How to Select a Photographer

Picking the right senior portrait photographer for your senior pictures is huge! This is a once-in-a-lifetime-event. You want to make sure that your photographer is a professional and has the right gear, expertise, software and products. Here are a few things to look for when choosing!

#1: STYLE

Instagram. Facebook. Snap Chat. You've seen their work, now ask your self, "Do I like their style? Is that how I want to be portrayed? Can I see myself in one of their images?" If your answer is YES, learn more about this photographer! Contact them and set up a meeting to learn more. At Humke Group consultations are always free! I invite you to come visit the studio, see all our products, and go over items we offer and their cost. (Price list available!)

#2: EXPERIENCE & KNOWLEDGE

Does the photographer have the experience needed to produce high quality images? What exactly *is* their experience? Are they self-taught, watched You Tube or formally trained? We have been photographing portraits and weddings since the 90's. That's oodles of experience in lenses, lighting, and posing. Four years of undergrad (UW-Madison) in photography and graphic design, and two major design/photo career moves (Ad agency and Fortune 500 Co.) is assurance you are in the most professional of studios.

#3: GEAR AND STUDIO

It isn't your job to know what equipment is needed for those beautiful images, but you can be sure your photographer knows - either they have it or they don't! I would recommend you ask if they use a full frame camera, and

then ask which lenses they use! (For your best images, I would recommend a lens of 85mm or greater) Do they use additional light (you need this!) at your outdoor session or are they a natural light only photographer? TIP: *Skies are blue. They should not be white!* Likewise, your face should always have some skin tone - do not settle for faces too light or dark.

#4 SOFTWARE

What software is your photographer using? Do they know how to use it? Seniors are not really willing to accept "straight out of camera" any more and instead prefer a bit of retouching, From a little skin softening, to a bit of iris pop and stray hair removal. These are standards! If you'd like to go a smidge further, we can tuck your clothing in a bit tighter to your body, remove those obtrusive elements in the background, add additional lighting or just take the image to the next level.

#5: PRODUCTS

If you love many of your photos, does the photographer have a way for you to get them all? Albums are a great way to showcase a variety and can tell a story that will be priceless later in life. Wall decor is great for mom to have at home once you leave. There are so many cool things available now, they may have products you love that you didn't even know existed! What do people often purchase? Albums, wall canvas and frames, acrylic blocks, and digital images for sharing

online. Do you want an app for your phone or printed proofs? Do you want prints or a CD? (All our prints are created at exclusive, member-only professional labs. You will not receive the quality, durability, and color fastness of a print from your CD at Walgreen's! I highly recommend purchasing prints so that your legacy will be handed down for generations.) Schedule your free pre-consult to have all these questions answered. It will help establish expectations early on!

#6: PORTFOLIO

Keep in mind, any photographer is going to show their best on their website and marketing. So if their best is just OK, keep looking. Does the color look real and beautiful? Or is everything fake and photoshopped? Is the retouching enough without being too much? Did they use lighting to make people look their best? Are they posed in a flattering manner? These are all important, because if the people on the website don't look good, you probably won't either! Ask to view an entire session!

NOTE: Price is not a decision making factor! The old adage "You get what you pay for" has never been more true in this age of senior photography. Luxe products, high end editing, and guidance from start to finish is what Humke Group is known. Taking the time to always make it right are our words to live by.

#7: AWARDS AND ACCOLADES

2020, 2021, and 2022 Winner of national awards in the senior photo industry! What does this mean to you? This gives you assurance your images be amazing! Plus, you just never know when I will enter your images to win world titles!

Bring as many outfits as you like (if you are unsure what will photograph well, bring more outfits and we’ll help you choose.) Also, bring simple props: musical instruments, sports gear, letter jacket, pet (yes, pets are welcome and encouraged). Not sure what to wear? If you have location ideas send me the 411. Double check you have the right undergarments for that top! Tweeze those brows, stray hairs will show. Bring a parent/guardian if you’d like. We’ll review packages, products available and help you find the best value to fit your needs. Come prepared to order and select your yearbook photo.

Want to see what your images look like in your home? Submit an image of your wall for our in-home free portrait design service. Send image 1 week before Order Session. The Extra Sesh

If you are known for something, please share! Are you a superstar ball handler, love the ice, passion for books, already taking college classes, have a hobby that has become a job? Let's showcase what you love!

SPORTS, HOBBY & FANTASY

Does your hobby consume a great portion of your day? Are you addicted to your favorite sport? Do you love a certain author and want to become part of the novel? Let's get creative and grab the uniform, or bring the props to set the stage. Everything is possible! Contact me for the consult and we will begin throwing ideas around.

If your sport is out-of-season, contact your coach to get the uniform. Do you want to shoot

indoors on a court? Outdoors at a pool or lake? Ice rink? Gymnasium? Golf Course? Stables? Dance studio? At your cottage? Theater? School? Start thinking!

COMPOSITE (RIGHT) Loads of possibilities with any sport. Let's talk about the options at your consult!

You can add on this additional 1 hour session, completely dedicated to your passion, 1 location for \$100

Is Editing that Important?

Editing. You hear it all the time, but seriously, what is it? There are many, many steps to be taken after your session. After the obvious (upload to computer!) the images need to be culled. At this point I will view your eyeballs at 3,000%. If they aren't tack sharp, I toss the photo. Next I select the best poses from each grouping. I keep only the best. Lastly, lighting has to be perfect, if it isn't, bye-bye. Now I have reduced the shoot from 300 to less than 100 photos. Let the editing begin.

ROUND 1 A minimal edit is made to every photo you will see at your Reveal and Order Session. Your images will be color corrected. That means they won't appear too yellow or too blue. They additionally won't be too light or too dark. The skin may be lightly retouched, the sky slightly burned in, or a distraction removed. Round 1 will be a representation of the final image.

ROUND 2 After you make your selections I go back to your images and make a few more tweaks. Your skin will be slightly softened and blemishes removed. Anything "temporary" (think a razor cut or acne) will be lightened or removed. Eyes will receive a bit of pop. Stray hairs removed. Eyebrows can be tweezed. Bumpy clothing can be smoothed. Minimal enhancements can be made to the waistline, or arms can be toned. Any such requests will be made and noted at your Order and Reveal session, extensive requests \$25/image.

ROUND 3 Sometimes an image just needs a little something something!!! Feel free to ask how we could enhance your favorite photo to really sing. Perhaps the background needs a bit more blur. Or you want to add a shaft of light to the golden hour's back light. Maybe it needs some WOW, or an artist's interpretation. Let me work some of my magic and present to you a revised piece of art. \$50/image.

SKIN COLOR Oh this is a big one! Color Correcting for skin is important. At Humke Group we calibrate our screens every week! You should never look yellow or blue. In fact, your skin should always have some color! White faces are not normal!

WARDROBE MALFUNCTION It only takes a small breeze to destroy the beautiful lines of your outfit. Catch it at your reveal and it can be modified for the final print. If you would prefer a little additional trimming, now is the time to speak up.

COLOR CASTS You may have to look twice to notice what I am describing. See on the sides of Andrew's face there is green light? That is from shooting in a deep woodsy area. All the light around us has a green cast. Only the best retouchers know how to expertly remove color casts.

BRACES Want your braces removed? This is a bit more detailed, and depending on your braces style, can be quite the process. We are more than happy to remove them on any of your final selections. There is a \$25 fee for each image to be professionally edited.

RETOUCH SKIN Single blemish or a more serious case of acne, we can make sure your skin is made clear and still retain texture. You do not want the plastic look of skin that was made too flawless. Skin is big business in the photoshop world. There are right ways and not-so-hot ways to get it done. Review your selected photographer and take a look at their skin edits!

TIPS

FACE All eyes are on you and your face. You are the center of attention, not your clothing - however, there are some good tips to follow for your outfit choices. Pluck, tweeze, wash face, acne treatments - do what is needed because I do a lot of close up work! Did I mention, PLUCK? Yes, my camera picks up on that! (Boys, shave before appointment - you have stubble showing!) Don't worry about a break out - I have software for that! This is important! You must groom for this appointment!

MAKE UP: Slightly more mascara, less eyeliner. Apply make up as you do daily. Avoid sparkly make up or glitter. Bring powder - helps with shine or sweat! If hot outside, bring a washcloth to blot or wipe. If you wear glasses, consult your eye wear professional. They will often pop out your lenses and put them back in at no additional charge. Even non-glare lenses do produce glare at the right angle.

Unsure about your make up skills? Let my Hair and Make Up gal take over! Schedule with Kate Erin!

BRACES can be removed, \$25 per image. Your nails should be neat and clean, light polish is great. A lot of head shots will have your hands in them. This is important! No chipped nail polish please! Also, If you choose to go without shoes, have toes looking great too!

TANNING Don't over tan and watch your tan lines. Hair - don't try a new style! Have a trim 2 weeks before appointment. Don't be afraid to wear it down for some and put it up for a few. A quick change by adding a clip or a simple braid give you a lot of choices! Options! Bring more than you will need. (You will never bring more than Lilly, she brought a steamer trunk!) Location choices will play into your outfit selection.

IRON YOUR CLOTHES and arrive with them hanging on hangers. Girls, add your jewelry to the hanger! Undergarments should not hang out - find a bra that works with outfit so you don't have to tuck it in on every shot. I'd recommend a strapless bra. Plunging necklines and mini skirts - your choice, but use caution - a lot of poses may reveal too much of you:) Check COLOR of your bra! No black bras under light garments, and vice versa!

ACCESSORIZE! Layering a scarf or hat adds incredible options. Try different jewelry, belts, boots/shoes, etc. Earrings or a bracelet and necklace add a complete head to toe look! Select classic pieces to avoid a dated image in 20 years! If you have accessories (necklace, bracelet) you can hang it right on that hanger too!

SUMMER HEAT/WINTER COLD As we work our way around town, you will have to change in the back of my vehicle! Don't fret - I have tinted windows and ample room to move. If weather is a concern, I have heat and air conditioning. If it is stifling hot day, bring some powder and a cold compress.

WHAT TO AVOID Stay away from bright, loud colors, distracting patterns and words. Solid colors work well. Plan to layer for more looks. Great summer colors: blues and greens, darker pinks and purples. Great fall colors: red, gold, dark greens, plum.

HOW TO APPEAR SLIMMER: darker jeans and darker colored shirts, stay away from colored jeans. Try long sleeves, avoid tank tops. Lines should remain vertical or diagonal, patterns smaller. Whatever you choose, posing plays a critical role in slimming, so rest assured, I will pose you in the most flattering ways.

FAVORITE, WELL FITTING CLOTHING should be your go to! Minimally bring: Girls, bring 4 tops, 3 bottoms, maybe a dress or skirt and a couple changes of shoes. Guys, grab at least one long sleeve button down or polo shirt & a t-shirt. Jeans and a pair of shorts give you a few options. I strongly encourage you to bring a lot! **TONE IT DOWN** - patterns can be distracting. Small patterns, soft florals, plaids, are fine, but big and bold will distract the attention from you - do not underestimate the power of simplicity! Solid colors are great. Add interest with texture, layers, jewelry. Bring a jean jacket, bring a sweatshirt - layer, layer, layer. Have a LOT of layering and accessory options.

BE COMFORTABLE You will be trekking around town - wear shoes you can walk in. Bring some heels and flats for your photographs. You will be sitting, standing, lying down, climbing up/down, etc. Shoes will show! Don't be shy! Bring your favorite . . . lucky penny, childhood stuffed animal, heirloom jewelry. Some possessions can easily be slipped into the photo, others may be the center of attention - but if it means something to you, it belongs with you - so bring it!

PARENTS AND FRIENDS A parent is always welcome and can be a lot of help. I can always use an extra person to hold a reflector or keep a light stand from blowing over.

RAIN . . . Whether we like it or not we can't control the weather. If it is raining at the time of your outdoor photo session we will have no choice but to reschedule. But if it is cloudy and overcast! That is a great day to shoot! Some of my best shoots ever happen with stormy skies! Please call the studio to see if your session is still on. Put all outfits on hangers. We will hang in the truck - afterall, you spent a lot of time ironing - let's keep you looking neat!

THE STYLE CLOSET!

Best invention ever! Our Style Closet has dozens of new outfits for you to wear! We have trendy fashion pieces, select couture garments, shoes, jewelry, hats and other accessories. It's all included in the Celebrity Session. Just plan to "shop" the closet during your Consultation. We will note your choices and have them pressed and ready for your photo shoot day! Not only does opting to use the Style Closet take out the stress of preparing for your session, it is a convenience to have style at your fingertips without additional shopping trips!

The closet has items from Free People, Anthropologie, J Crew, and of course general staples like Target. The best part is that we are CONSTANTLY adding to it! We have a variety of sizes, styles, brands and colors - truly every senior will be able to find something here to polish off their senior portraits!

☐ Session fee was paid, and you received email confirmation with dates and times!

☐ You submitted your 411 with locations listed!

☐ Two weeks prior; haircut. Time to pay attention to the sun! Prevent sunburn and watch those tan lines!

☐ Brows are trimmed and plucked, this means you too, handsome fella! Additionally if you have a bit more stubble at the end of the day, consider shaving later than usual.

☐ Props you are bringing: _____ . Trophy, sports item, favorite book, musical instrument, pet, pom-poms, memorabilia from senior trip, etc.

☐ Person you are bringing: _____ .

☐ Outfits are chosen. You have many looks and can mix and match pieces together. You have layers and accessories for each. Bring Extra! Add a sweater, jean jacket, etc.

☐ Outfits are WRINKLE-FREE!

☐ Don't forget matching shoes! Select jewelry for each outfit.

☐ Proper undergarments are packed and you tested them out and they work! Please no stripes or flowers under light colors! Nude color works best!

☐ Outfits are hanging on a hanger with jewelry, belt, undergarments attached.

☐ Guys! I always recommend a suit and tie look! It is just an option, but it will definitely put you in the big leagues.

☐ Same for you ladies! A long gown or prom dress is always stunning!

☐ Make up bag. Powder. Lipgloss. Deodorant.

☐ Girls, consider changing up your look during your session. Wear a messy bun! Throw in a braid! Wear a baseball cap! Bring hair accessories!

☐ Hairbrush. Hairspray. Hair gel.

☐ Sunscreen, bug spray.

☐ Kleenex (for your mom).

☐ Glasses have a glare-free coating or lenses have been removed. Ask your Doctor! We can shoot with lenses intact, but it is much easier without lenses.

Questions

Humke Group strives to offer the best senior portrait experience around! We have the longest sessions in the area, from 2-5+ hours. It's important for us to take our time with clients in order to create a natural, relaxed and fun senior portrait experience! No pressure to rush, rush, rush. That way, you can make a ton of changes in locations, wardrobe, hair and makeup so that you can have plenty of variety for your senior portraits and products!

WHEN SHOULD I HAVE MY SENIOR PORTRAITS TAKEN?

Typically Senior Portraits are taken the summer before your Senior year. However, if you're not interested [or don't need] a Yearbook photo, some Seniors choose to have them taken the spring of their Senior year. Just make sure you check with your school about the Yearbook photo policies and deadlines.

WHAT SHOULD I BRING WITH ME?

Along with your change of clothes, I recommend bringing basic stuff like a brush, powder, lip gloss, etc. A can of hair spray always helps with fly aways! I always have a necessities pack in the truck - emergency lint roller, hair brush, wash cloth, pins, lip gloss, etc.

WHAT ABOUT MY YEARBOOK PHOTO?

That will be your first selection when we are finalizing your choices! I will edit it and submit to the yearbook on its due date. You should follow up with the yearbook after the submission due date and verify the image did not get lost.

HOW MUCH SHOULD I PLAN TO SPEND, AND WHAT DOES 'MINIMUM INVESTMENT' MEAN?

When budgeting for your Humke Group experience, you should account for both the session fee and the minimum investment. The final amount that you ultimately invest is entirely dependent on you! 'Minimum investment' is determined in order to help our clients establish and prepare a budget for the complete experience well ahead of time.

WHAT IS THE BEST WAY TO ARRIVE WITH ALL MY OUTFITS? Arrive with your clothing on separate hangers, shoes in an easy carry bag or bin, accessories either on the hanger or in a container specifically for your baubles.

WILL WE GET LOST TRYING TO FOLLOW YOU? Not at all because we will all travel together! We can fit 4 people easily with room for outfits, shoes, accessories, props and my photo gear!

WHO WILL ATTEND MY SESSION? You are free to invite a parent or a friend. There will be two of you, three if you really insist plus your photographer and lighting assistant.

I'VE SEEN PHOTOS ON PINTEREST – CAN WE TRY THAT?

Absolutely! I love to see what my clients have in mind! You can text me photos. Just give me ample time to make the stars align and make this happen. I love to see what photos you like!

WHAT DOES “COPYRIGHT” MEAN AND WHAT AM I ALLOWED TO DO WITH MY PHOTOS?

Without getting too legal on you, a copyright is the protection of my images. All work is copyrighted. Many clients have asked me what is “ok” to do with images or photos, so here are a couple examples of copyright infringement: copying a photo on a copier, screenshots of a photo for personal use [eg. framing for a wall, Facebook, etc.], or editing a photo to remove the copyright symbol.

WHAT ABOUT INSTAGRAM & FACEBOOK?

Please feel free to post any photos I put on social media, (Don't worry I'll tag you!) I just ask that you don't crop out my watermark. Social media files are part of every photo package and don't worry, you can buy more!

CAN I MAKE MY OWN REPRINTS?

You may make your own reprints if you purchase the digital negatives. You will receive a Print Release to share with print vendors. Reprints are always available through Humke Group!

HOW LONG DO YOU KEEP MY IMAGES?

Non-ordered images are removed from our system the next morning following your sales appointment. We do not keep or archive any files which are not ordered at your sales appointment. All ordered images are archived for a period of one (1) year from the date of the sales appointment. Archival storage can be added to your order if you would like - that keeps all your final prints in our files for as long as Humke Group is in business.
