

# 07. Flooring

---

There's a wide variety of options when it comes to flooring. You can choose from tile, carpet, hardwood, engineered hardwood, or LVT. Most of the time, if you're doing an addition to your home, you will want to match your existing flooring found in the adjacent space. Our sales manager most likely already asked you this during one of their initial site visits. If this is the case, we can handle the ordering of material to match.

If you have selected hardwood floors for your addition, you will need to decide what finish you'd like. We recommend refinishing the adjacent space if not the whole home to match. For any other area of the home, you will need to decide what type of flooring you would like to use. Below is a list of Jasper recommended flooring stores to shop. They can help you with questions about staining, durability, and more.

Don't hesitate to reach out to our project manager, sales manager, or your designer/architect about this selection. Remember, there is an allowance included in your proposal for this item!

## Places to Shop

---

Textures  
(615) 228 – 2922  
[brand@texturesflooring.com](mailto:brand@texturesflooring.com)  
[texturesnashville.com](http://texturesnashville.com)
