# WHAT TO CONSIDER

01

*Do they have your style?*

Before searching for a photographer, determine the type of photography you want - whether it's traditional, fine art, light and airy, or dark and moody.

02

*Do they have a solid portfolio?*

Always ask for at least one full wedding gallery to view and ensure they have a solid portfolio with a variety of wedding images showcased on social media and their website.

03

*Are they in your budget?*

Weddings are expensive and its important to inquire with photographers that are within your budget. Review their website for pricing information and ensure you ask for detailed package pricing when first reaching out.

# WHAT TO CONSIDER

04

*Do they share enough details?*

Ensure you set up a call or an in person meeting to discuss all of the details! Your photographer should be able to share in depth specifics in regards to working with them and what you can expect from start to finish as their client.

05

*Are they professional?*

At the end of the day, you are hiring a professional service and wedding day investment. Always ensure your photographer is friendly, but more importantly, that they always keep a professional image and stance when providing their service.
