## FIRST CARE: TRAUMA TREATMENT FOR THE INNOCENT BYSTANDER

Get hands-on training for treating severe injuries associated with extreme violence or catastrophic accidents. Students will use state-of-the-art equipment to learn how to properly treat victims while immersed in smells, sights, and sounds for an unmatched experience.

- Controlling various types of severe bleeding
- Managing airways and open chest wounds
- Moving injured victims safely
- Making decisions under stress
- Managing the room and casualties
- Using your environment to survive
- Interfacing with law enforcement
- So much more!
