

Heirloom
ARCHIVAL ALBUMS

*Kristen

My grandma, Eleanor DuPont
approximately 1930

In an age of digital everything, I'm often reminded of my favorite family heirlooms - old film photographs that have been carefully archived by my family so that later generations could obsess over how funny everything looked "back then". From the green velvet tuxedos at my uncle's wedding, to the photographs of my grandma that I never met - I cherish every beautiful moment that a photographer carefully captured for them.

Our dream is that you will select from our archival album and print options, to share your precious memories with your own children, grandchildren and great-grandchildren! We believe in leaving a legacy of beautiful imagery to share and love with everyone.

We are constantly researching new products, from custom phone case covers to fine art canvas prints and our luxury memoir albums - so if there is something you can dream up, we can probably accomplish it for you! We only use the best labs and calibrate every spectrum of color to ensure beautiful, lasting portraits.

All of my greatest wishes -

Kristen

Cameos

EXTRAS

Debossing complements an album cover making it unique to each couple. We offer standard debossing fonts (see bottom) as well as custom debossing, giving you the freedom to use any font you'd like. We can also add design embellishments and artwork for further personalization.

Note: some cover materials deboss better than others. For materials that are hard to deboss, we recommend using a cameo instead.

Debossing

STANDARD & CUSTOM

We offer three tiers of debossing for personalizing your covers. Standard Debossing includes 14 plain text options on up to two lines; the Debossing Collection offers 16 premade and semi-custom designs; and, Custom Debossing offers the freedom to submit any unique design, in a small or a large size - small designs measure 4x2 inches and large designs measure 7x3 inches.

Blind debossing is our default style of debossing, which means no color or foil is added to the impression. Foil debossing is available exclusively on Luxe Linen, Classic Linen and Vegan Suede covers, in gold, rose gold, and silver.

Note: some cover materials deboss better than others. For materials that are hard to deboss, we recommend using a cameo instead.

Debossing

SEMI-CUSTOM

With the Semi-Custom Debossing Collection, you can avoid any design work and choose from one of our 16 pre-made designs. Options include script fonts, bold fonts, and various unique design elements.

Information

We allow a max of 40 spreads in our flushmount albums. Our standard page thickness is a little over 1mm. However, for more than 30 spreads, we use a slightly thinner substrate between the spreads. We do this to make room for extra spreads without compromising the quality of the album. Minis are roughly 6x6. If your album is square, it will be 6x6. If the album is rectangle, the Mini will vary based on width/height ratios. Minis are scaled-down replicas of your flushmount album. They will have the same layout and cover as the larger album. Cameos and debossing are not available on Minis. All of our albums are creased to preserve the beauty of full spread designs. We print on Fuji Crystal Archive paper. With that said, absolutely any kind of paper that is creased will show some wear, even splitspread books will wear over time. Prices may change. Prices will be quoted at time of order. Pricing updated March 2021.
