Your session is scheduled for

Preparing for your session

- Does your baby have a full tummy and a clean diaper?

*If you choose to use an outfit, please change your baby at least **15 minutes** before session so that baby has time to calm down following the change. This is also a good time to open the blinds in your room.

- Are parents dressed and ready for photos?
- Is the room warm enough for baby to be unwrapped?
- Do you have a blanket, hat and/or any other items you'd like to use during your session out and ready to go?

Please note:

In most sessions we capture a sleeping baby. These sweet moments are so fleeting! Please refrain from purposely waking baby as it may make for an unhappy little one during the photo session. Sometimes baby will naturally wake as we are taking photos.

Thank you!

A special thank you to the families who have graciously allowed us to use their baby's photographs as examples in our informational pieces.
