pom safe

The All-in-One Safety Solution

POM Safe isn't just a device or an app—it's a full safety platform built to prevent and reduce workplace violence.
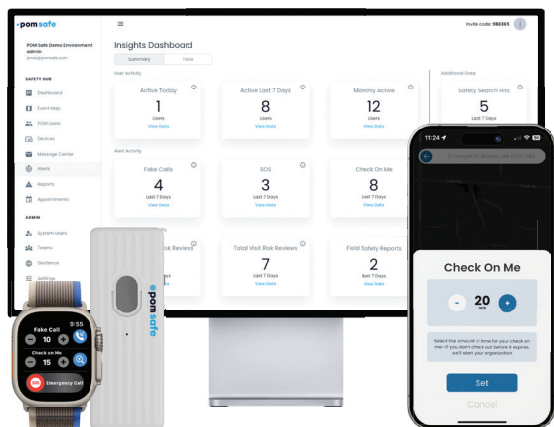

Designed specifically for home health, hospice, and community-based care, POM Safe addresses the real-world risks caregivers face in the field with tools made to keep them safe and supported.

82% of Penn Medicine at Home staff feel safer and support the investment in POM Safe.

Safety Hub & Insights Dashboard

At the center of POM Safe is the Safety Hub—your command center for real-time risk insights, compliance support, and staff safety.

Crime Data & Risk Analysis
Spot risks early using crime data & share with staff before visits.

Real-Time Risk Assessment
Review and act on safety concerns before they escalate.

Incident Reporting & Compliance
Stay aligned with OSHA, accreditation standards, and state safety regulations.

Mass Communication & Alerts
Instantly send alerts or schedule notifications to keep teams informed.

Seamless Integration
Integrate safety features into existing infrastructure with the POM API.

Be Proactive. Not Reactive.

POM Safe keeps caregivers feeling safe and provides peace of mind at every stage:

Preparing for a Visit
Check for potential danger areas using the **360 Safety Network.**

Starting a Visit
Set a **Check on Me** timer to alert help if safety isn't confirmed in time.

During the Visit
Trigger a **Fake Phone Call** to safely exit uncomfortable situations.
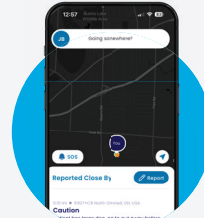

After a Visit
Flag concerns by creating a **Safety Report** and help keep others safe.

In an Emergency
Trigger an **SOS Alert** from the app or device to request emergency help.

POM Safe provides flexible, mobile-connected safety solutions:

POM Mobile App
All-in-one safety with 24/7 response, check-ins, alerts, and more.

Smartwatch Integration
Discreet, hands-free access to help—right from your wrist.

Companion Device
(Optional) Extra protection for staff in high-risk or low-connectivity areas.

78% of caregivers use the **Fake Phone Call feature** within the first 90 days of deployment
