INTERIOR STYLING + BRANDING PLAN.

OVERALL STYLING.

A vibrant, fun, Afro-Latino Inspired Taco Joint, with bold color, lots of culture, and a bright history lesson that packs a punch in Richmond, VA.

PATRON SEATING.

Bright metal chairs

Id love a mix of black leather, black and white with bright poms, and solid color pillows on the benches!!

Wood floor sanded and stained to match the benches and tables (bottoms of one table leg per table, to be wrapped in colored string (see right))

Love this pattern for the cushion. Its African but in super bright colors.

Wood Bench in along the wall, with back cushion built onto the wall for lumbar support (fabric pattern below)

Fringe Pendant lights add a latino flair to the mix!

SERVICE STATION + SUCH.

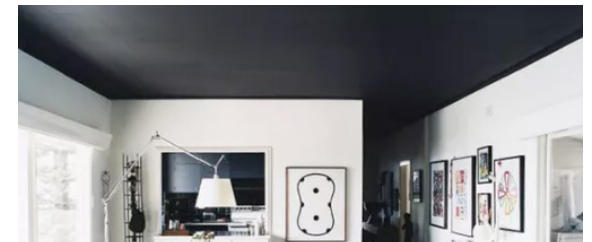

Love the idea of this being in WHITE AND WOOD Colors only, to neutralize the strength of the pattern, with colorful rope pendant lights hanging above to add the color (see below for installation style in Photo A, Colors in Photo B)

Faux White Brick wall on one of the main walls

Menu on wooden shelves with letter blocks for easy changing without the need for custom art. Would love these to be a bright color against the white wall

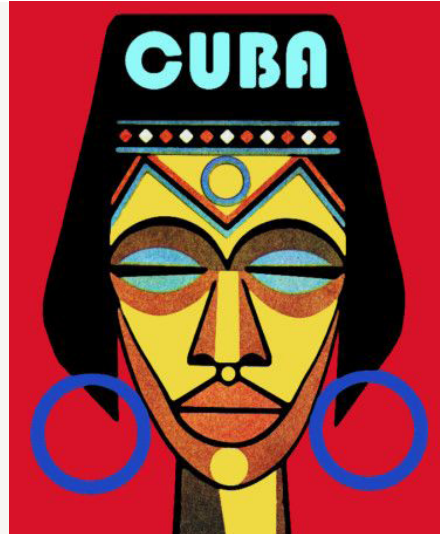

Black ceiling throughout

ARTWORK!

Indego Bowls on the wall at least once!

Would love a mix between African, Latino art, and Black and white photos of Richmond History with little blurbs beneath those.

Black frames with strong pops of color.

FLOORPLAN.
