THE WEDDING TIMELINE

Why Your Wedding Timeline Matters.

Your wedding day is made up of so many meaningful moments—some planned, some beautifully unexpected. A thoughtfully built timeline allows those moments to unfold naturally while ensuring nothing important is rushed or missed.

Photography plays a role in nearly every part of your day, from the quiet moments of getting ready to your final exit. The way your timeline is structured directly affects the pace of your day, the lighting in your images, and how present you're able to feel throughout it all.

Natural light, travel time, venue layout, and season all influence when and how we schedule portraits and key moments. When these elements are considered early on, it creates space for your day to feel calm, intentional, and enjoyable.

A well planned timeline isn't about being strict or over-structured, it's about creating a flow that allows you to soak in each moment while trusting that everything is unfolding beautifully behind the scenes. I'll be there every step of the way to guide and support you as we build a timeline that works best for you!

Next, let's take a look at what a typical wedding day timeline can look like...

YOUR WEDDING STORY, DELIVERED

What Happens After the Wedding?

Once your wedding day comes to a close, the celebration doesn't end there. Your photos are carefully curated to tell the full story of your day—capturing not only the moments you remember, but also the ones you may have missed.

From emotional exchanges and joyful celebrations to thoughtful details and quiet in-between moments, your gallery is designed to reflect how your day truly felt. Every image is intentionally selected and professionally edited to ensure your wedding story is preserved beautifully and timelessly.

This part of the experience is just as meaningful as the day itself. While your timeline and thoughtful planning help create the moments, your gallery allows you to relive them again and again for years to come.

Next, let's talk about when you'll receive your photos and what you can expect along the way.

Within 48 hours of your wedding day, you'll receive a collection of sneak peeks, (AKA: your very first look at your wedding memories!!) These previews include 40–80 hand edited highlight images, capturing the emotion, details, and key moments from your day. They're perfect for sharing with loved ones and reliving the excitement while your full gallery is being carefully completed.

Your full wedding gallery will be delivered within 6–8 weeks of your wedding day. Most couples receive a minimum of 1,000+ fully edited images, depending on coverage, timeline, and events throughout the day. The gallery tells the complete story, from getting ready through the final celebration.

All of your images will be delivered through a private online gallery, accessible on both desktop and mobile devices. From there, you'll be able to download your photos directly to your phone or computer and easily share them with friends and family. Everything is organized in one beautiful place, making it simple to enjoy your memories whenever you'd like.

Booking and Payment

Once you've selected the collection that best fits your wedding day, securing your date is simple and straightforward. A signed contract and a \$350 non-refundable retainer is required to officially reserve your wedding date, ensuring clarity and peace of mind for both of us.

To make your investment manageable, each collection includes a structured payment plan with payments spaced out leading up to your wedding day. This allows you to plan comfortably while knowing your photography coverage is fully secured.

My goal is to keep the booking process clear, organized, and stress-free so you can focus on celebrating and planning your day with confidence.

Customization and Add-Ons

While collections are thoughtfully designed and items cannot be removed, additional coverage and enhancements can be added at any point leading up to your wedding day. Popular add-ons include extra coverage hours, an engagement session, and the option to include a second shooter for even more comprehensive coverage.

If you choose to add a second shooter, I kindly ask for three months notice prior to your wedding date to ensure availability and seamless planning. This flexibility allows you to build a collection that evolves with your needs while keeping the experience smooth and well-organized.

What is a Second Shooter?

A second shooter is an additional professional photographer who works alongside me on your wedding day. Their role is to capture moments from a different perspective such as groom coverage while I'm with the bride, alternate angles during the ceremony, and extra candid moments throughout the day. This allows for more complete storytelling and added coverage without feeling rushed. They capture the photos, I edit them.

Should I Have One?

A second shooter isn't required for every wedding, but it can be incredibly beneficial for larger guest counts, full wedding-day timelines, or events with multiple locations. If you're planning a big bridal party, a detailed timeline, or simply want as much coverage as possible, adding a second shooter can help ensure no meaningful moment is missed.

If you're unsure whether a second shooter is the right fit for your wedding, I'm always happy to help you decide based on your day, timeline, and priorities.

Engagement Sessions

Thinking about having an Engagement Session but unsure? Engagement sessions are a great way to celebrate this season and capture beautiful, meaningful photos of the two of you.

These sessions help you feel comfortable in front of the camera and give us time to connect before the wedding day. You'll get a feel for how I guide and photograph you, while discovering what poses and moments feel most natural to you as a couple.

Best of all, engagement sessions are relaxed and unrushed (no timeline, no pressure). Just you being yourselves and enjoying the moment together.

Frequently ASKED QUESTIONS

DO YOU EDIT THE IMAGES?

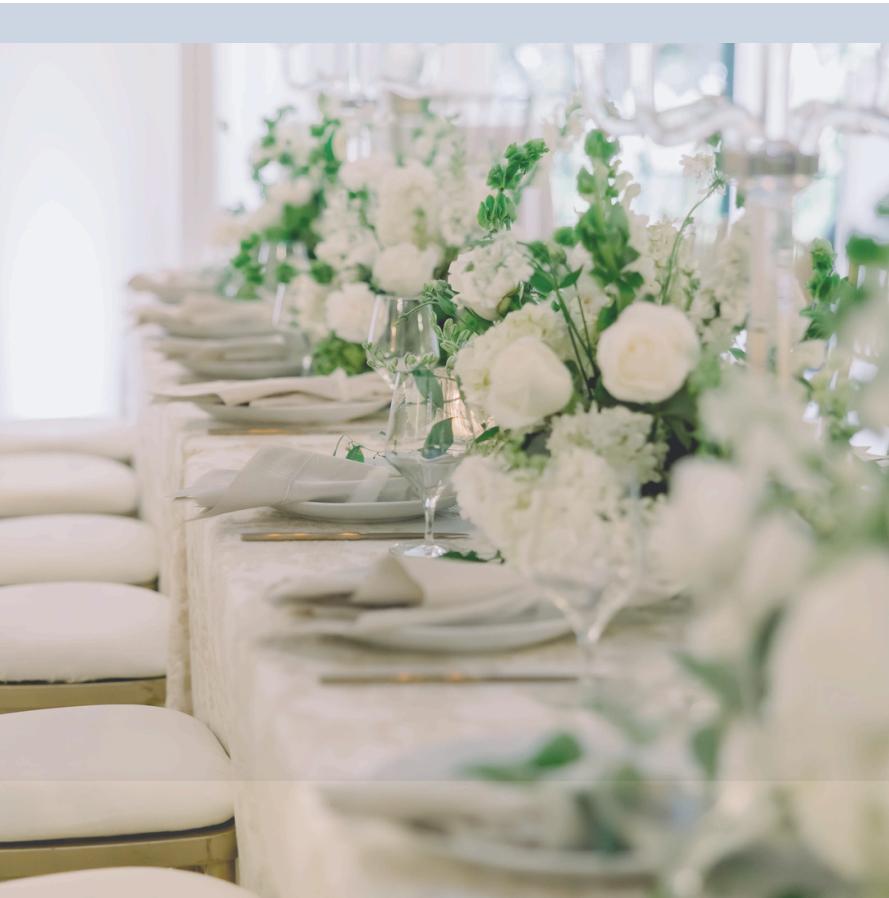

Yes! Every image you receive is professionally edited to reflect my signature style. I carefully cull and edit each photo for color, exposure, and consistency, ensuring your final gallery feels cohesive, polished, and true to your day. I focus on enhancing the natural beauty of each moment while keeping everything timeless and authentic.

WHAT IF IT RAINS ON OUR WEDDING DAY?

If it rains on your wedding day, we'll adjust and make the most of it. I come prepared with a backup plan, covered locations, and timeline flexibility to ensure your photos are still stunning. Overcast skies often create soft, flattering light, and rain can add a romantic, cinematic feel to your images.

No matter the weather, your story will be captured beautifully because the most important thing is that you're marrying your person.

WHAT HAPPENS IF YOUR EQUIPMENT BREAKS?

We all know that from time to time technology can sometimes run into some issues. However, I make sure I have enough equipment to bring as a back-up on the day. I keep all my equipment well maintained so rest assured that I have taken every step I can to prevent problems and protect your images. For extra peace of mind I also always bring two cameras, one for shooting and the other for backup, along with multiple memory cards.

WHAT IF YOU HAVE TO CANCEL OR CAN'T ATTEND?

I haven't yet not been able to attend a wedding but, as with any supplier, it is possible an emergency or illness could prevent me from attending your wedding. In this very unlikely event, I will do my utmost to try to find a similar style photographer replacement from my trusted network of professional wedding photographers. They will shoot the wedding, and I will edit the images. If this is not possible, then the final, and absolute worst and last case scenario is that I will refund the money you have paid me.

YOU'RE IN GOOD HANDS

Choosing your wedding photographer is one of the most meaningful decisions you'll make during the planning process and it's about so much more than just beautiful images. It's about trust, connection, and knowing that the person behind the camera truly understands the weight and emotion of your day.

This wedding guide was created to give you a clear picture of what it's like to work with me — from the initial inquiry to the final gallery delivery. Inside, you'll find detailed information on my collections, investment, planning process, timelines, engagement sessions, add-ons, and what to expect every step of the way. My goal is to make you feel informed, confident, and supported long before your wedding day arrives.

With years of experience photographing weddings, I bring a calm, organized presence to your day while still knowing when to step in and guide you. I'll help keep things running smoothly, adjust when plans change, and gently direct when needed, all while allowing real moments to unfold naturally. I believe the best images come from a balance of intentional guidance and authentic connection.

A FINAL

When you book with me, you're not just hiring someone to take photos, you're gaining a photographer who is fully invested in your experience, your memories, and preserving this season of your life beautifully.
