INNOVATION FROM THE FLOOR UP

BLIZZARD*	TITANIUM	NIMBUS	COPPER
SPICE	HAZELNUT	GARNET	COFFEE
DEEP SEA	SKY	PACIFIC	ONYX
*Due to the natural ambering nature of epoxy, light colors should be avoided as the primary color in ReFLEXions floor systems.

ReFLEXions Designer Floors can be further enhanced by combining any of the standard colors, offering limitless opportunities for a one-of-a-kind floor. While the options are endless, please see below for some suggested accent combinations:

TITANIUM with NIMBUS Accent
DEEP SEA with SKY Accent

COPPER with COFFEE Accent

PACIFIC with TITANIUM Accent

NIMBUS with TITANIUM Accent

GARNET with NIMBUS Accent

The samples shown are only close approximations and should not be used for specification purposes.

BLUE*	GREY	CHARCOAL	CHESTNUT

|		
DARK GREY	GREEN*	RED

Poly-Crete MD, MDB, SLB, HF systems and Poly-Crete TF Plus topcoat feature a matte finish. Poly-Crete Color-Fast topcoat features a semi-gloss finish and UV stability for color retention.

*Poly-Crete Color-Fast in these colors require a grout coat of Poly-Crete TF Plus to ensure consistent color.

NOTE: Differences in chemical composition, thickness, application methods and jobsite conditions may cause slight variations of individual colors across the various products. Colors may also be affected by age, heat and exposure to ultraviolet light from natural sunlight and overhead lighting (non-UV stable products). Dur-A-Flex recommends obtaining an actual color sample for best representation.
These colors apply to Epoxy, Methyl Methacrylate (MMA), Thin Mil Urethane topcoats and Add-A-Color field mixed pigments.

WHITE**	**IVORY***	**BEIGE**
LIGHT GREY	**MEDIUM GREY**	**SLATE GREY**
CONCRETE GREY	**CHARCOAL**	**SMOKE BLUE***
CARAMEL*	**SAFETY RED***	**TILE RED**
BRIGHT YELLOW	**GREEN#**	**BLACK**

CUSTOM COLORS AVAILABLE

Due to chemical composition, thickness, application methods and job site conditions, individual colors may vary across product lines.

Colors may be affected by age, heat and exposure to sunlight. Opacity can vary between products. Please request an actual color sample of the system that you are considering to confirm the most accurate representation.
