Tips

- Find out who will be paying for what when determining your initial budget.
- Consider the guest list - the guest list size will increase or decrease your overall budget. For tented and/or private estate weddings, you need at least \$500 budgeted per guest to execute a tented wedding.
- Your budget will increase or decrease depending on the time of year you're getting married.
- Ask yourself what is or is not important for you to include on your wedding day and prioritize.
- Ask yourself where do you want to spend a little extra and where do you want to cut cost?
- To help you stay on budget, create a budget tracker and try to stick to the budget!
