# WEDDING ALBUM

Photographs are meant to be printed. There is nothing quite like an exquisitely designed, handcrafted photo album to display and preserve your images in a way that everyone can hold and enjoy. Although online galleries and digital image displays are becoming an increasingly popular, inexpensive way to display photographs, there is still nothing like a physical photo album.

Albums are books which tell your story. Well-designed albums inspire and elicit a wide range of emotions in incredible detail and brilliant color. Many photographers will spend hours or even days to craft a design that shows off your images as individual works of art. Albums are well worth the investment - they will last a lifetime and make your images accessible to anyone, anytime!

## EXTRA COVERAGE

Because of the nature of my schedule, I'm usually the first vendor my clients book (and it's quite far in advance!). It's not uncommon for my clients to book photography even before any of the other wedding plans are made. For this reason, my clients often find themselves needing extra hours of coverage as wedding plans change and expand. Once you've booked your date, the entire day is reserved just for you, and I'm available for extra coverage up to a maximum of 12 hours.

## SECOND SHOOTER

If your package doesn't include a second shooter, there is always an option to add one!

As much as I try to be in every place at once, sometimes it's just physically impossible depending on the timeline. For larger weddings or weddings where the bride and groom are getting ready at the same time in separate locations, or for weddings without first looks, you'll want a second shooter to make sure not a single detail is missed. I only work with other professionals who meet my rigorous standards of quality images and matching equipment. Think of it like getting 2 of me!

## BRIDAL BOUDOIR SESSION

So many of my brides have asked for this special photoshoot in addition to their engagement session that I've now added it to my add-on list! A bridal boudoir session is a luxury portrait experience starring the bride in intimate poses and lingerie. This session can be taken anytime before the wedding and is a beautiful way for brides to celebrate their bodies and remember this very special time in life. A client favorite!

## **DESTINATION WEDDING**

Did you decide to plan a destination wedding? I LOVE destination weddings, and will be right there with you for every special moment no matter where your wedding takes place! I define a 'destination' as anywhere requiring airplane travel. Due to the additional expense and time of travel, destination wedding rates are broken down below.

The good news? Since clients cover the cost of my travel, I am happy to include 3 additional hours of non-wedding photography at the destination, which may be used for anything from the rehearsal dinner to a casual portrait session with just bride and groom.
