- Then after creating your account you can select 'Promotions' menu and 'Travel Agent Search'. (Not all hotels and dates will be eligible for a travel agent rate).
- As our agents predominantly book through our range of Preferred Partners, we don't have access to the 'FAMtastic' rates – as Marriott cannot directly track our sales volume, despite it being incredibly high.
- When searching for a travel industry rate, you need to change the code from H77 which is the default code - to **7TA**.
- You can book a maximum of two rooms at this rate as long as you are travelling in the group. There is no maximum number of nights at this rate.
- You can also try emailing Marriott hotels for a travel industry rate if there is no industry rate showing on the online search using the code. Send your email from a professional email address and email the specific hotel reservation team (simply Google the hotel name - reservation email contact). There are tips on what to include in your email in the 'How to Travel like an Insider Guide' and within 'The Essential Travel Booking Guide'. Please read these guides before contacting hotels to request a travel industry rate.
- If the hotel is in Greece also request access to the hotel's net rates via **Webhotelier**. See details of this system on the 'Essential Travel Booking Guide' within the 'Booking Travel' section of the Hub. For example, Domes, Luxury Collection, Autograph etc.
