Capturing your next chapter

I'm Ellie, I'll be the one that takes your memories and makes them into something magical. When I'm not looking through the viewfinder, you can probably find me chasing after my ridiculously disobedient (but adorable) dog, Moose. He and I love getting out and about and exploring the nooks and crannies of our wee island.

A true storyteller at heart, this is where my passion finds its home. I love being able to freeze time and capture the very essence of a couple, a family, and encapsulate a whole lifetime of memories.

Over the years, it has been an absolute joy to meet countless couples and stand witness to one of the most significant days of their lives.

the little moments

Capturing the magic of your special day is my utmost priority as your dedicated story-teller. With a keen eye for detail and a passion for storytelling, I approach each moment with a delicate balance of subtle direction and unobtrusive observation. I understand that it's essential for you to feel at ease, and that's why I make it a point to keep things lighthearted and casual. Whether it's a stolen glance, a heartfelt laugh, or a tender embrace, I know when to step back and let those genuine moments unfold naturally. I thoughtfully organize each phase of the day, guaranteeing that we have sufficient time to capture every desired shot. Your love story deserves to be told in a way that feels authentic and beautiful, and I'm dedicated to making that vision a reality.

Engagement Shoots

A pre-wedding engagement shoot is a wonderful opportunity to not only create stunning images but also to forge a comfortable rapport between us. It's a chance for you to become at ease in front of the camera, ensuring that on your wedding day, you'll feel completely natural and stress-free. This session serves as a valuable rehearsal, allowing us to discover the angles, poses, and moments that truly capture your unique connection. Beyond its benefits for the wedding day itself, the images from this shoot can be utilized for a myriad of purposes - from save-the-dates to elegant table decorations, infusing your celebration with a personal touch.

FAQ's

Do I need a videographer AND a photographer?

It's your day, do it your way! All I know is that one of the most frequent lines I hear from guests is: **"Oh, you're the videographer? I WISH we had had one at our wedding"**. You will never regret capturing your loved ones on camera and reliving your memories over and over again.

I'm camera shy, will I hate being on camera?

If I do my job right, hopefully, you'll not even notice that I'm there during the day. The only time you will definitely see me is during your portrait session and I have a few tricks up my sleeve to make you guys feel as comfortable as possible. I get the most natural photos and videos when you guys are just chatting or having a giggle with each other.

Can you capture morning prep on both sides?

I would recommend a second shooter to capture both sides of prep in full! If you are getting ready within the same hotel/grounds, I can usually nip between both sides of prep, time permitting.
