### ABOUT YOUR WEDDING FILM

Creating video art for couples is such an honor. I love getting to know your love story and creating a film that is uniquely yours. Your wedding weekend passes swiftly and leaves you with glowing memories. I want to garnish your memories with a film to reminisce on the beginning of your marriage. Let's find the perfect film collection to capture one of the best days of your life.

# HIGHLIGHTS FILM

---

Artistically edited to span 6 or 15 minutes, these films highlight the most emotional points of the day. Paired with cinematic music and personal audio, these pieces are my favorite way to tell your love story. Envision your own wedding day as you enjoy the selected films below.

# HERE'S MY WHY

Being the 90's child that I am, home-video was my first medium as a visual artist. My productions never ceased throughout each stage of life, and I've realized that video is just how I communicate. Even as a kid, I had that camcorder in hand so I could drop into the artist's mind of truly seeing. Making videos helps me feel and express the world around me. I want to show people: "Hey, I see you, and you're awesome. Watch this so you can see what I see."

As someone who is video obsessed, I like to provide more for those that want sink a little deeper into their wedding day memories.

### **ADDITIONAL HOUR**

**\$200**

You can add on however many hours you would like to any film experience to be sure I capture everything you desire.

## TREE HUGS

### Kind words from past couples:

"Alyson was such a gem for our wedding day! As a videographer, we knew that she would be moving around quietly in the background for most of the day and wow, she is a ninja! However, she is full of life and energy that we truly adored on our special day. She has an incredible eye for detail and we are so excited to share her video with our out-of-town family and friends who couldn't attend. If you're looking for a videographer, Alyson is it!"

"When I first saw the beautiful art that Alyson created in video form, I knew I had to have her as my videographer for my wedding. Her services were hands down the best thing we spent money on for our entire wedding. We watch our videos often. Listening to the voices of our loved ones, hearing our songs play, and watching us give our vows is something that snaps you right back into the moment that photos alone struggle to do. Trust Alyson and her vision of capturing your perfect day and you will be amazed at what this beautiful, fun-loving human creates!"
