

TRAVEL DESIGN & INVESTMENT OVERVIEW

Travel, Thoughtfully Designed

At Filling the Nest, travel is approached as a design discipline — shaped with intention, guided by experience, and supported by trusted global relationships cultivated over many years. Each journey begins not with bookings, but with understanding: how you like to travel, what inspires you, and how each moment should feel. From there, every element is thoughtfully orchestrated — balancing logistics, access, and emotional experience so your time away unfolds effortlessly. Our clients engage us not simply to plan travel, but to design journeys that feel seamless, personal, and deeply considered from beginning to end.

INVESTMENT

- Travel Design is a professional service reflecting dedicated time, strategic insight, and ongoing stewardship throughout your journey.
- Design engagements typically begin at \$750, with investment varying based on the scope, complexity, and duration of travel.
- Most bespoke journeys fall within a thoughtfully curated range aligned to the level of personalization and coordination required.
- For Preferred Stays — when destination, dates, and property are already selected — a Travel Design Fee is not required. Should research, recommendations, or additional planning be requested, a professional fee will be introduced accordingly.
- All investments are clearly confirmed following your complimentary Discover Consultation and prior to proposal development, ensuring transparency and alignment before planning begins.
