

# Senior Sessions

Pricing, process and products

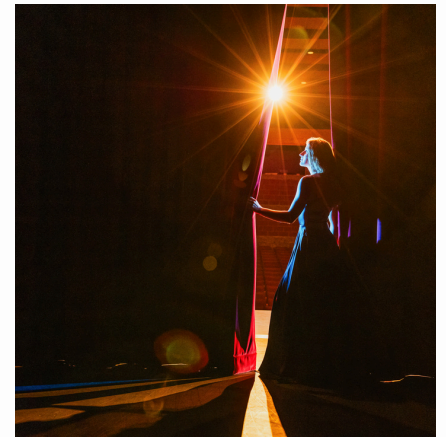

## Quick Intro....

Hey, I'm Rachel! The information here just scratches the surface of what a senior session with me involves. It's just enough to help you decide if you want to meet with me. Then we go over way more detail so that there are no surprises post session.

---

## Process

How it goes: First we have a consultation. We go over your wants and needs for the session, the timeline, the product pricing and I answer any questions you have for me before we ever pick a date or you spend a dime. After that it's planning, session, and order appointment which will be explained in more detail at your consultation.

## Product

Don't freak out when you read this.... I do more than digital. In fact it's more of an afterthought. I create real, physical, tangible pieces with your images for you to enjoy without screens. Of course you still get a digital file of images you order in product. You'll receive a full product guide at your consultation.
