## **SOCIAL INTROVERT COACH**

### **WHAT TO EXPECT**

---

I have two distinct speaking paths, that I can tailor to your unique audience:

1

For an audience of coaches, I speak to the topic of how to effectively work with introverts, and why it is important to understand their unique introvert challenges, so that they can be successful in your program.

2

For an audience of introverts, I can speak to the topic of how to use your introvert skills & expertise, and apply them to the 'traditional' methods of entrepreneurship.

This training is all about empowering introverts to step out of their shell, and build an authentic business.

*Robyn is super easy to talk to and genuinely wants to hear what you're struggling with. Her guidance is honest and actionable, and I walked away knowing what I'm doing well and what I can work on. I appreciate a coach that can meet you where you're at and help you grow according to your own path (and not some business formula). If you want a coach that is professional and very easy to talk to, I highly recommend you reach out to Robyn asap and watch your business grow!*

*Robyn is outstanding in her field and I would recommend her coaching services to anyone. She has been a hugely supportive resource for me to satisfy all the virtual demands of my business over the last five years. I couldn't have possibly kept up with it all without her help. Thank you Robyn!*

*Robyn is an incredible coach! In our 1:1 sessions, she has taken the time to truly get to know me and my business style - not only to understand my business goals, but also to uncover what I value, fear, and how I want to grow personally. I believe that because Robyn understands me so well, she can see potential that I sometimes can't see in myself, and this has helped my confidence soar to new heights! She understands that business strategy isn't one-size-fits-all, and together, we have created a plan to meet my goals that feels true to my personality. That being said, she has also encouraged me to try some new things, which have accelerated the growth of my business! I would recommend Robyn to anyone looking for a coach who truly understands how to apply business strategy to a person's unique strengths and personality traits!*
