A LUXURY EXPERIENCE

- ***Bespoke Treatment.*** Every wedding is different and every couple has different preferences, needs, and wishes for their wedding day. All offerings are fully customizable to best fit exactly what you're looking for. My goal is always to capture my couples' unique style, personalities, and vision for their wedding day through their photos and films.
- ***Experience.*** After photographing 275+ weddings over the past 15 years, it has given me a deep understanding of weddings and an unparalleled level of preparation. Rest assured that I have experienced every scenario imaginable and I am confident and comfortable working in any circumstance that may arise on your wedding day. I've had the privilege of working with clients of all walks of life and have an understanding of a wide range of wedding traditions. It's important to me that couples of all cultural backgrounds and beliefs feel welcome, accepted, and understood .
- ***Professional Equipment.*** I'm constantly upgrading my gear to include the most current, top-of-the-line equipment, including several full-frame mirrorless cameras, pro-level lenses, and high-end editing software. I have a meticulous and careful backup system to ensure that all of your files are treated with the care and importance that they deserve.
- ***Attention to Detail.*** Thanks to my Type A personality, I'm constantly looking for the best possible way to capture an image, paying attention to the most flattering lighting, angles, and backgrounds. I'm always keeping an eye out for any distractions that should be removed – both on the day of the wedding and during the editing process.
- ***Individualized Attention.*** To ensure that I can deliver the best possible experience to my clients and dedicate enough time, care, and attention to each wedding, I limited the number of weddings I book each season. Leading up to the wedding day, I offer lots of guidance and preparation to ensure that I can deliver the wedding images my couples have always dreamed of. I value creating genuine relationships with my clients, centered around empathy and hospitality, so that each client can have an exclusive and personalized experience working with me.

meet LIN

Hi! I'm Lin Pernille (*pur-NIL*). I've been a photographer and filmmaker for over a decade, specializing in luxury weddings and proposals. I'm based in the lush, mountainous Hudson Valley region of NY, but my team is always ready to travel wherever your love story takes us.

Though I have a background in fashion photography, briefly working for the Photography Department at Harper's Bazaar and shadowing the renowned fashion photographer Alexi Lubomirski, I fell in love with weddings when I shot my first wedding at 18 years old. I quickly realized that weddings combined every genre that I loved: photojournalism, still life, portraiture, fashion, and beauty. When I was 20 years old, during my junior year in college, I knew that I had found my passion and decided to officially form my company.

Discovering my passion early on in life allowed me to tailor all of my working years towards perfecting my craft. I received a Bachelor's Degree in Fine Arts with a concentration in Photography from Montclair State University, where I graduated summa cum laude and was the valedictorian of the College of the Arts.

I'm very passionate about being a business owner (you can always find a new business book on my nightstand) and I love sharing that passion with others any chance I get. Every year, I speak at industry events, conferences, and workshops, and I mentor photographers, filmmakers, and small business owners of all levels.

When I'm not shooting, editing, or mentoring, I'm probably binge watching a docuseries, spring cleaning the house (no matter what season it is), or hiking a local trail with my husband Corrado and our two young sons.

MY MISSION

There's no greater honor than to be able to photograph such a sentimental day in my couples' lives and for that reason I take my job very seriously. I will always strive to capture the mood, style, and all of the important moments of your day while being attentive yet unobtrusive, and making you feel comfortable and calm throughout the whole day.

My goal is to get to know my couples throughout the planning process so that I can translate their personalities and vision for their wedding through the photos & films.

Beyond delivering clean, timeless, vibrant images that my couples (and their families) will enjoy for many generations, my mission is to make every part of the experience, from the planning process to the wedding day, as seamless, organized, and stress-free as possible so that you can relax and soak in every moment of your wedding day, knowing that all of the photography details and logistics are taken care of.

I limit the number of weddings I capture each year so that I can give each couple the time, care, and attention that they deserve. My goal is for you to feel like my *only* clients – if you ever have a question or concern, please know that I'm only a call, text, or email away!

I'm very grateful to be able to do what I love and I can't wait to share more special days with more unique couples. Feel free to connect with me on social media – I love getting to know my clients! (**@linpernelle**)

THE VALUE OF WEDDING FILMS

We all know that wedding photography is a *must*. In the past, wedding videography has been seen as more of a “luxury”, but in recent years, it’s become more essential to include it in your wedding budget for several important reasons:

VIDEO CAPTURES WHAT STILL PHOTOS CAN’T

Photography captures all of the formal, timeless images you need to have from your wedding day – posed portraits of the two of you that you can hang up on your wall, photos with your bridal party, and family portraits you can share with future generations.

But there are several things photography can’t capture that only video can. Still photographs can’t capture audio, mannerisms, and motion. A wedding film allows you to see your dad’s lip quivering as he walks you down the aisle, tears well up in your partner’s eyes the first time they see you on your wedding day, your interactions with each other as you’re taking portraits, your veil blowing in the wind, or a slow motion kiss.

A wedding film will remind you of all the sentimental things that were said on your wedding day. You’ll be able to hear your voices crack as you read letters from each other, the applause from your guests when you’re officially pronounced married, the tears as you say your vows, and the laughter during the reception speeches.

AN EXTRA SET OF EYES AND EARS

No matter how much you try to be “present” on your wedding day, there will inevitably be moments you aren’t able to witness. Our job is to capture all of those real, candid moments that you might have missed (or forgot even happened!) so you can relive every special moment of your wedding day for years to come.

ABSENT LOVED ONES

Hopefully you are able to have as many of your loved ones, family members, and friends with you on your wedding day, but unfortunately, things do happen. Maybe you have family overseas, a relative is in the hospital, or maybe you had to cut your guest list short because of venue restrictions. Having a wedding film will allow you to share it with loved ones wherever they are in the world so they can watch it and experience the entire day as if they were there in person.

WEDDING FILM AREN'T WHAT THEY USED TO BE

When you first think of a wedding video, you may think of the long, uncurated wedding videos from the 1980s, with 2+ hours of unedited footage. Modern wedding films are much more curated and artistic. The most popular option is a Highlight Film, which is a 4-6 minute video that combines edited footage, music, and the best audio clips from the day, so you can relive all your favorite memories in a “short and sweet” video. If you prefer to see all of the important moments of your day in their entirety, a Documentary Edit is a longer 50-80 minute edited video.

OUR APPROACH TO WEDDING VIDEOGRAPHY

Your wedding day shouldn't feel like a movie set.

Our top priority when filming a wedding is for the couple to feel comfortable and relaxed so we can capture their true personalities, gestures, and interactions on camera. In order to capture genuine moments, we have a photojournalistic approach, acting as a "fly on the wall" for the majority of the day, only tweaking or posing when needed. We never want any of your shots to feel forced, staged, fake, or overly directed.

My favorite compliment is when couples tell us "I totally forgot you were even there!" or "How did you get those shots? We didn't even notice you filming!"

Being in front of our cameras should always be a fun, painless, enjoyable experience. Our mission is to capture your day artfully, naturally, and thoroughly, while being unobtrusive, courteous, and friendly to all of your other vendors, guests, and wedding party.

FREQUENTLY ASKED QUESTIONS

Here's a list of questions I'd recommend asking at your wedding photography/video consultation:

- How many years have you been shooting weddings?
- We'd love to get to know you personally, too! What are your hobbies/interests?
- What's your photography/shooting/editing style?
- What timeline would you recommend for our wedding day?
- How many photos do we receive?
- How do we receive the photos? Are they high resolution, unwatermarked, etc?
- How long after the wedding can we expect to receive the photos?
- Do we receive the rights to the photos?
- What types of edited film options do you offer?
- When are the payments due?
- What forms of payment do you accept?
- Do you have Liability Insurance?
- Do you charge a travel fee?
- Will you be the photographer/filmmaker shooting our wedding?
- What would happen if you got sick/injured on our wedding day?
- What would the next step be to book you??

To schedule a consultation, just reach out and let me know what dates/times you're available and we can set up a video call or phone call (or an in-person meeting if you're in the Dutchess County area)! lin@linpernille.com
