“My childhood home was not complete until we had pops of turquoise velvet. It was a staple of my mother’s. I’ll never forget our dining room’s oyster linen drapes with turquoise velvet trim.”

DESIGNER
FRANCES MERRILL

“My mom is really inspired by travel. One house she did when I was a kid had a lot of stuff from a trip to South America—Bolivian *frazadas* [wool blankets], a mirror from Peru, and so on. They finished another house after a trip through India, and she painted the living room a saffron yellow.”

DESIGNER
HOLLY MATHIS

“My mom was doing gallery walls long before Pinterest. She mixed and matched good art with cutouts from the phone book displayed in garage sale frames. She is a true talent, and my best people and styling skills come from my mama.”
