Zack & Tara *Hawkins*

Meet Zack and Tara, a husband and wife photo and video production team based in Knoxville, Tennessee. With a shared passion for storytelling and a deep love for capturing life's most meaningful moments, we specialize in weddings, family sessions, newborn photography, headshots, and more. Whether it's an intimate elopement or a growing family, we bring a personal, creative touch to every session — making sure your memories are preserved beautifully and authentically.

EXPERIENCE

With over 20 years of combined experience behind the lens. We've had the honor of capturing more than 200 weddings, countless families, adorable newborns, and professional headshots for clients all across East Tennessee and beyond. Whether you're planning a once-in-a-lifetime event or dreaming up a creative project, we're confident we can bring your vision to life with heart, style, and intention.

PHOTOGRAPHY STYLE

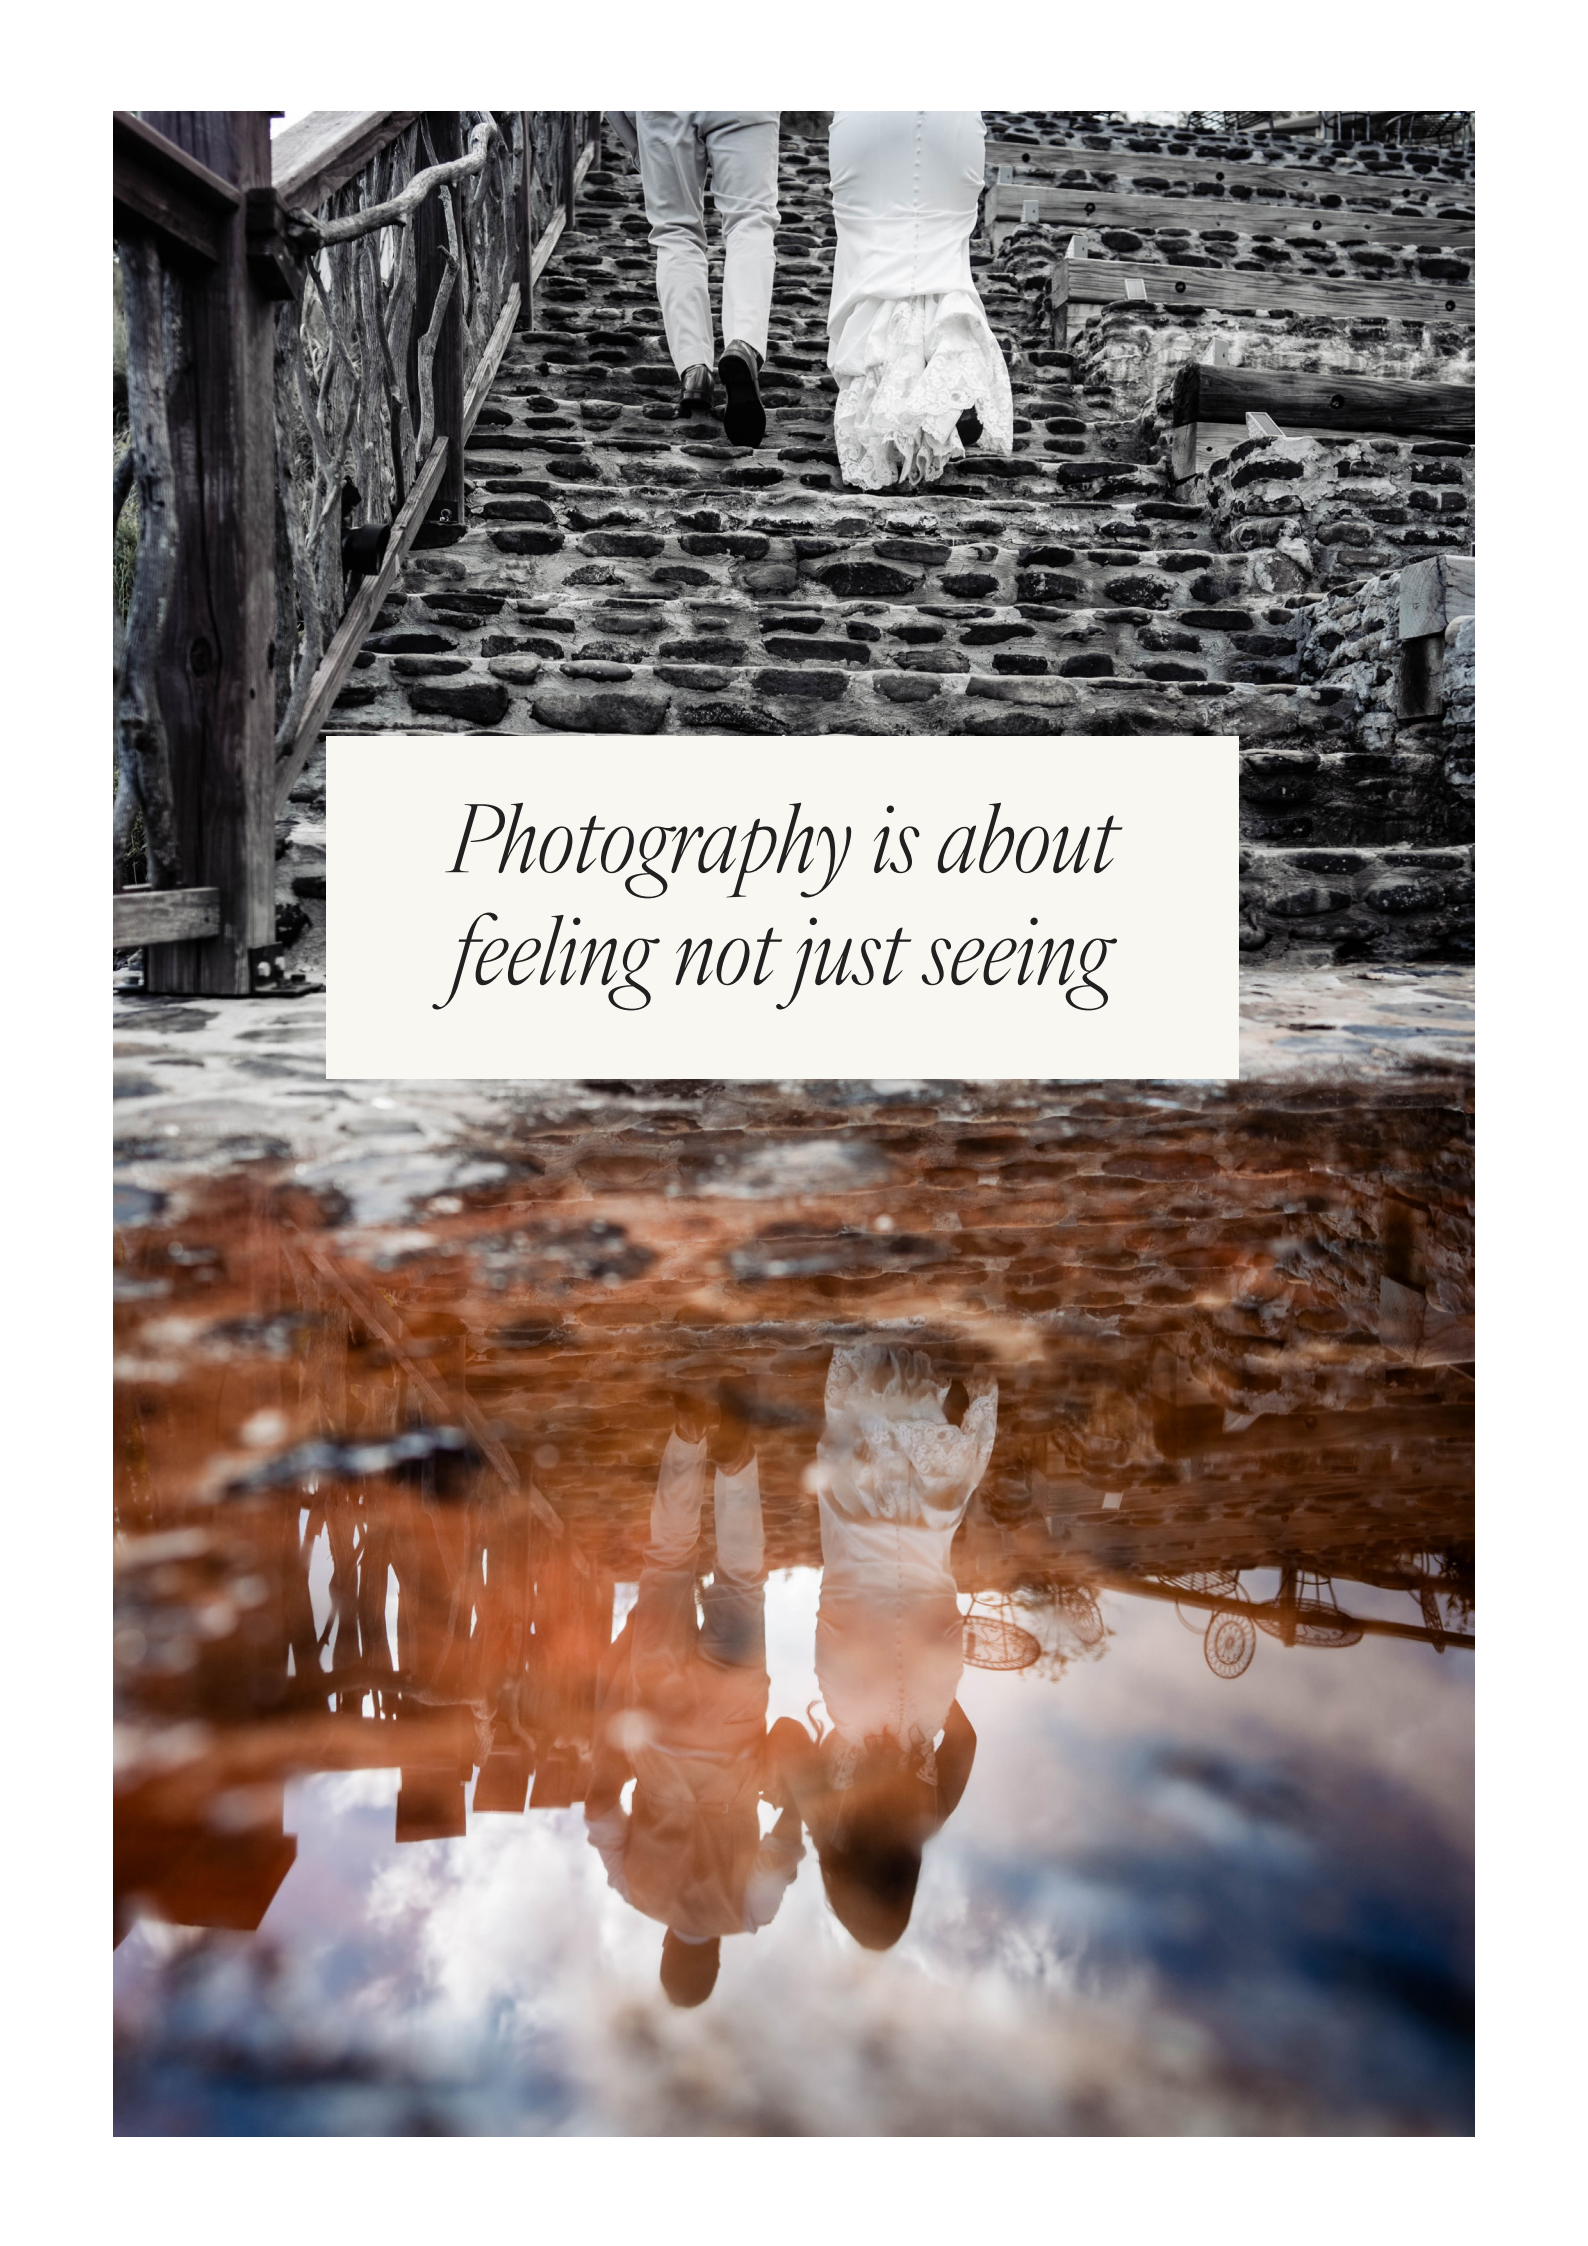

Our photography style is a bold mix of true-to-life, vivid colors with a rich, contrasty edge — sometimes leaning dark and cinematic when the moment calls for it. We never pass up a chance to get creative. From photojournalistic wedding coverage that captures raw, unscripted moments to golden hour family sessions filled with warmth and depth, we thrive on telling stories that feel real and beautifully unique. And when it comes to creative shoots? Anything goes. Cue the lights, the fire, the smoke, and the magic — we're here to bring your wildest ideas to life with vision and intention.

A photograph of a couple walking up a set of wide, stone steps. The man is wearing light-colored trousers and dark shoes, and the woman is wearing a white lace dress. To the left is a rustic wooden railing. The steps are made of large, flat stones. In the foreground, a pool of water reflects the couple and the steps, creating a symmetrical image. The reflection is slightly blurred and has a warm, golden-brown tint. The sky in the reflection is blue with white clouds. A white rectangular box with a thin black border is centered over the middle of the image, containing the text.
