CLEANSERS

### Pumpkin Cleanser \$50

This is a lactic based cleanser that is a little more gentle than the Mangosteen Cleanser from Eminence. This cleanser is great for smoothing out surface texture and refining pores.

### Foaming Peptide Cleanser \$50

Super light, super gentle, this cleanser is a top favorite of our clients. It is also infused with peptides which infuse your skin with collagen and vitamins, working to revitalize and wake your skin up. You may feel a little tingle with this cleanser, and that is totally normal.

### Citrus Gel Cleanser \$50

This is a very deep cleansing wash, and does an amazing job at removing your makeup. This is also the cleanser that we send home with our clients after chemical peels and microneedling because it is infused with shea butter and citrus to promote the healing and conditioning of the skin.

### Beta Green Tea Cleanser \$50

This cleanser is great for anyone who experiences acne or rosacea! It works to fight bacteria build up and inflammation on the skin, and is also very deep cleansing.
