

## JOB DESCRIPTION FOR THE POSITION OF

### *Podiatrist*

#### OVERVIEW

**Our team is our number one asset and is highly valued and supported.**

**We identify and develop your unique strengths and special interests and weave this into the how and what we offer our clients. The belief is if we work with your passions and strengths the end result is a workplace that you love coming to work in and clients that have their expectations exceeded.**

**Our goal is for everyone who engages with Ararat Physio & Co to receive exceptional care from the moment they make contact with our front desk team, until they leave, having reached their health goals.**

**We achieve this by listening carefully to the needs of each person, identifying how their problems are impacting their life and together developing goals and a treatment plan.**

**Our treatments include both strong podiatric surgical skills, orthotics, manual treatment as well as movement based therapy. We use a range of applications for assessment, to monitor and to support our patients in their recovery, including 'physitrack' & 'HUDL.'**

**We welcome a wide range of clients, the highest percentage are private patients. Our clients are of all ages from children through to the golden years, all abilities and diverse cultural backgrounds. We have nurtured close relationships with local healthcare providers and the community.**

**Expect a varied range of conditions from sporting injuries, paediatric patients and general podiatric care from our strong referral base of surgeons, local medical centres and community word of mouth. We are involved with regular meetings with the Ballarat based Orthopaedic and Sports Physician team and contribute to the professional development program for our local medical staff.**

**Our clinic is highly respected within the community for the service we provide. We in turn, value being part of a community and contribute to local fundraising and other community events as well as fundraise for research and support for specific groups that we believe in.**

**We value individual professional development as well as team learning. We have regular inservices and also invite external presenters to deliver team learning opportunities. We support mentorship programs to offer clinical support and career growth.**
