Free Showit

LINKS LANDING PAGE

NINE THIRTEEN STUDIO
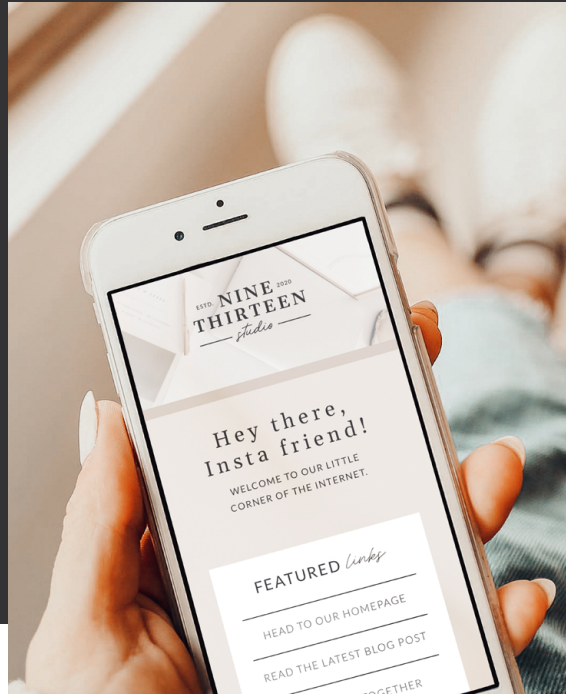

Uplevel Your
INSTAGRAM

We're so glad that you're ready to ditch your cookie-cutter Instagram landing page and replace it with this one. We created this template to help your brand instantly appear more established and professional to those who view it.

INSTRUCTIONS
Follow along with the steps below or click here to watch our video.

STEP ONE

Login to your Showit account.

STEP TWO

Go to your account window (your name in the bottom left-hand corner) and select Add Design to Library.

STEP THREE

Paste the Share Key into the Shared Design Key box.

SHARE KEY

PYprDv6QD7rG113681

STEP FOUR

Preview the design and select Add Now to add it to your account.

STEP FIVE

Under the site menu, click on the plus icon next to Pages and then from the dropdown click on Select New Page

STEP SIX

A popup window will appear and select the My Library tab and click on the Links Landing Page Template.

STEP SEVEN

Click on the Insta page and press the Add button in the lower right-hand corner.

STEP EIGHT

Once you get the template uploaded you will customize the page's fonts, colors, photo and logo to fit your brand.

STEP NINE

Test the page out on a desktop and mobile devices by using the preview link to make sure it is ready to be published.

STEP TEN

Press the publish button and your link in bio page is offically on the web. The web address will be your site's home web address plus /insta. For example, ours is ninethirteenstudio.com/insta

STEP ELEVEN

Add the new link to your Instagram bio and get excited that the world can see your beautiful and customized link-in-bio page.

If you have any questions or issues, please don't hesitate to contact us at ninethirteenstudio@gmail.com

Thank You!
