Subject: FW: Resolution

Commissioner Grimm gave me a call to discuss this after sending. She said in the past she had workshopped some of these resos with Brian Fritzing.

I told her I'd run it by Jim G tomorrow (as the legislative tour was happening this afternoon).

Jim- we can discuss tomorrow potentially in between your legislative meetings if you want me to pull any other board letter examples- she emphasized to me that she really wants this to go to 10/14 meeting- Central Management/regular.

Thanks,

Liz Fifield

Subject: Resolution

Just wanted to follow up on my resolution to ban NDA's from being signed by county commissioners in St. Louis County. I would like this to get on the agenda for next week.

My language aground it would be simple:

Whereas county board members are elected by the people and have an obligation to be transparent about public funds and public business

Whereas non disclosure agreements prevent transparency between elected officials and the people they represent

Whereas non disclosure agreements have been used nationally and locally to stop communication between community members and their elected officials

Resolution to ban St. Louis County Commissioners from signing non disclosure agreements in any way relating to county business, including but not limited to potential subsidies, county funding, abatement or tax increment financing (TIF) agreements.
