# ABOUT US

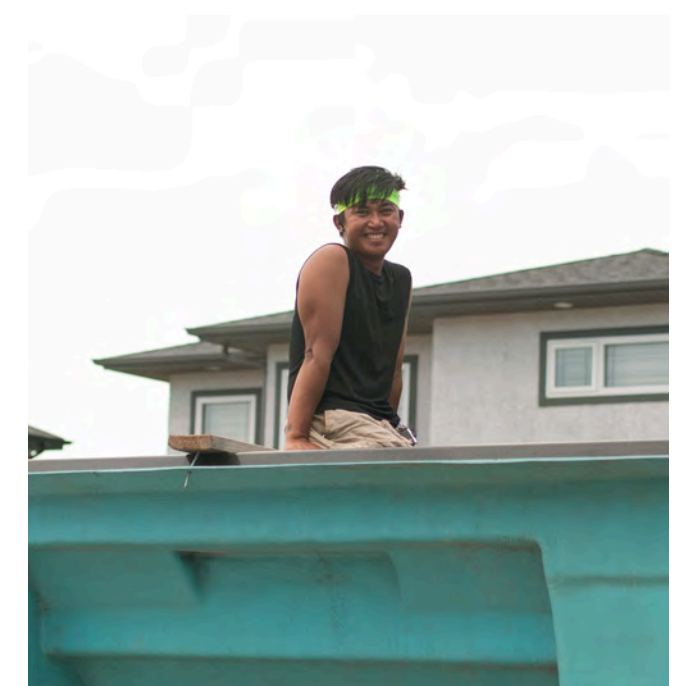

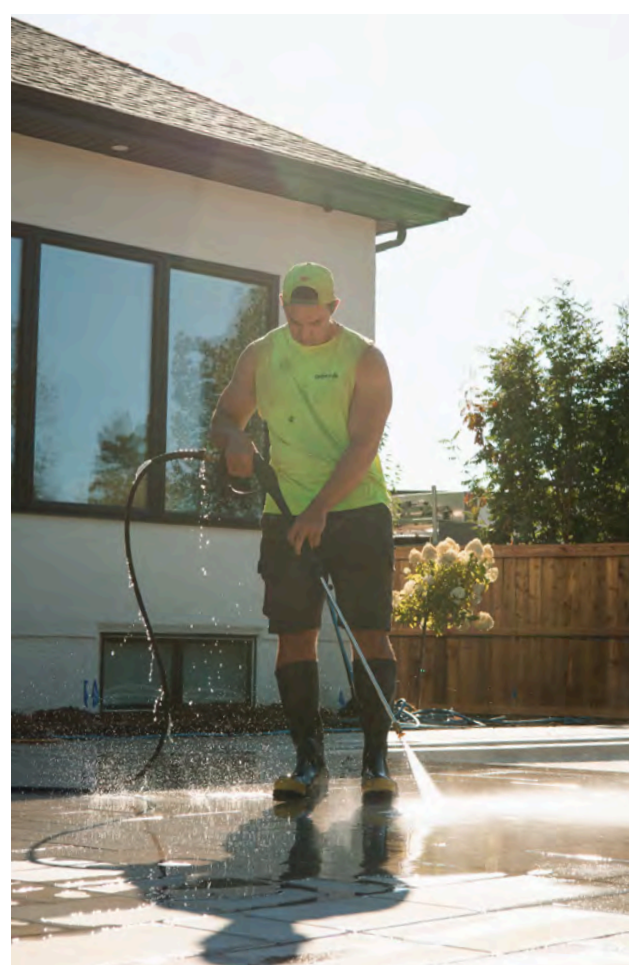

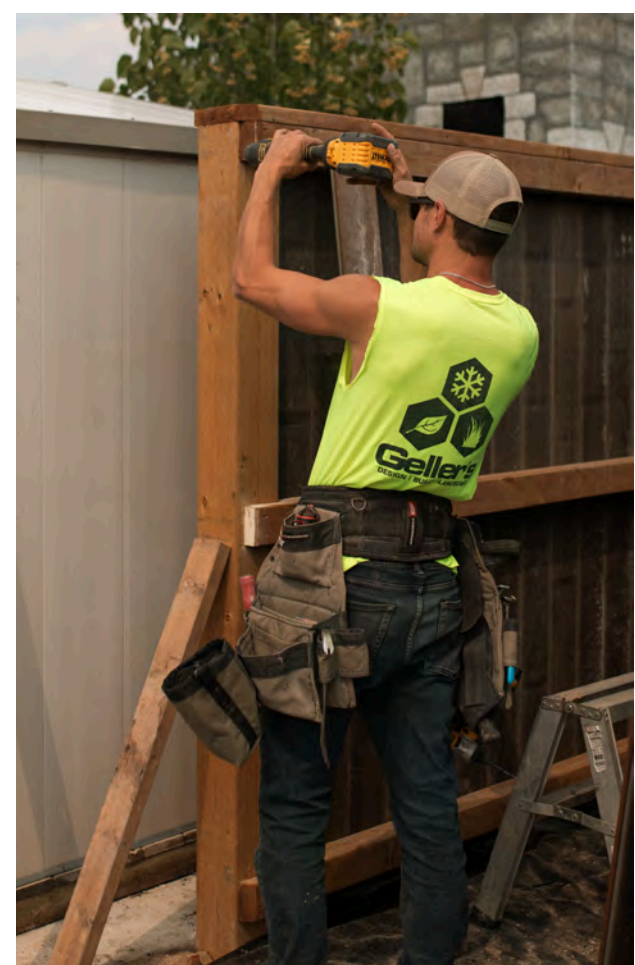

At Geller's Design | Build | Landscape, we believe outdoor spaces should feel inspired, effortless, and deeply personal. Since our founding in 2011, we've grown into one of Manitoba's premier outdoor living companies, known for creating landscapes that are as beautiful as they are functional.

We design, build and maintain spaces that elevate everyday living, with thoughtful layouts, intentional detailing, and seamless integration between architecture and nature. Whether modern and streamlined or warm and timeless, every project is crafted with care, creativity, and purpose.

With a designated point of contact simplifying the entire process, you reclaim valuable time with your family as our award-winning team manages every step.

Based in Winnipeg and serving Manitoba as a whole, as well as North-Western Ontario, our award-winning team blends artistry with technical expertise to deliver landscapes that stand the test of time. From concept to completion, we ensure each element contributes to a cohesive, resort-inspired environment you'll enjoy for years to come.

#JustGetGellers for all your outdoor lifestyle needs.

# OUR VISION

Our vision is to create extraordinary landscapes that seamlessly blend elegance, functionality, and lifestyle. At Geller's, we are dedicated to ensuring every client has an exceptional experience, from the first conversation to the final unveiling, because we know that when our clients are inspired and delighted, everything else falls into place.

By keeping all services in-house, we maintain complete control over quality, craftsmanship, and timelines, while ensuring costs remain fair and transparent. From patios and pools, to trees and shrubs, structures and lighting, no detail is too small to be perfected. Our family-style approach to client care is matched by a relentless pursuit of excellence, innovative building practices, and creative design solutions. Every project is a collaboration, a chance for our talented team to bring your vision to life.

At Geller's, we are proud of what we build, passionate about what we do, and driven by the joy of creating outdoor spaces that inspire, refresh, and elevate the way people live. Our vision is to redefine outdoor living in Winnipeg and beyond, transforming everyday spaces into luxurious escapes where lifestyles are enhanced and memories are made.

## CONSULT

Your design journey begins with a personalized consultation. We take time to understand how you want to live in your space, your vision, lifestyle, priorities, and inspiration. Together, we explore key features, materials, and styles while establishing an investment range aligned with your expectations.

**What this means for you:** Clarity, direction, and a complete roadmap for moving forward with confidence.

## DESIGN

Once your design contract is finalized, we conduct a detailed site survey and create a 3D model of your property using advanced design software. Based on your chosen package, we develop up to three design concepts that explore different layouts, materials, and investments. Our team guides you through every revision until your dream yard comes to life, from hardscaping and plant species to structures and lighting.

**What this means for you:** A visual, realistic, and comprehensive look at your future landscape.

## QUOTE

Upon finalizing your design and preliminary budget, a detailed build proposal will be presented. This includes individual line items for all elements within the build, giving you a ground level view of the costs associated with your project. We will refine these concepts together until the final design reflects the investment you want to make.

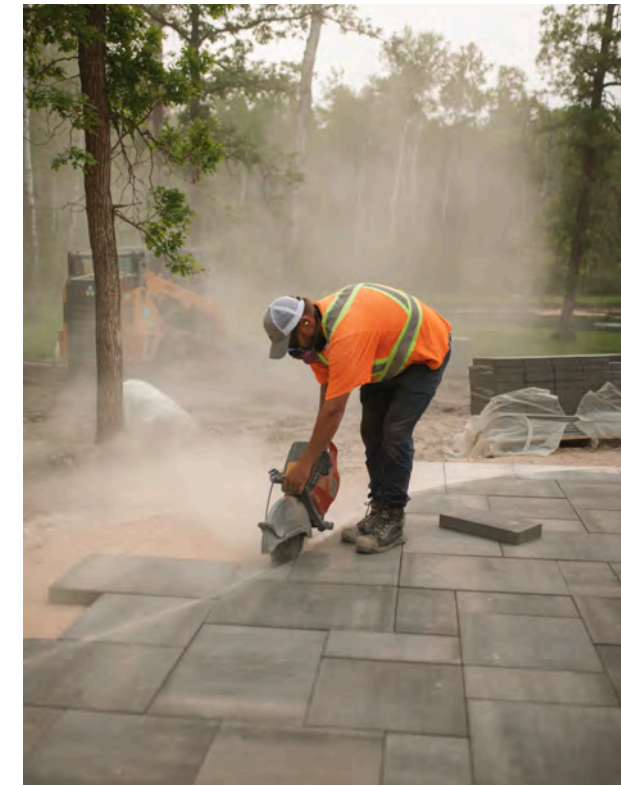

**What this means for you:** No surprises, a clear understanding of the full vision and how we'll bring it to life. Receiving fixed price contracts to ensure a clear understanding of the total contract.

## PLAN

Before construction begins, you'll meet your dedicated construction manager for a pre-installation walkthrough where we review the scope, timeline, and expectations. We coordinate all engineering, zoning, and permitting requirements to ensure a streamlined experience. The construction schedules will be finalized, materials ordered, and all of the pieces put into place to ensure an efficient and timely build.

**What this means for you:** Consistency, reliability, and craftsmanship you can trust. A project finished on time and on budget.

## BUILD

During construction, you'll stay connected with your dedicated project manager, foreman, and designer. With 95% of the work completed in-house, our team maintains the highest quality standards while ensuring efficient scheduling and communication.

**What this means for you:** Confidence in your investment and a clear understanding of the day to day activities taking place on site, and consistent active communication through the process.

## PRESERVE

After completion, our industry-leading maintenance team ensures your landscape continues to thrive. Every project includes a personalized after-care booklet detailing materials, warranties, and care instructions. We offer extended warranties and fully customizable maintenance packages, including: Lawn care and fertilizing, shrub and perennial maintenance, gardening and mulching, snow removal, and annual planters.

**What this means for you:** A worry-free, beautifully maintained landscape year-round, that protects your investment for generations to come.

BRING YOUR VACATION HOME.

# CONSULT DESIGN QUOTING

The Geller's design team is made up of passionate professionals dedicated to creating outdoor spaces that transcend traditional landscaping. Our creativity, ingenuity, and meticulous attention to detail set us apart, as we continually strive to exceed industry standards and introduce fresh, innovative ideas.

While our design process is highly collaborative, you will work closely with a lead designer throughout consultation, design, and quoting. This ensures you have a dedicated guide every step of the way, providing continuity, support, and a seamless experience from concept to completion.

- Passionate, innovative landscape architects and designers.
- Advanced 3D renderings for fully visualized concepts.
- Designs tailored to budget, lifestyle, and personal style.
- Collaborative process with a dedicated lead designer.
- Seamless transition into construction planning.

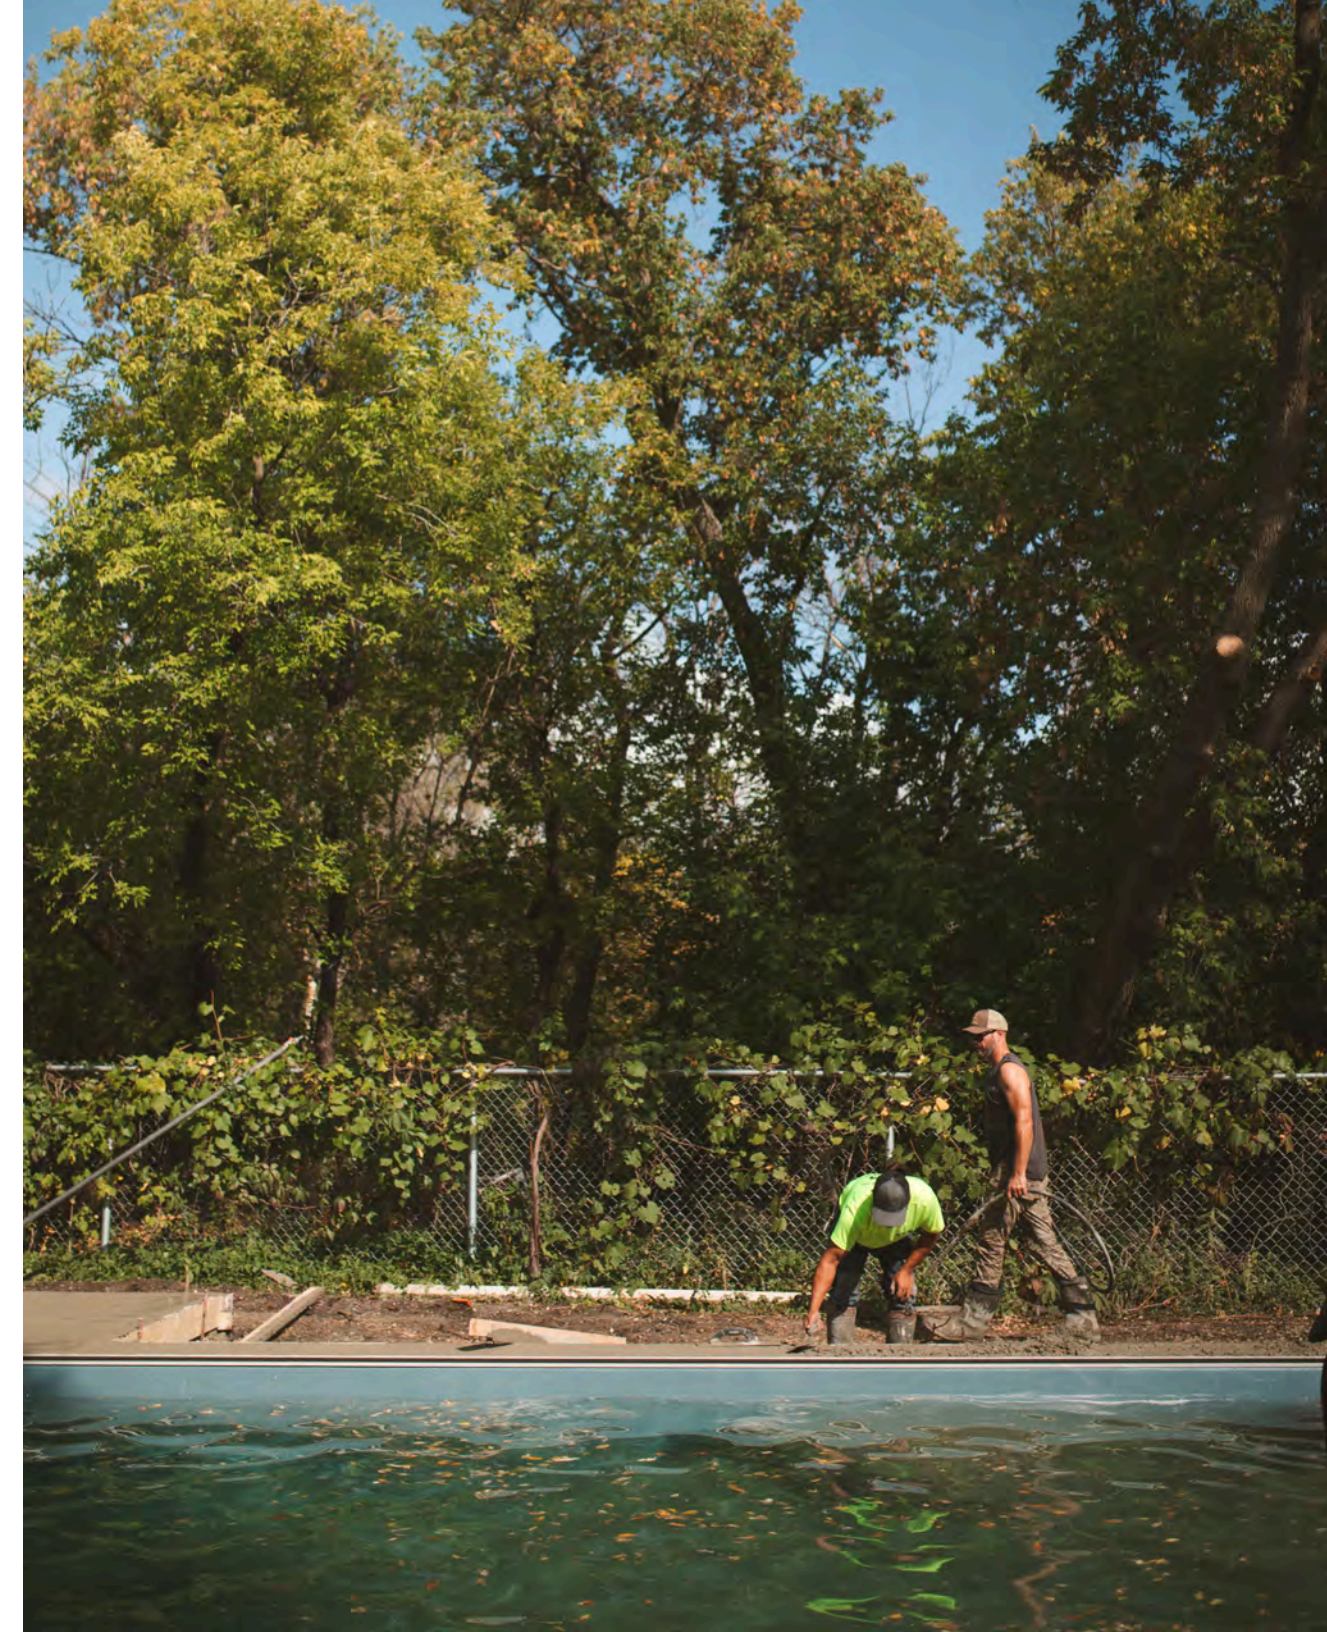

## PLAN | BUILD

Once the design phase is complete, we collaborate with you to select materials for every aspect of your project. Construction drawings, engineered plans if required, and a comprehensive job planner are prepared specifically for your project.

Before construction begins, we conduct a full site meeting with you, your designer, project manager, and the key team members who will be involved in the build. Together, we review the project in detail and mark out the space on your property.

If any adjustments are desired, your designer and project manager will outline the impact on cost, timeline, and the overall design, ensuring every decision supports your vision and maintains project excellence.

- Comprehensive construction drawings and engineered plans.
- Pre-construction site walkthrough with the full team.
- 95% of work performed by Geller's staff for unmatched quality control.
- Weekly communication and progress updates.
- Transparent change-order process when adjustments are requested.

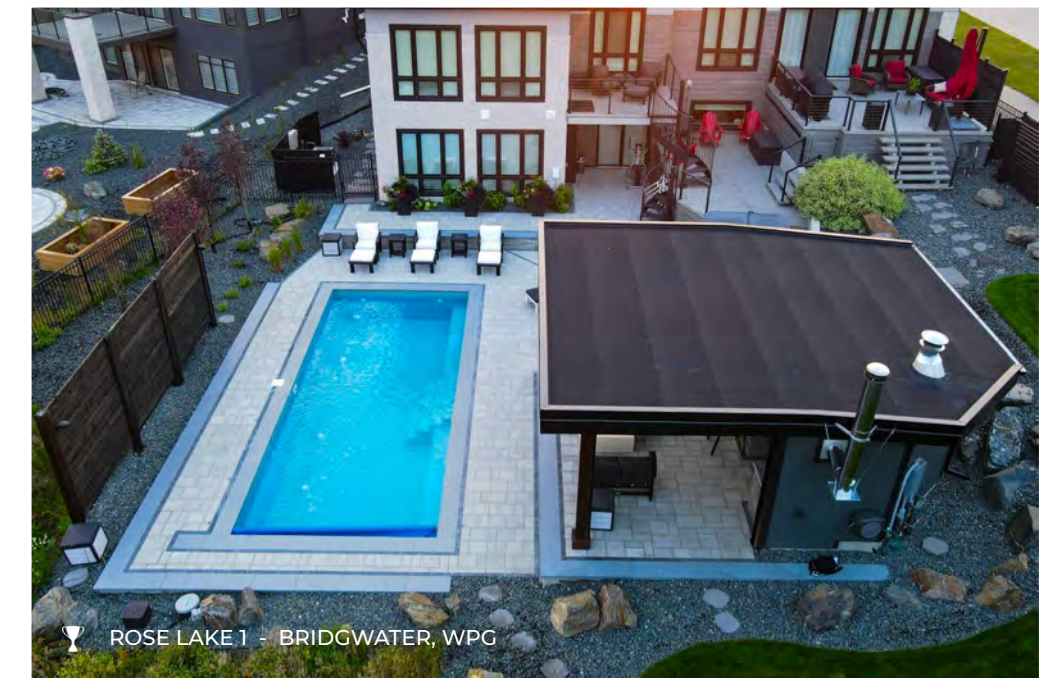

# POOLS

Pools are often the centerpiece of the backyard and a top item on every wish list. Geller's proudly offers premium fiberglass pools and spas, backed by a lifetime warranty and designed for lasting beauty and performance.

Pools are not only a stunning focal point for your backyard, but also a smart, low-maintenance, long-term investment in outdoor enjoyment.

Advantages include:

- Zero liner replacements.
- Up to 70 percent fewer chemicals than vinyl pools.
- Fastest installation compared to other pool options in our market.
- Factory-controlled manufacturing for consistent quality.
- Energy efficiency and lowest operating costs for homeowners.
- Steel-free construction ideal for saltwater systems.
- Autocover systems that reduce operating cost and create a safe environment for children and pets.
- Pet friendly surfaces designed with texture for safe entry and exit.
- Safest pools on the market. Safety ledges provide safe exit points for children around the entire pool.

# HARDSCAPING

Hardscaping is one of the most versatile elements in outdoor design, it's what gives a landscape its shape and personality, turning an outdoor space into something that feels both functional and inviting. Patios, walkways, retaining walls, and other built features shape how you gather, guide movement through the yard, and create the settings where special moments unfold.

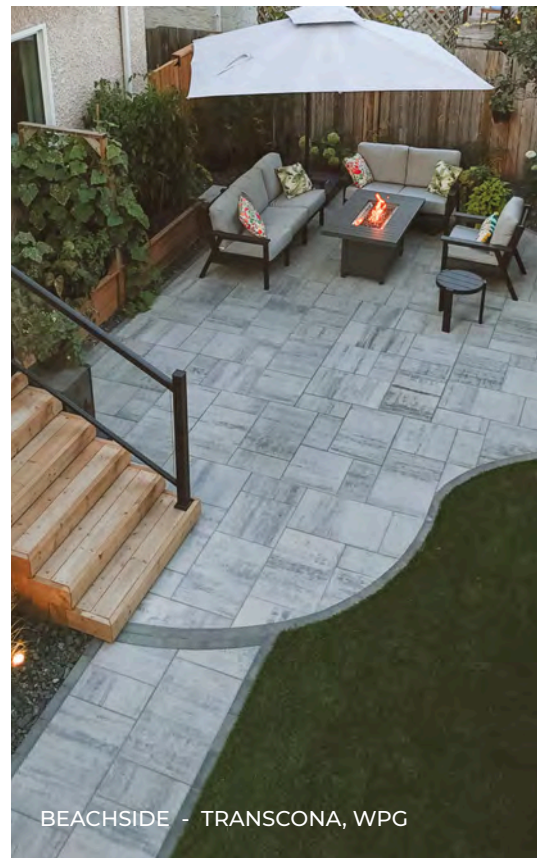

- Creates structure, organization, and architectural appeal.
- Defines pathways, transitions, and gathering spaces.
- Materials include paving stone, porcelain tile, concrete, and natural stone.
- Retaining walls manage grade, add elevation, and create usable spaces.
- Adds lasting beauty and functional design to any landscape.

# SOFTSCAPING

Softscaping brings the landscape to life, adding colour, texture, and movement that shift with the seasons. From lush perennial gardens to ornamental grasses and statement trees, these living elements soften the hard edges of built features, support pollinators, enhance privacy, and shape the mood of the entire outdoor space. It's the layer that makes a yard feel truly alive.

- Brings color, texture, warmth, and life to your space.
- Provides natural privacy, shade, and noise buffering.
- Plantings selected for micro-climate compatibility and maintenance preferences.
- Designed for four-season interest and long-term health.
- Explore Manitoba native plants for a natural and local landscape.

ROSE LAKE 2 - BRIDGWATER, WPG

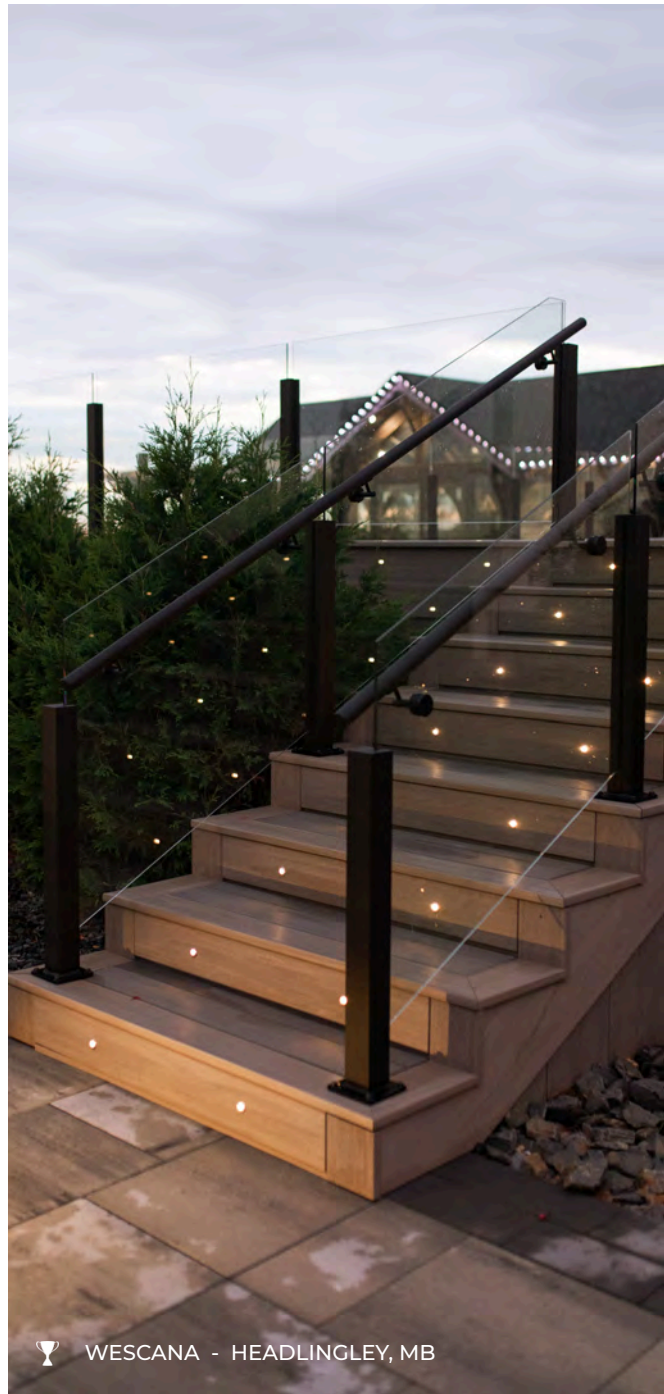

# LIGHTING

Landscape lighting extends the beauty and function of your yard into the evening. Gentle path lights, tree uplighting, and subtle accents add safety, depth, and ambiance. It's a simple way to create a warm, welcoming atmosphere after dark.

- Extends the functionality and ambiance of your yard into the evening.
- Highlights architectural features, pathways, and plantings.
- Enhances safety and navigation.
- Creates a warm, inviting atmosphere year-round.

# CARPENTRY

Carpentry brings a unique blend of artistry and function to any project, transforming ordinary spaces into thoughtful, enduring environments. From custom-built decks and fences to pergolas, cabinetry, and intricate trim, skilled carpentry adds depth, character, and a sense of craftsmanship that prefabricated solutions simply cannot match.

- Quality carpentry goes beyond aesthetics to enhance functionality.
- Creates spaces that are both beautiful and purposeful.
- Decks extend living areas into the outdoors.
- Offers practical and customized solutions tailored to your lifestyle.
- Thoughtful carpentry elevates any project with elegance, durability, and timeless design.

# ACCESSORY STRUCTURES

Accessory structures, such as sheds, pool houses, garden studios, or outdoor kitchens, add both function and style to a landscape. They provide practical spaces for storage, entertaining, or cooking while enhancing the overall design of your yard. Geller's also offers services for custom garages, garden suites, and interior renovations.

- Custom structures for storage, entertainment, dining, and shade.
- Outdoor kitchens, bars, and cooking stations crafted for durability and elegance.
- Multi-purpose structures designed to enhance lifestyle and usability.
- Seamlessly integrated with the landscape.

NORTH HILL - EAST ST PAUL, MN

# ARTIFICIAL TURF

Artificial turf blends beauty with low-maintenance convenience, offering lush, vibrant lawns that remain flawless year-round. Ideal for custom golf greens, patios, or garden accents, it allows for precise shaping and contouring, creating visually dynamic spaces. With its clean lines, rich color, and ability to complement any design, artificial turf elevates landscapes with both elegance and a polished, contemporary aesthetic.

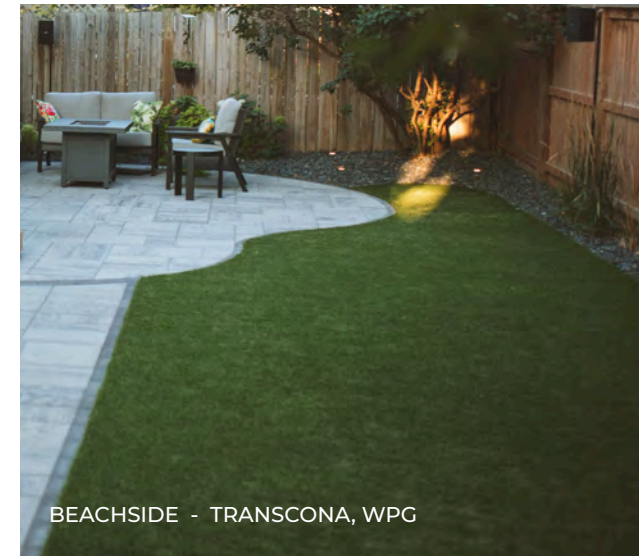

- Lush, low-maintenance alternative to natural grass.
- Ideal for lawns, putting greens, patios, and accents.
- Precise shaping and edging for a clean, contemporary aesthetic.
- Year-round color and durability.

# WATER FEATURES

Water features introduce a calming, visual focal point, from bubbling rocks to sleek modern fountains. They add sound, movement, and a sense of tranquility that enhances the overall atmosphere of the outdoor space.

- Adds movement, reflection, and soothing sound.
- Options include contemporary fountains, natural waterfalls, and garden ponds.
- Creates focal points and enhances atmosphere.
- Integrates beautifully with lighting and softscaping.

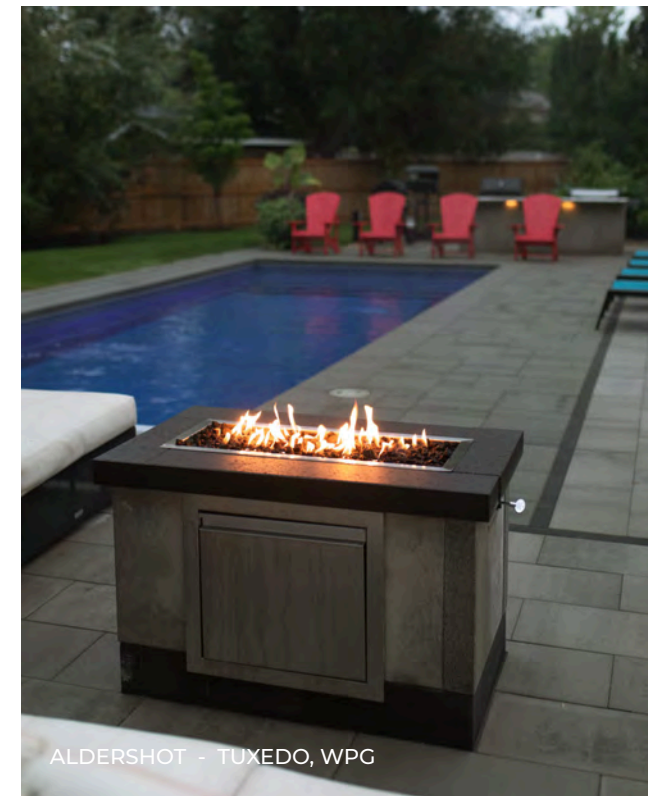

ROSE LAKE 2 - BRIDGWATER, WPG

# FIRE FEATURES

Fire features introduce warmth, ambiance, and a striking visual element to any outdoor space. From modern linear fire pits to classic stone fireplaces, they serve as both a gathering point and a design focal point, drawing people together and extending the usability of your yard into the evenings.

- Warm, inviting gathering points for evenings and cool seasons.
- Modern linear designs or classic stone fireplaces.
- Enhances ambiance and extends outdoor usability.
- Creates dramatic visual impact.

# ADDRESS SIGNS

A custom address sign adds curb appeal and a touch of personality to the front of your home. Whether modern or rustic, it's a small detail that makes a big first impression.

- Functional, architectural, and fully customizable.
- High-quality materials and typography options.
- Improves visibility and curb appeal.
- Designed to complement your home and landscape style.

TIELMANN - EAST ST PAUL, MB

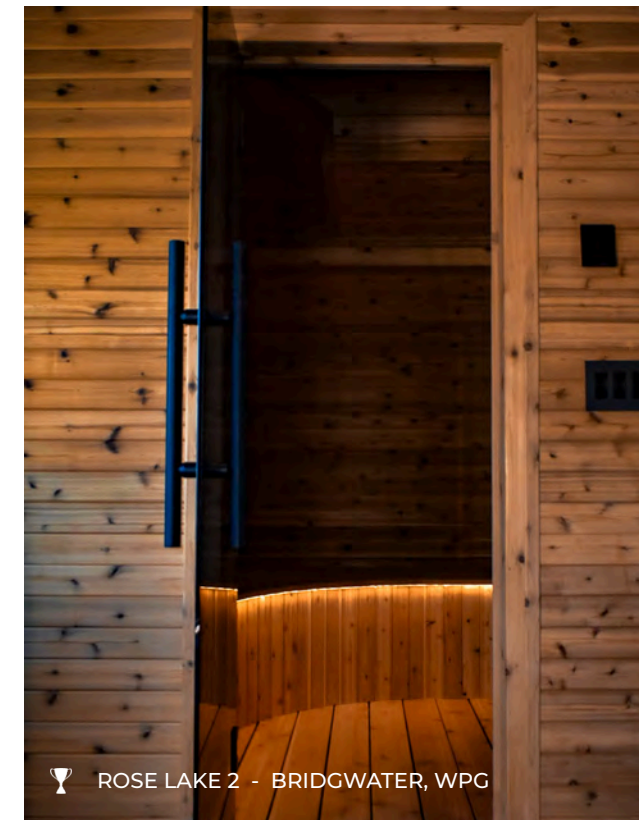

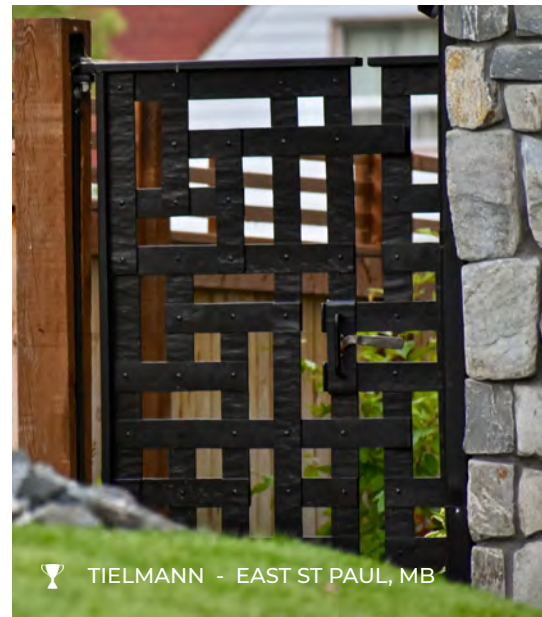

JUST GET GELLER'S.

# CUSTOM ELEMENTS

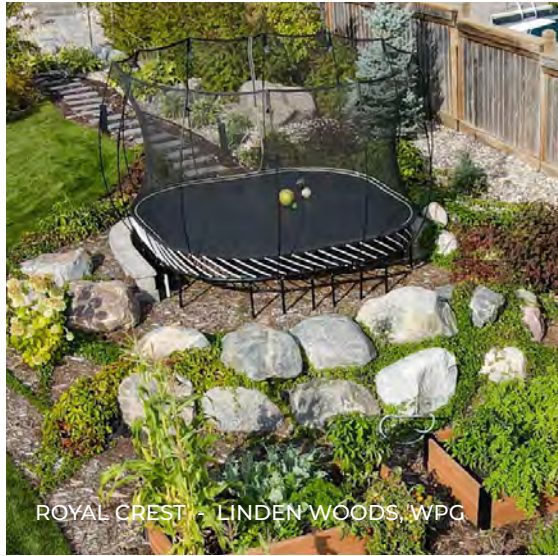

Custom outdoor elements transform a landscape into a one-of-a-kind retreat, blending functionality with striking design. From a luxurious sauna for ultimate relaxation, to a sleek pickleball court for active entertainment, a life-sized chessboard for playful sophistication, or a dramatic faux green wall to add texture and visual interest, each feature is thoughtfully integrated to enhance your outdoor living.

- Unique features tailored to your lifestyle and property.
- Enhances personality, creativity, and function within your space.

# MAINTENANCE

Once your project is complete, your dedicated maintenance manager will guide you through your new landscape, ensuring every detail meets your expectations. We'll provide a custom booklet outlining the plants and materials used, automation systems, and essential information on care and warranties. For added peace of mind, we offer extended warranties and comprehensive 'hands-off' maintenance solutions tailored to your home. With Geller's, every aspect of your outdoor space is expertly maintained, allowing you to relax and fully enjoy your beautifully designed landscape.

Our skilled maintenance crews keep your landscape pristine and ready to enjoy year-round, offering services such as:

- Lawn Care & Fertilizing
- Shrub and Perennial Maintenance
- Gardening & Mulching
- Irrigation Management
- Yard Enhancements.

# SNOW CLEARING

At Geller's, every property gets a tailored approach. From simple residential driveways to full commercial parking lots, our team brings the expertise, equipment, and efficiency needed to keep winter hazards at bay.

With a strategically positioned fleet across Winnipeg and surrounding RMs, we deliver some of the fastest response times in the industry. When Manitoba weather turns, we're already on the move. Our state-of-the-art equipment is maintained in-house to ensure reliability during even the toughest conditions. Beyond snow clearing, we offer safety-focused services designed to keep your property fully functional all winter long.

### Our Services Include:

- Residential driveways & walkways
- Commercial walkways & parking lots
- Snow hauling
- Salting & sanding
- Scrape-downs
- Snow relocation for spring melt

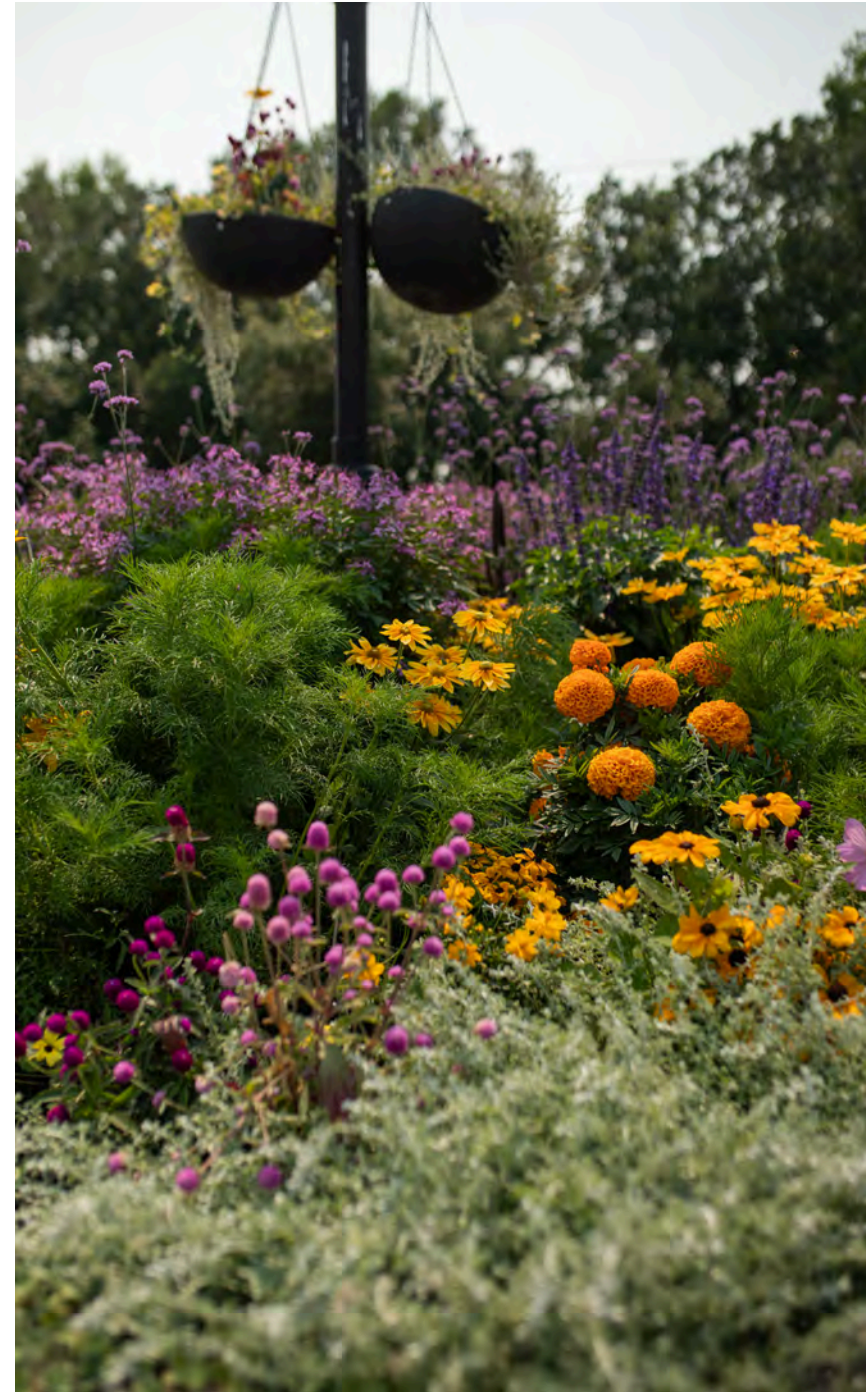

# HORTICULTURE

Our horticulture program brings curated beauty and seasonal vibrancy to your landscape. With thoughtful plant selection and artistic design, your yard evolves gracefully throughout the year.

Our signature annual planters feature bold colors, contrasting textures, and striking arrangements that refresh patios, entryways, and garden areas with each season.

Our horticultural teams can provide weekly weeding, plant care, seasonal pruning and fertilization and seasonal planter decor. This program enhances the health, harmony, and long-term vitality of your outdoor environment, creating a landscape that feels alive, elegant, and expressive year-round.

ALL THINGS OUTDOOR LIVING.

# Geller's

DESIGN | BUILD | LANDSCAPE

At Geller's, we don't just build landscapes, we create lifestyle environments designed to inspire. Whether you're dreaming of a peaceful retreat, a luxurious poolside oasis, or a space to entertain family and friends, our team is here to bring your vision to life with care, creativity, and craftsmanship that stands apart.
