**WEDDING
PACKAGES**

DIGITAL AND FILM DOCUMENTATION:

I am film photography forward.

All of my packages have 35mm film built into the price. But don't worry, I will always shoot digital in tandem, and you can add additional rolls of 35mm or medium format film under my 'add ons' section.

WHAT YEAR IS YOUR WEDDING IN?

YEARLY ADJUSTMENTS:

The prices you see listed are for 2025 weddings. My wedding packages raise incrementally every year to adjust for advancements and increased expenses. Each year past 2025 will have an additional 10% adjustment. So, for example, "Package 01" in 2025 is a base price of \$3000. If you're booking for a 2026 wedding, your base price for "Package 01" will be \$3300.

*THINGS
TO
KNOW*

A black and white photograph of a table setting. In the foreground, there are several wine glasses, some containing liquid. To the left, a bottle of wine is partially visible with a label that includes the number '20'. In the background, there is a floral centerpiece with leaves and small flowers. A folded cloth napkin is visible on the right side of the table. The overall atmosphere is elegant and sophisticated.

THINGS TO KNOW CONT.

PRE-BUILT SOCIAL MEDIA CAROUSELS

Something I often hear from clients is that they get overwhelmed by their gallery and cannot choose what to post (in a good way!) I am obviously a huge fan of flow, feeling, and cohesive curation.

So I've recently added a section of "pre-built social media carousels" to some client galleries. Essentially I organize some of my favorites from the photo session into organized slides with my preferred flow. There will be a couple options for you, however you are by no means obligated to use any of these at any time! It's simply an added perk.
