## QUANTUM BOTANICALS ADVANCED DIPLOMA

#### The Quantum Botanicals Advanced diploma course consists of both online study and in-person immersion trainings.

- Quantum Botanicals Advanced online course
  - Herbal Medicine
  - Healing Diets
  - Quantum Botanicals
- Immersion Trainings
  - Healing Diets
  - Essential Oils & Healing Touch
  - Quantum Botanicals & Flower Essences
  - Herbal Medicine

The Quantum Botanicals Advanced diploma course is the comprehensive study of plant based vibrational medicine, offering a loving and mind expanding exploration of the plant world, the nature of consciousness and quantum physics, opening your heart and mind in profound ways that will change the way you perceive healing, the relationship between mind, body and nature, and the patient-practitioner relationship. Discover the world of plant frequencies, quantum and fractal potential, heart-brain coherence and vibrational medicine through an in-depth study of the nature of matter and energy, how consciousness communicates with matter, the relationship between thoughts, emotions and cellular function, direct perception plant communication, flower essences and a range of vibrational modalities to support the healing process.

All plant medicine is vibrational medicine, including diet, herbs, essential oils, flower essences and homeopathic remedies that utilise the vibrational/quantum field of plants.

Learn about the fundamental science that underpins vibrational medicine, and how to engage the power of quantum and fractal potential through plant nutrition and medicine.

This course combines a strong foundation in the science of quantum healing with a deep study of consciousness; left and right brain hemisphere attention and processing, unconscious and

collective unconscious vibrational archetypes, and mind-body healing with vibrational medicine. The course explores healing diets, culinary and medicinal herbs, essential oils and flower essence therapy in depth, as a profound opportunity to support healing of thoughts and emotions that hinder our path towards wholeness, peace and conscious experience of life.

The course also introduces students to traditional and indigenous perspectives on the relationship between subtle energies of mind, emotions and the physical body, including study of Ayurvedic, Chinese and other traditional systems.

These topics are fully integrated with the study of Herbal Medicine, Essential Oils and Healing Diets, so that recommendations are informed by knowledge of systemic and constitutional strengths and weaknesses of the individual and fully supported by medicinal herbs, and cleansing and health building approaches to food as medicine.

Our master teacher, Bonny Casel ND MAMH, studied herbal medicine with Dr. John Christopher, Iridology and Nutrition with Dr. Bernard Jensen, Herbal Medicine, Naturopathy, and Iridology with Farida Sharan ND, epigenetic with Bruce Lipton and Quantum Physics with Nassim Haramein.

If you wish to create your own clinical or herbal practice or create plant based therapeutic products, heal yourself, family and/or friends, or integrate vibrational plant medicine with other modalities in a clinical setting, this course will remain a wealth of knowledge, wisdom and inspiration for years to come.

## QUANTUM BOTANICALS ADVANCED DIPLOMA Course Curriculum

#### **ONLINE STUDY**

The three online courses offer a deep study of the full spectrum of plant medicine; herbal medicine, healing diets and quantum botanicals, with creative, experiential and research based assignments that help students to integrate this knowledge for effective practice and personal self healing.

Studies are personally mentored by school founder, Bonny Casel, and she guides students as they develop consultation skills and lay the foundation for practice.

#### IMMERSION TRAININGS

The four 5 day Immersions provide the handson and consultation skills to educate clients and create and guide effective healing programmes.

All four immersions are offered in every two year period.

#### QUANTUM BOTANICALS AND FLOWER ESSENCES IMMERSION

This immersion focuses on plant based vibrational medicine. Studies begin with the fundamentals of 'What is Matter?', 'What is Health?' and 'What is Cure?' leading to an exploration of the science that underpins vibrational medicine.

Within the context of current understanding of energy, space, matter, organised energy fields, and the fractal nature of body, mind and emotions, students learn how the interconnectedness of mind and body can be harnessed to support self healing and evolution of consciousness.

Through lectures and experiential classes, students explore the world of plants, both physically and vibrationally, with reference to studies of plant consciousness, plant senses, the 12 Windows of Perception and human-plant resonance, leading to study of flower essences, felt sense, heart-brain coherence, brain hemisphere processing, the language of feeling and emotions, and the relationship between mental and emotional states, health and disease.

The study of flower essences is structured around the 38 Bach Flower Remedies as we learn about the 12 Healers (core personality types), the 12 Helpers (for when the core personality is obscured by long-term disassociation or environmental influences) and the 19 Situational Remedies (for current internal and/or external stresses and influences).

Other flower essences systems are introduced and students are invited to explore their resonance with a range of essence producers including Flower Essences Services (FES) remedies, Icelandic Nature Essences, Alaskan Essences and others.

Every topic is fully integrated with the next, so that all topics are understood as a whole with a focus on developing therapeutic skills and creating effective programs, so that this knowledge can be used effectively in practice.

#### HERBAL MEDICINE IMMERSION

The Herbal Medicine Immersion focuses on the core practice, consultation and programme creation skills required for effective practice.

Consultation skills are developed in alignment with a core principle of natural medicine; Doctor as Teacher, thus training students how to establish a genuinely holistic patientpractitioner relationship.

Practice and Pharmacy administration protocols and development are also explored, with the opportunity for students to refine their vision for their future practice. Knowledge of the medicinal and nutritive properties of herbs in clinical practice is grounded alongside systemic anatomy and physiology, diet, lifestyle and supportive therapies, so that students approach programme creation holistically and within the context of the unique lives of their clients.

#### HEALING DIETS

This comprehensive study takes you on an inspirational and experiential journey through the art and science of 'food as medicine.'

Each lesson covers a facet of healing diets indepth, and creative, experiential and research based assignments help students to integrate this knowledge for effective practice and personal self healing.

The course curriculum includes cleansing and health building, transition diets, food for different life phases, a deep study of nutrients and their health benefits, organ and system cleanses, support for detox symptoms, food choices and the environment, and the politics of the food industry.

# ESSENTIAL OILS AND HEALING TOUCH IMMERSION

Essential Oils are plant medicines that have a unique resonance with the emotional body. Their complex chemistry and high frequency has a direct effect on cellular and DNA memory, permanently releasing trauma while increasing oxygenation to the pineal and pituitary glands. Essential oils also support healthy functioning of the endocrine, immune, nervous, respiratory, circulatory and digestive systems, are naturally anti-bacterial, anti-viral and potently antiinflammatory, increase focus and memory, increase right-hemisphere processing of life experience, increase coherence between mind and body and are effective anti- depressants and mood elevators. Their therapeutic benefits are

enhanced by the beauty that they bring to day to day life.

The Essential Oils and Healing Touch Immersion focuses on experiential healing processes that combine essential oils with techniques to balance sympathetic and parasympathetic nervous system function and heart-brain coherence, allowing for deeper connection and receptivity to self healing.

As classes progress, healing processes shift to the study of Reflexology; a gentle format for exploring a range of healing touches and developing skills to bring clients into a deep state of relaxation where they are exceptionally open to the shifts in fractal progression offered by essential oils.

# FAQ

## WHAT QUALIFICATION WILL I RECEIVE ON COMPLETION OF THE QUANTUM BOTANICALS ADVANCED DIPLOMA COURSE?

Upon graduation you will receive the Quantum Botanicals Advanced Practitioner Diploma (QBAP) and Healing Diets Nutritional Consultant Diploma (HDNC) accredited by the AADP and AAMA and awarded by School of Natural Medicine. You will further qualify as a board certified Alternative Medical Practitioner and can join the Complementary Medical Association (CMA) and British Flower and Vibrational Essence Association (BFVEA) as a practitioner member.

As you complete the online part of your studies, you will receive the Healing Diets Coach (HDC), Herbal Medicine Consultant (HMC), and Quantum Botanicals Therapist (QBT) certifications, accredited by the AADP. You will further qualify as a board certified Holistic Health Practitioner and can join the Complementary Medical Association as a professional member, and will be able to develop your practice alongside your further studies.

CAN I BEGIN WITH THE ONLINE QUANTUM BOTANICALS ADVANCED STUDIES AND DECIDE AT A LATER DATE IF I WOULD LIKE TO ATTEND THE IMMERSION TRAININGS FOR MY DIPLOMA?

Yes! You are welcome to begin with online certification training and, if at a later date, you would like to continue your studies towards one or more of our diplomas by attending Immersion Trainings and undertaking the Self Healing module, then your online studies will be applied in full towards diploma training.

#### HOW LONG DOES IT TAKE TO COMPLETE THE QUANTUM BOTANICALS ADVANCED COURSE?

A guideline for assessing study time is as follows: **Quantum Botanicals Advanced online course** - 36 lessons - If you complete 1.5 lessons a month you will complete your studies in 2 years, which is the aim of most students. To complete at this pace will require about 10 hours per week. An additional year is added to your time for completion so that you can create a study schedule to fit in with personal and professional commitments, and to allow time for the unexpected.

#### HOW DO I GET HELP IF I HAVE A QUESTION?

Help with questions is readily available by contacting the school by email. If the questions are more complex, then Bonny will set up a time to speak with you on Skype. You can also arrange a time to speak with Bonny Casel by telephone. Email the school to schedule a time.

#### HOW IS THE ONLINE COURSE STUDY STRUCTURED?

There are 36 lessons, each with assignments, and lessons range from 40 and 60 pages of detailed study material, with additional links, video and/or recommended reading, depending on the lesson.

Assignments combine reading, research and writing, with creative projects and experiential self healing. Assignments for each lesson are sent together as a group for marking and feedback. If your assignments do not reach the standard required, then you are given the opportunity to develop your work and resubmit your assignments.

#### IS THERE A DEADLINE FOR COMPLETING AN ONLINE COURSE?

The Quantum Botanicals Advanced online course is a 2 year course, however an additional 12 months is provided so that students can create a study schedule that fits in well with their other commitments and to allow time for the unexpected. If a student has not sent in an assignment in six months, the student file is placed on hold for a further six months before being closed.

#### ARE THE DIPLOMA COURSES ACCREDITED?

Each of our courses are accredited and you can view details of accreditation on our website by following <u>this</u> <u>link</u>.

#### ARE THE DIPLOMA COURSES ACCREDITED INTERNATIONALLY?

Each country has its own requirements and there is no accreditation available that is 'international.'

Most countries do not regulate the practice of natural medicine as long as you are not diagnosing and treating disease, and you can freely practice without requiring board examinations or professional memberships, although we do encourage graduates to join professional bodies.

Some countries do require an examination in their own language, for example in Germany there is an examination required for all practitioners who make health recommendations, regardless of your qualifications.

Each graduate must educate themselves about the requirements in their own country and abide by them. School of Natural Medicine graduates practice all over the world and we have never had a graduate who has been unable to practice and/or teach in their home country.

#### WILL I BE ABLE TO OBTAIN PRACTICE INSURANCE UPON GRADUATION?

School of Natural Medicine graduates can obtain block insurance from Balens or Westminster Insurance Company in the UK or with an insurance company in your own country. Professional memberships also frequently offer reduced fee insurance options.

#### I HAVE FURTHER QUESTIONS. HOW DO I REACH THE SCHOOL TO DISCUSS THE COURSES?

You can reach the school directly by email: <u>info@schoolofnaturalmedicine.com</u>

To arrange a Skype call, email the school to make an appointment. The school Skype address is PureHealthSNM. You can also arrange a time to speak with Bonny Casel by telephone. Email the school to schedule a time.

#### WHEN CAN I BEGIN MY STUDIES?

As each student is individually mentored, you can begin your studies as soon as you ready!

### HOW DO I ENROLL?

1

The first step towards enrolling is to explore the school website and prospectus. Once you have a feel for our courses, get in touch to share about yourself and your goals, and to ask any questions that you have. We can also arrange a time for a Skype or telephone conversation to discuss your goals for study and your questions about our courses.

2

When you are ready to enrol you can download the application form from the school website at schoolofnaturalmedicine.com/enrol. You will need to enter your personal details, check the box next to the course of your choice and, if applicable, the immersion(s) that you wish to enrol in, check the box for your payment method preference (see below) and then choose either the time-payment or discounted payment in full option. Complete the application by signing and dating at the end of page two.

Page three of the application form is the data consent form and this must be completed and signed as well. The data consent is for the school to create and maintain your student file and to store your completed assignments.

3

Write a few words about yourself, your inspiration for study and your future goals, then submit this along with your completed application and data consent form, a scan/photo of your photo ID and a personal photo for your student file. You can email your completed application to info@schoolofnaturalmedicine.com.

4

There are several payment options. You can pay directly through the school website for both time payment and payment in full options.

Time-payments are processed by <u>partial.ly</u>, a time-payment portal that you access through the enrolment page of our website at <u>www.schoolofnaturalmedicine.com/enrol</u>.

If paying in full, you can make your payment through the enrolment page of our website and you also have the option of receiving a PayPal invoice (+3 % PayPal fee), paying by direct deposit if using a UK account or wiring funds if you are an international student. For wiring funds, please contact the school for banking details.

5

Once your complete application has been received and you have made your payment, then you will receive your course materials and you can begin!
