MINISTRY FOUNDATION**

Reach Out and Change the World

Ministry Outreach

WOMF believes the heart of what we do revolves around our intention to spread the love of Christ. Through sound Biblical education and evangelistic outreach, we invest in prisons, leadership training, and church planting, where many hear about the word of God.

Providing Education

WOMF supports the nations we partner with through our commitment to education. We build schools including primary, high school, and university levels. These schools are specifically training the next generation of leaders with quality education and Christian principles.

Empowering Women & Children

Women's Empowerment Program is dedicated to uplift, educate, train, and enable women, men, and youth to be independent. We improve families' livelihoods and sustainability.

Vulnerable Children's Program is designed to provide basic needs for each child. While in school we provide a loving atmosphere where each child is valued for who they are.

Sustainable Programs

Sustainability for each individual means supporting themselves, and their families and helping others within their community. WOMF encourages financial saving groups and vocational training to create monetary stability for every individual.

Water & Health

WOMF believes water is life. One of the first needs we focus on when entering a community is their access to clean water. Along with their spiritual needs, water is at the forefront of every mission.

Health is a
