

PORTRAIT SESSION STYLING TIPS

Planning your portrait session can be stressful, but it doesn't have to be! By using experienced professionals you'll have access to their knowledge and you will benefit from their expertise. The tips you see here is just a snippet of the information available to my clients through custom style guides!

1. Color Pallet & Patterns

I really love the pastel palettes like an icy blue, sage green, or blush. But, when in doubt neutral out! If you're not loving any of your color choices, everyone looks good in neutrals! Think about what you want displayed in your home, that could be a good place to start, and choose a pallet of at least three colors!!

2. Props

Adding even one extra styling element to your session makes a session completely unique to you! Think of the variety that just a blanket brings to a session, you can sit and snuggle on it, you can wrap yourselves up, and it even doubles as another layer in the winter months!

3. Beverages

Events that cause people to book photo sessions are often reasons to celebrate! Graduation, engagement, weddings, ect! A bottle of champagne to pop is a super fun addition to any session!! An added bonus is you get all the fun of confetti with no clean up!
