeline that consists of ALL of the entire days moving parts. Which is so very helpful and important. Keep in mind you may have the venue coordinator as well. They are *NOT* the same as your planner. They run operations that pertain to the venue. Your planner handles all the other details that make you day extra special and curate it to the love you and you significant other share. Timelines can become pages and pages depending on all the details and moving parts. Even though I will be there for most the day I have developed a timeline that focuses on JUST the photography in order to make sure the day is FUN, seamless and accomplishes all your photography dreams!

This is a *SAMPLE*, usually after a conversation this will be altered based on your plans for your individual wedding day. When you have a solid timeline and 10 people ask you what is happening the day you arrive you can simply hand them a timeline and all those questions are answered!

AND TRUST ME -

This timeline has been developed over the course of the last 15 yrs of photographing weddings and seems to work well with the pace and ease in which I approach your day. I hope you find this helpful as you plan your wedding day!

THE KP EXPERIENCE

For the past 15 years I have been photographing brides and grooms worldwide. And my passion for this work is infused in every photo I have taken and the care I bring to my clients - from our first meeting to their most important day. My goal always is to create timeless and classic images that stand the test of time, but that are created effortlessly. This chapter of life is a beautiful one and what I do is tell it well.
