

# The *Feminine* ATTRACTION System

## Start Here: Welcome

*(This is a transcript of the full video lesson. This is not the FAS guide. Please refer to that document in the individual module page. Please excuse any grammar or mistakes.)*

Hey there and welcome to the Feminine Attraction System! This is a little welcome section where I want to give you a quick breakdown to help you understand exactly what this program is, who it's for, what you're going to get, what you can expect, and how you're going to feel when you're done. I'm going to read this from a script that I wrote. If you're watching the video or listening to the audio, you'll see that there's audio, video, and a PDF script of everything I'm talking about here in this program.

I'm reading this because I don't want to miss anything. I don't have a teleprompter; I'm not all fancy schmancy, guys. I am a typical chick just like you. If you're listening to this audio, then good. You don't care that I'm not looking at you. But if you want to watch the video, that's fine too. So, my eyes are going to be down here for a little bit. Bear with me. I love you. I'm coming back to you, I promise.

You're here because you want to attract a loving and loyal man. You've realized that you've had the wrong strategy this whole time, but it's not your fault. You've been pushing him away. And maybe if you think about it, you can see how you may have repelled some of your exes too. I know it's not an easy pill to swallow. The old strategy has also been keeping the not-so-good ones around, causing you heartbreak, wasted time, and skepticism about relationships.

Now, maybe even a little bit of fear and doubt about loving a man again. You know now that you've been using a male strategy on men, and this is why it has felt like you've been pushing a rock up the love hill. It's not your fault. You were using dating and relationship methods that made you fall for him. Let me rephrase that. You were using dating strategies that he used so that you would fall for him, and you were trying to use that on him, and it didn't work that way, right? Now you know that using male dating and relationship strategies does not work on men. In fact, they actually turn them off. It makes them change their mind about you, even if at first he was into you.

Ultimately, it just repels a good man and a great relationship that could have come from that great guy. Not only that, using male dating methods with men will attract the men that bring you insecurity, confusion, and heartache. You know those guys—the ones that are never ready for a relationship, that make you do all the work, and they never commit. All that is done, all right?

You're ready to use the Feminine Attraction System so that you can engage with him in a way that makes him feel so good when he's with you. It makes you feel totally in control, but not in a

# The *Feminine* ATTRACTION System

masculine way. We're not being that scared masculine girl that I talk about. You're gonna feel calm as a cucumber. So good that it helps him easily know that you're the only one for him.

Learning and using the Feminine Attraction System is going to allow him to feel like being in a relationship with you is effortless, fun, and totally different from any other woman in the past. It's going to be so easy for him to connect with you deeply on an emotional level like he never has with any other woman. It's going to make engaging with you or spending time with you the actual thing that makes him fall head over heels in love, obsessed with you, feeling like you're the best part of his life and the one thing that makes him the happiest and best man he can be.

How crazy is that? I know, I know. It sounds crazy, but I promise you it's true. No more of him saying that he's just not ready for a relationship right now or you feeling confused by his actions or lack thereof.

With the FAS, I'm going to start referring to it as FAS because I don't want to say Feminine Attraction System this entire time, okay? Thank you. With the FAS, the way you engage with him will make you stand out so he falls hard. You're going to stand out and he's going to fall with the Feminine Attraction System using these methods, okay? None of this is done with manipulation, lying, or only showing certain parts of you and hiding others. Nope, this is honest, open, and transparent feminine engagement that you've never learned before.

You see, feminine attraction is all about being yourself. So you'll never be nervous when you're with him because you're just being yourself. You'll always know what to say and do. And heck, you'll even know what to wear. You know what I mean, ladies. I am just healing from two weeks of being sick with tonsillitis, laryngitis (lost my voice for a whole week), and bronchitis. I have a cough. I'm still healing. If I cough, I'm so sorry. I'm going to try to edit these parts out, but I'll do my best not to cough. I have a lot of water and coffee right here.

Feminine attraction is all about being yourself. When you're yourself, you're not nervous because you know how to be you. Some of you guys have never dated a man and allowed yourself to just be yourself. Imagine dating a guy when being yourself is the thing that makes him go crazy for you. That's what this is. That's what this program is all about. The confidence that comes from being totally yourself and comfortable in your own skin in front of a man is the most important and attractive part of femininity. It's the thing that actually drives him crazy about a feminine woman.

You see, most women subconsciously operate in their masculine energy when they're with a man, and this energy gives off the vibe of desperation, neediness, insecurity, and fear. All the vibes that completely turn a guy off. A loser wants a desperate woman. A liar needs an insecure woman. A little boy wants a mom and a controlling woman who does all the work. I'm going to repeat that because I think it's so important for you to hear right now.

# The *Feminine* ATTRACTION System

A loser, a guy that doesn't have his stuff together, doesn't have any job or makes no money, he's broke, he doesn't love God, and he's not an honorable man—he wants a desperate woman. A liar and a cheater want an insecure woman. A little boy wants a mom that's controlling and does all the work. So when you're being controlling and motherly, when you are insecure, when you are desperate, you are attracting losers, liars, and little boys. I'm sorry to say that, but no more of that.

The feminine confidence that you are going to learn in this program attracts strong, masculine, loving, and loyal men and repels these guys who will run from you. It repels the losers, the liars, and the little boys. You know who I'm talking about—those immature guys that are just... I don't want to say the word, but F boys. These immature guys will not stand a chance with the new you. Never will they even be near you, and you will not even be attracted to them anymore. I promise you.

Remember, loving and loyal men operate completely differently than immature men do. They want a totally different type of woman—a feminine woman, not a controlling masculine one. I'm going to say that again. Loving and loyal men act and operate completely different from immature guys. A loving, loyal man wants a feminine woman, not a controlling masculine one.

When you follow the FAS, you'll stop all the toxic attachment-based bonds that you had before with these losers, liars, and little boys. You know what I'm talking about—the ones driven by fear, neediness, and insecurity. No more masculine energy from you that used to repel loving and loyal men who protect and provide for you. Now that's all you'll date, that's all you'll attract, that's all you'll allow near you. Masculine men actually date women, they court you, and they handle relationships completely opposite to what you may be used to. So get prepared for romance and maturity. Grown-up, safe, respectful, secure, supportive love.

It's important that you understand that the way you show up and engage with him every single step of the way allows him to feel, think, and know that you are the one for him. Every step in this process is important and necessary to make him feel, think, and know that you are the one. Do not skip any steps. Each is crucial for the entire process, okay? Think of the system as a recipe to bake a love cake—a big, lovey-dovey chocolate molten lava cake, okay? This is a recipe with ingredients and instructions.

There are no optional parts that you can leave out. If you miss an ingredient or a step in the instructions and the baking process, the cake will be flat, dry, tasteless, and nasty. The final product will taste bad and feel bad, meaning it won't be good enough to serve. The relationship you have will be painful, and you guys will break up if you do not follow the steps. Everything is so important in this process. The recipe, all the ingredients, and then the instructions on how to do it—it's all very intentional.

In this program, you will learn exactly how loving and loyal men think, how they feel, how they behave, and how they engage with feminine women. When you follow these strategies, you will

feel loved, chosen, and safe, confident in his love for you. You'll trust him completely. You'll never wonder if he likes you or if he's into you. Never. You're never going to be sitting there confused, asking your girlfriends those questions. None of that stuff anymore. You'll know that he wants you, that he wants to be with you and not want to be with anybody else. It's a total relationship game-changer. Imagine how you're going to feel when you experience that.

You will learn the process that the loving and loyal man takes, so you know exactly what to expect every step of the way. I'm going to be teaching you a lot about his process—how masculine men date—so that you can date in that way, and you can basically teach him how to date in a masculine way. Some guys do not know how to do it. But if he's a real masculine man, it will inspire him to step up into his masculinity. It's like a total, total game changer.

A feminine woman inspires a man to be in his masculine because you know the steps that he needs to go through. When you do that, it actually inspires him to take the lead and will weed out the other guys. Because when you do it the feminine way, it actually repels immature guys. It repels the feminine guys. You'll never be confused about what he's doing and why he's doing it. No more confusion or fear. You'll feel calm and confident about the entire dating process. You'll feel patient and never need to rush things or ask, "Where's this going?" No more of that. You're always going to be like, "I'll have my martini." No, seriously, you're just going to feel so chill on dates and in the relationship. When you're not with him, you're going to feel great, and when you're with him, even better.

Okay, so let's get into it. Now, watch the next video so that you can learn exactly how to use this program for success. See you there.
