

## Empowering Children

WOMF has been supporting orphans and vulnerable children on behalf of their sponsors for over 25 years. The children who are part of the Vulnerable Children's Program are sponsored from Nursery/Primary school through Secondary school or trade schools. WOMF hopes to empower children with the tools to thrive in life as adults.

Only 62% of children will complete primary school.

- Of that 62% only 14% of those children will enroll in secondary school.
- And of that 14% only 30% of those children will sit for their final graduating exams.

43% of children are unable to read and write.

- 75% of children do not have access to books at home.
- 57% of children cannot afford to pay for school uniforms.

### Feed His Lambs

Feed His Lambs sponsorship was started in 1995, providing orphaned children with the opportunity to go to school and have their basic needs met. Every child who is part of FHL is brought together as a big family. Since then, over 750 children have become graduates of Feed His Lambs.

### Student sponsorship

More recently our Student Sponsorship program has been created to provide an opportunity for students whose families may not be able to meet required tuition costs. This gives every child an opportunity to have the education they deserve.

- WOMF is partnered with 28 schools throughout Africa, with 25 Primary and Nursery schools, 2 Secondary schools, and 1 Bible college.
- Over 1,200 children who have been part of our Vulnerable Children's Program have graduated from secondary school. There are currently over 100 students who are part of our program being sponsored with many more who need sponsorship.
- Through sponsorship, we provide education, basic needs, and medical care.
