Features

Therapeutic Far Infrared Heaters

Clearlight's exclusive True Wave® Far Infrared heaters are the only patented low EMF full spectrum heaters on the market. True Wave combination carbon/ceramic low EMF / low ELF heaters surround you in healing infrared heat.

True Wave® Full Spectrum Heaters

Our full spectrum near, mid and far infrared heaters deliver over 20 times the power of the nearest leading competitor. Our patented heating system allows for the deepest penetration with peak performance for the best results.

Doctor Designed Ergonomic Bench

Relax in comfort in your sauna with our reversible bench.

Built For The Outdoors

Cedartec® exterior finish for durable outdoor use, a non VOC wood effect flooring for easy cleaning, and Mahogany interior for that true sauna feel.

Charging & Audio Station

Charge your smart device inside the sauna and connect your favorite audio device with Bluetooth or the included MP3 jack.

Built-in Ergonomic Backrest

Relax close to the soothing infrared heat against the Chiropractor designed built-in ergonomic backrest.

Combination Door Handle/Tablet Cradle For Easy Media Viewing

Place your tablet on the door handle for easy viewing of your favorite shows or movies.

Enhanced Audio Sound System

Bluetooth and AUX inputs makes it easy to connect and listen to your audio devices.

Digital Keypad Controls

Digital keypad controls temperature, time, lights, heater intensity and reservation mode.

Chromotherapy

Your Sanctuary sauna comes upgraded with our therapeutic Chromotherapy. Choose from one of twelve colors or auto-cycle through all color tones.

Smart Device Control (Optional)

Log in from your smart device and remotely operate your sauna.

Single phase / 3 wire: 2 x live/ground - for 240v

Attention: Make sure sauna is assembled on a level surface. Not recommended for use where temperatures are regularly 40° F or below.

Additional Information

Installation and Clearance Requirements

Your sauna is designed as a standalone unit and must remain fully accessible on all sides and the roof. **At least 4 inches (10 cm) minimum clearance** on each side of the sauna is required for installation and proper ventilation. **Adequate clearance above the sauna roof** is necessary to allow for installation, troubleshooting, and maintenance access as key components are located in the roof of the sauna. Please ensure sufficient space to safely access the roof when needed.

Weather Precautions

1ft Snow limit, Wind Rating 35 MPH

Bench Weight Limit

350 lbs per person

Add On

- Can't have both upgrade heater and Red Light simultaneously.

Cover Included

- Includes an outdoor sauna cover for weather protection.

Surface Requirements

It is necessary to place sauna on a raised platform to ensure no water pools under it.
