THE CASE FOR FINANCIAL WELLNESS

4 out of 10

"Employees say they spend 3 to 4 hours at work each week dealing with financial concerns"- PWC

"Of adults say they feel stressed about money some of the time"- American Psychological Association

This is why organizations have worked with EMACK Consulting because of the need to help employees decrease financial stress. This allows employees to become more engaged while at work, increasing their productivity.

The increased productivity results in increased profits for the organization. Our team understands how to move employees toward financial wellness

WHAT WE DO

FINANCIAL WELLNESS PROGRAMMING

Your workforce is one of the most valuable assets you have. So when they are unfocused because of financial stress that lack of focus can cost the company money.

Our financial wellness program is designed to help your employees decrease their financial stress so that they can be their full selves while at work. So that they can produce at their full potential.

This is a perfect fit for organizations looking to increase employee engagement and wellbeing. Our Financial Wellness programming is for employees whether they are entry level or upper management. Our offerings are tailored to meet people where they are currently in their finances.

TRAINING AND DEVELOPMENT

Have you implemented wellness programs before only to have the progress from the program disappear within a few months. Follow up training for those in middle and upper management can help create long lasting impact. This is especially true when it comes to financial wellness.

EMACK Consulting offers training for those in management to ensure that the financial wellness progress made by employees continues. This training and development is implemented in various departments including Human Resources for the on-boarding process.

This offering is for organizations that want to see a continuous return on investment in their financial wellness initiatives.

CONSULTING

There are organizations that are more interested in having a consultant come in and provide direction and solutions in a certain area.

We are able to look at your current efforts with Employee Financial Wellness and make recommendations for improvement and effective implementation.

Work with those in the organization to implement auxiliary programs that compliment financial wellness efforts. (Example: working with HR to design benefit packages centered around financial wellness that attracts top talent)

ABOUT OUR CEO

JA'NET ADAMS

Ja'Net Adams is an International speaker, author, and the CEO of EMACK Consulting, but when she was in college she let money rule her life. She graduated from South Carolina State University with a Bachelor of Science in Marketing. A short time after graduation she found herself in nearly \$50,000 of debt! She dug out of the debt in two years by following the principles that she now speaks about to audiences all around the world as a professional speaker. She works with various corporations and organizations around the world to implement effective financial wellness.

Ja'Net and her team help businesses take the next step in employee engagement. Their services and products help employees with their finances and as a result makes the employee more engaged at work.

She recently released on Amazon her second book "The Money Attractor! Everyone's Guide To Winning With Money So They Can Live Their Dreams!" Her advice has been featured on BBC, CNBC, Huffington Post, Forbes, Black Enterprise Magazine, Business Insider, Good Morning America, Fox Business, JET Magazine, BizWomenJournal.com, LearnVest.com, USA Today, USA Today College, and NPR's Marketplace Money.
