A new Beginning A NEW BEGINNING

Set somewhere on the edge of dreams and reality, at LEGACY we strive to create our own little world. It is not about trends. It is about our hearts beating faster, gasping of beauty and inspiration, feeling part of something bigger and not being afraid to fail by trying something new. It's about authenticity and the joy of creation. Ethereal and otherworldly. It's for the dreamers. „For the love of photography“
- Armelle Gouyet

Learning from outstanding creatives in the wedding photography field, with a focus on unique visions, we invite photographers and videographers of all levels to this enchanting event, to replenish, grow, create and connect on all levels.

„LEGACY was a truly life-changing experience for me. Not only did it leave a lasting impact on my personal growth, but it also marked a clear divide between the past and the future in my career. Words seem inadequate to fully express the profound effect it had on me; rather, the breathtaking images captured during the event speak about the magic and “transformative power of that unforgettable moment” <3”

Betiana Hurtado

„During the days I was at Legacy Workshop, there was magic everywhere...”

Elisa Bessa

„Was it a reality? Or it was a realistic dream? I still can't digest what I've experienced in the last couple days. It was absolutely a feast of Fine Art x Fantasy, yet it gave room to improvisation & engagements. Personal talks that full of nutrients with the speakers and self discoveries through the encounters with new fellows. I met people who are kind, sensitive, respectful, authentic, professional, humble, open, honest, gentle, experimental. I'm so grateful to see the possibilities of building a career/life with these positive personal qualities. Thanks for planting these beautiful seeds in me.”

Ka Yee Kowalski - Kajade Photography

“These melancholic moments fit my mood right now as I'm sat in the airport about to leave Paris. The last few days spent at LEGACY has been so wonderful... full of emotion, belly laughter, wine (too much champagne), deep chats until 5am and a hell of a lot of dancing (still discovering new bruises). I've met the most amazing people, developed beautiful friendships. Thank you to Muse & Mirror for their hard work and all the people that created magic. Love you all.”

Becy Stabler - Belle Art Photography

„Reflecting on the enchanting setup of LEGACY last year. This place not only introduced me to remarkable souls but also fueled my confidence to stay true to my artistic vision, infusing my work with soul. A piece of my heart forever resides here. <3 ”

Nayara Venancio

„I was incredibly grateful for the opportunity to shoot at LEGACY for my first, real photography experience. It was life-changing, inspiring, and allowed me to envision what kind of artist I am and who I want to grow into.”

Anne Taylor Studio

„We love, love, love capturing weddings & elopements! But at the end of a long & busy photography season, it's easy to feel a little creatively burnt-out and artistically exhausted...This is why we feel that it's so important to stoke our creative fires for the couples whose weddings & elopements we will be capturing next year! We have always been huge fans of the incredible, heartfelt, poetic artwork that Muse & Mirror create. So when we heard that they were planning a creative workshop/ photography retreat in France at the end of October, we were 100% down!”

Jim & Katy Caryl - The Caryls

“Leaving Paris more inspired than I've ever been. More on fire than I've ever been. More determined than I've ever been. Leaving with a full heart and a world of opportunity ahead of me.”

Jessica Fenon - Valor & Vine

„Legacy Workshop is something you cannot tell, you can only live, immerse yourself in its magic and leave the whole world outside. A unique, magical, mystical experience, a journey with special people, a hug from which you would never want to leave.”

Francesca Angrisano

WHAT YOU GET

PORTFOLIO

High-quality styled sessions are an essential part of LEGACY's vision. Working with a talented and passionate team ensures otherworldly and next level portfolio work. You will get to photograph unique sets each day in small groups of only up to 6 people with 30-45 minute sessions per group. This way you will have the chance to really create something unique for yourself!

BUSINESS

Learn about the business of photography from our seasoned mentors who come from different national and photographic backgrounds. During the workshop all questions are allowed and you can get all the answers you need about setting your brand up business-wise and creatively.

COMMUNITY

Creatives who share your vision and new business and friendship connections might be the least measurable, but invaluable result of joining this workshop.

Meet fellow photographers from all over the world in an intimate, introvert-friendly setting with lots of shared community time, from cozy breakfasts to late night talks. We have a limit of 22 tickets to keep the group small and have the best possible experience.

INTERNATIONAL MENTORS

At LEGACY the speakers are so much more than presenters. They are an active part of the community 24/7 - just as everyone else. They are selected based on their creative vision, their successful business approaches, enthusiastic energy and the fact that we just cannot wait to learn from them ourselves! They share their knowledge freely to inspire and help you with your next step. Just having a coffee and private conversations has proven to be super valuable in conquering personal challenges you might face in your business. And you will have plenty of possibility to do so!

ALL INCLUSIVE EVENT

Yes! Your ticket includes everything! From your accommodation to full vegetarian catering for the whole event. Alcohol is not included. Rooms are mostly shared by two to three people, with single beds and shared bathrooms. All shoots, mentors and one on ones are included. We want to make sure you can fully immerse yourself in the experience and make the most of your time!

KOKO KING +
ROBERT HASTINGS

Robert Hastings and Koko King are a creative dyad, whose love of photography is expressed across various formats, in their signature romantic atmospheric works and we have been nothing but obsessed with their unique creations.

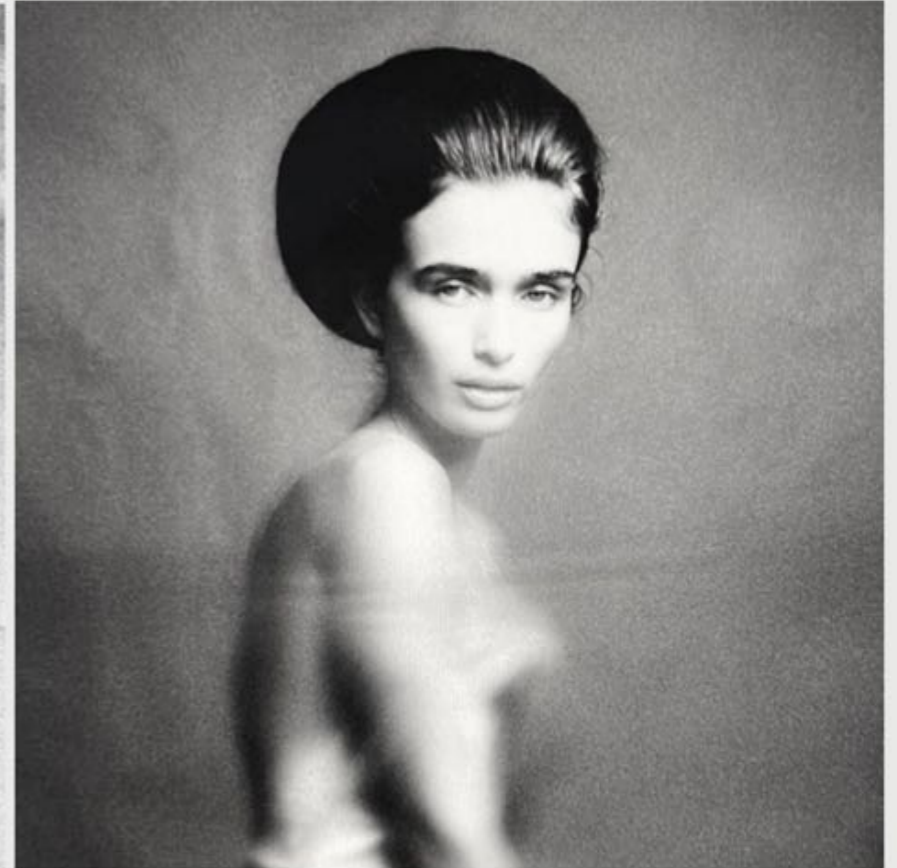

With Robert specializing in film (35mm, medium format and large format), he is able to capture the enchanting tone of eras past, giving an alluring nature to each photo.

Koko is known for her strong and edgy editorial works, with a background in posing and the beauty industry. Together, they really bring something new to the realm of wedding photography, which is so rare to find and we can't wait to get a glimpse into the workings of their creative minds.

Nanda Hagenaars
NANDA HAGENAARS

Netherlands
**NANDA
HAGENAARS**

Nanda Hagenars is a photographer who aims to translate her feelings and emotions into images. Her work can be described as poetical, intuitive, and emotional. The concept of time and timelessness provoked Nanda to photograph in black and white.

She believes in using photography as a way to grow and discover herself. With a sharp focus and some sweaty hands, she searches for new compositions. Realizing that you can look at something and see a whole new side empowers her to face challenges in life with the same open mindset. Photography is her way of sharing how she sees the world and who she is. Inspired by her grandmother, she's not afraid to break the rules. "I love images that look like they've been touched by a painter's brush," she reveals. She plays with light and shadow, creating a dance that's both rhythmic and melancholic.

Through her work, she hopes to inspire others to share their emotions through art. She's a firm believer that everyone has an inner artist who can create and heal by looking at the world, or themselves, with fresh eyes.

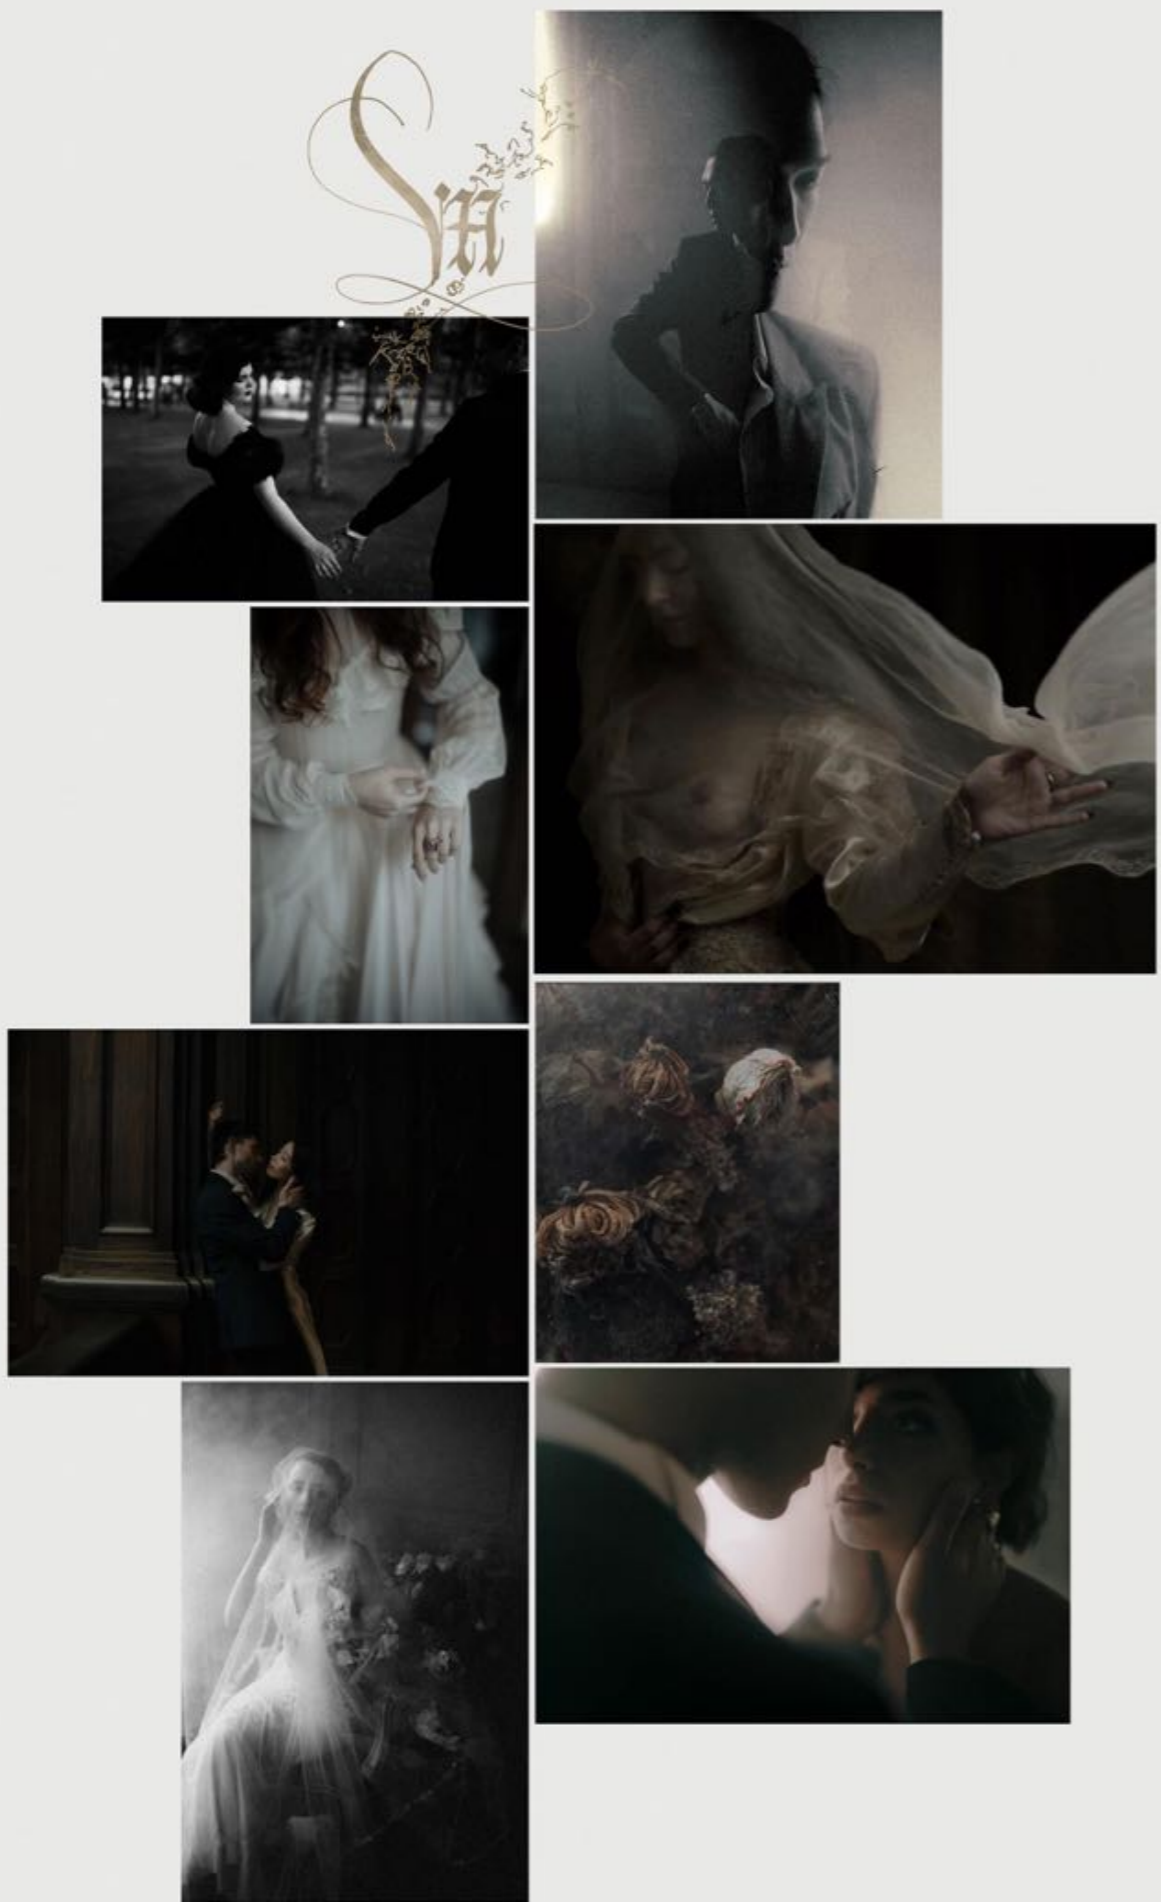

We are always striving to broaden our horizon with inspiration and expertise from outside the wedding photography bubble and are so excited to welcome Nanda for her different perspective this year!

MUSE & MIRROR

This is us, Ronja and Victor - the ones who came up with LEGACY - to create the kind of learning experience we couldn't find anywhere else. A journey filled with romance, nostalgia and magic. We can't wait to learn from the speakers this year - selected photographers who inspire us daily. Drawn to sensuality, dark romance and cinematography, we are striving to combine our love for poetic imagery and tangible heirlooms in our couple and wedding work since 2015. After we have traveled the world and have been awarded a.o. as Hasselblad Masters and Rangefinder Grand Prize Winner, we also found a passion in creating meaningful events that combine all our favorite things in one crazy, creative project and that allow us to be inspired and connected in such a special community of lovely, talented people. We share openly about our philosophy, editing, photography and love working with you on overcoming your individual challenges - to plant new seeds and see you fully embracing your uniqueness and a bolder approach to creating.

We cannot wait to meet you!

STORY OF EVE

Ireland STORY OF EVE

Michael Toman of Story of Eve is a filmmaker and photographer whose passion is in capturing visual stories for discerning clients and brands worldwide.

With a background in editorial design, Michael has a keen eye for detail and enjoys telling different kinds of stories - from intimate garden parties and opulent manor house gatherings to lavish travel experiences and spectacular dining events on private yachts, each story Michael captures is completely different from the last. Working with a limited number of clients each year allows Story of Eve to create an exceptional service for those who book. "Privacy and the ability to work unobtrusively is paramount for our clients and we take that very seriously".

Story of Eve are inspired by fashion magazines and bridal editorials and love to work with couples who appreciate traditional elegance but want a modern and romantically raw aesthetic to the final imagery.

We can't wait to gain deeper insights into Michael's business and creative direction.

THE VISION

At LEGACY we prioritize exceptional styled sessions to give our artist souls something to get inspired by - something that doesn't look and feel like your usual styled shoot. To achieve this, we truly work together as a team; trusting each other's expertise and creating the final looks on the spot when everything comes together: The mood of the day, the location, models, dresses, accessories, florals. It's an organic and exciting process each and every time that carries on throughout the day, with each photographer bringing their vision to the setting and making it their own.

LAILA ALSANE (Barcelona) is our exceptional hair and make up artist. Her unique personality and zest for life shine through in each of her distinctive looks - visibly inspired by her long experience in fashion. Working for brands like VOGUE, Dior and Louboutin, Laila never fails to bring our vision to the next level with her untraditional ideas.

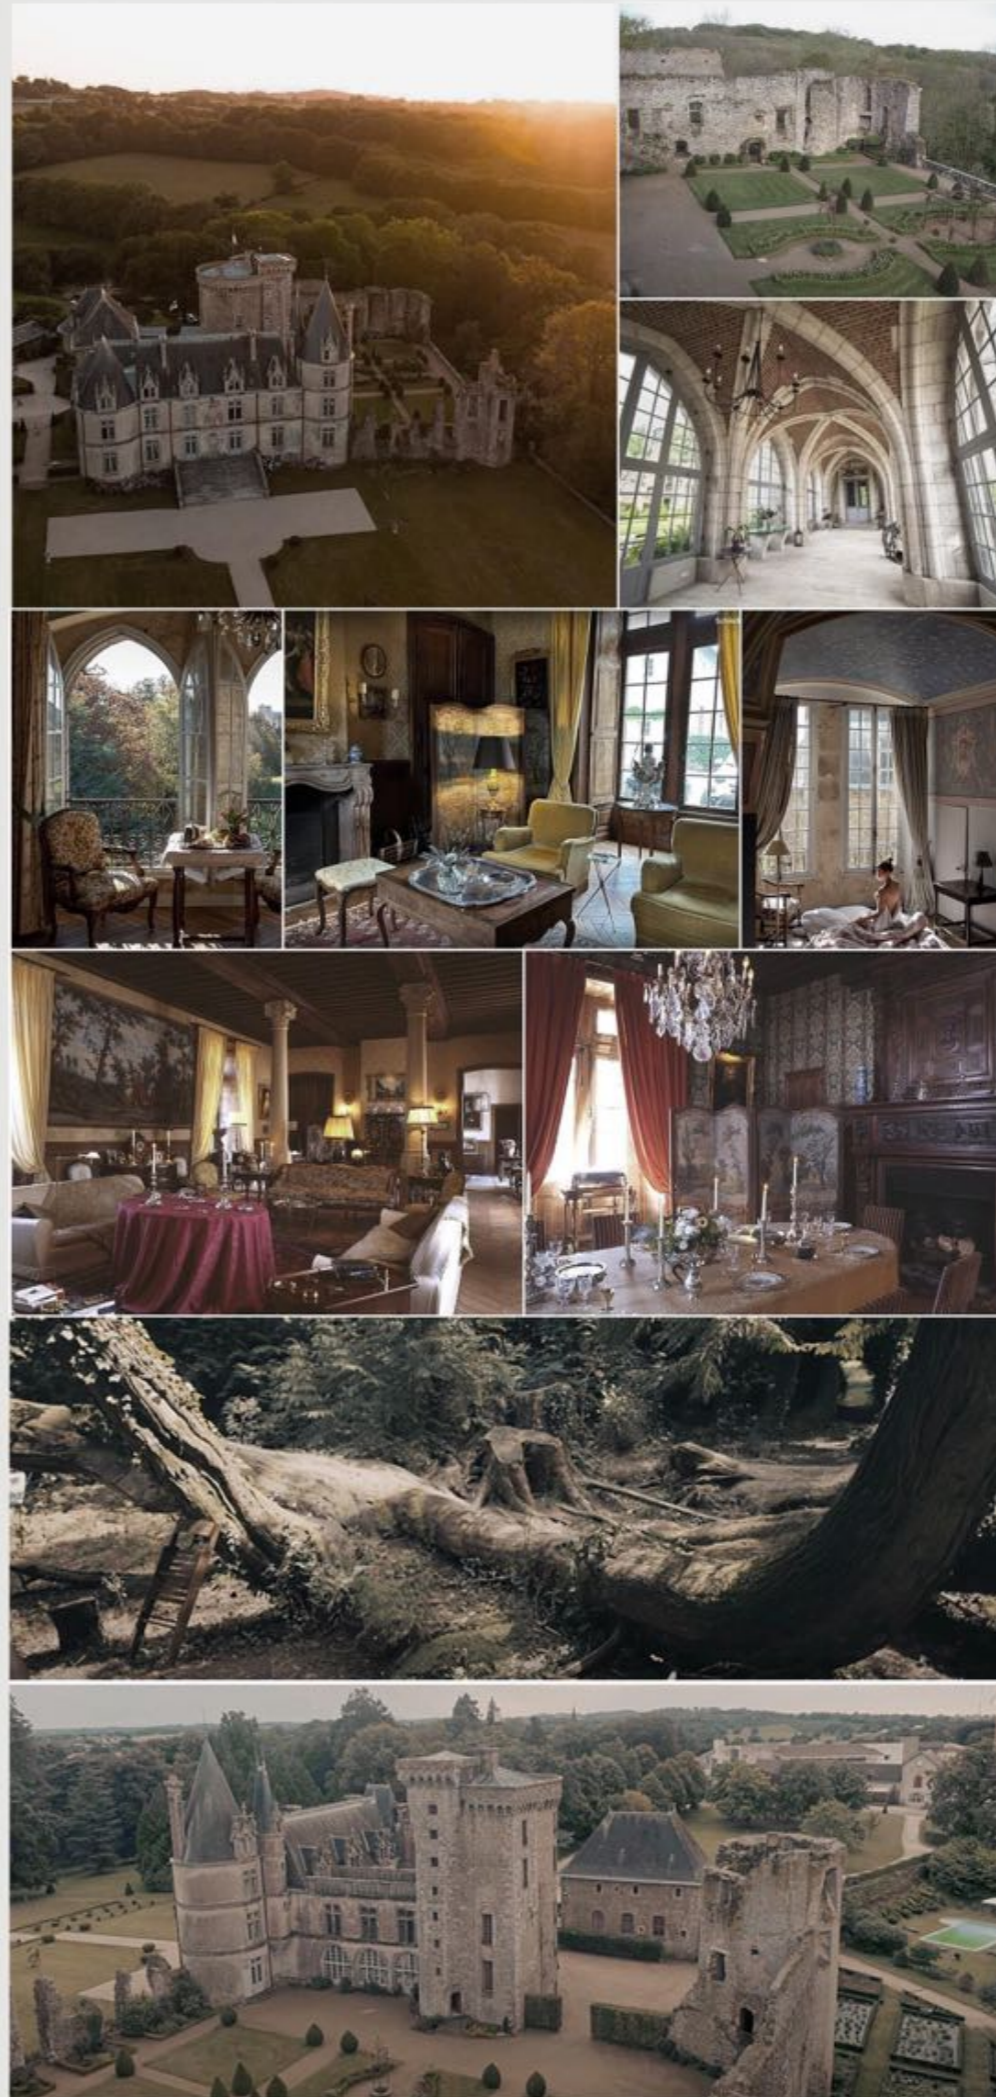

BEVERLY GOLD (Germany) of Heidi Gold Florals is once more bringing her love for extraordinarily luxurious and eclectic floral arrangements to life at LEGACY. Let her beautiful work and bubbly personality light up your days - and don't worry if you call her „Heidi“ - it is the name of her rescue dog, but she still responds!

The Chateau

THE CHATEAU

Crumbling stone walls and towers dating back to the 11th century will create one of our moody autumnal backdrops for our photographic adventures at this Chateau in the southeast of Nantes. With 200 year old trees, cedar and redwood, a river and a lake, the Chateau is set in 30 hectares of idyllic landscapes. For over 900 years, each era left it's mark on this heritage and we cannot wait to immerse ourselves in its history and charme. Bringing our vision and creativity, being inspired by its textures, lights and shadows and becoming a part of its own impressive story.

Combined with the beautiful interiors, the Chateau de la Flocellière will be the heart and home for all our shared meals, shoots and late night talks with new friends from around the globe. We cannot wait to see what we'll collectively bring to life here and the treasured memories we will share forever.

Behind the Scenes
BEHIND THE SCENES

One week ago I finished one of most exciting and powerful experiences regarding my profession and my passion for photography. Last year Ronja and Victor asked me if I would like to partake as a speaker at LEGACY. I'd never had such an experience before, public speaking about myself and my job isn't my point of strength, but I thought "why not? Step outside your comfort zone for a chance!".

I was struck by a quote that somehow became my mantra: "To get something you never had, you have to do something you never did". And so it has been. I returned home enriched by a wonderful experience, full of energy and friendship.

There are not enough words to express my gratitude. Happy and honored to have been a part of this wonderful adventure. Thanks again <3"

Anna Visintin

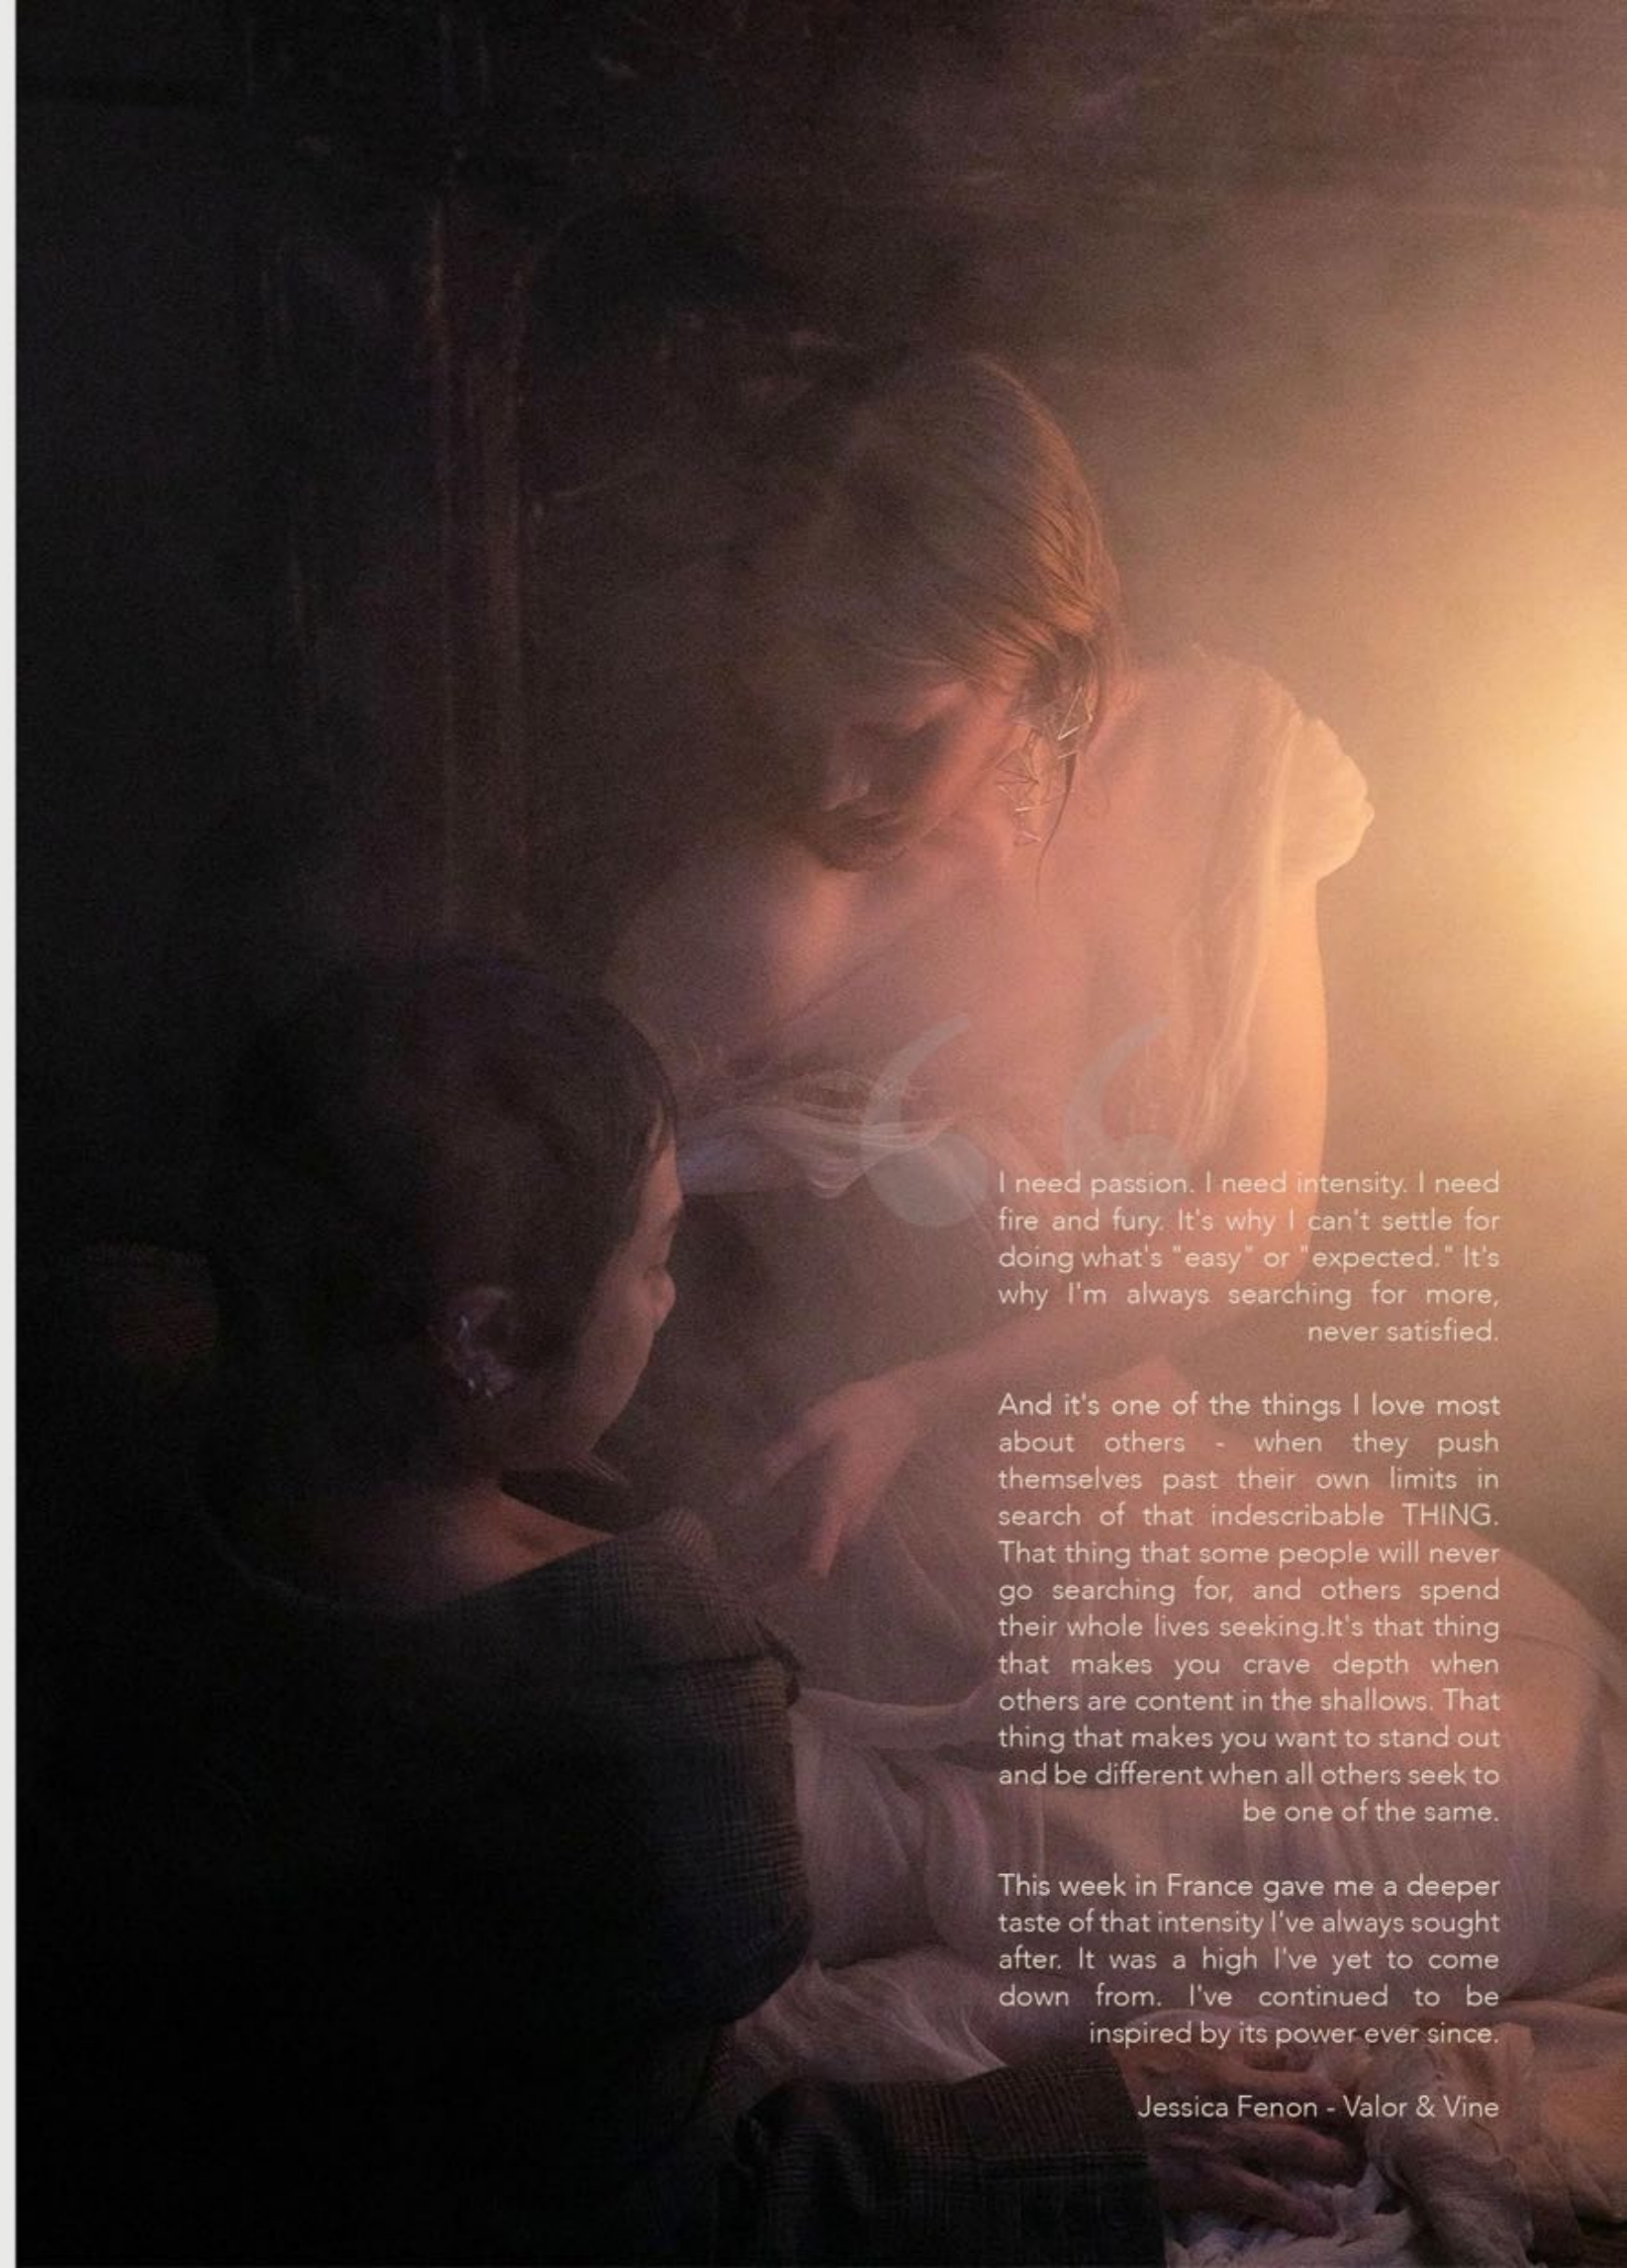

Beautiful days in the enchanted fairy tale. Everything added up - gorgeous hosts as though coming from the pages of some Schwarzwald Märchen, a moody mansion, towers with owls, an eerie chapel, unique models and amazing speakers, insanely talented Laila Alsane...Thank you very much for the unforgettable experience!

Oksana Bernold

"I came back happy, more than happy, amazed and full of gratitude, connected with myself, with photography and with new friends, people who in the space of "so little" time totally charmed me. A teeming mix of photo enthusiasts with a zest for producing, creating, sharing and experimenting that i've rarely experienced. For me it was much more than a simple photo workshop. They were able to create a timeless parenthesis around photography. It's precious. Very. I know i'll always cherish this memory. Although i've done a bit of wedding photography, i'm not a wedding photographer. I had my doubts.

Today, i understand where wedding photography can go. It can be diverse, go beyond the smiles of convenience, go deeper. Making beauty even more profound. Legacy has enriched me with this encounters, this exchanges, this work around photo from morning to evening, to night :) I love to learn, and Legacy has taught me a lot. Thank you so much <3"

Armelle Gouyet

I need passion. I need intensity. I need fire and fury. It's why I can't settle for doing what's "easy" or "expected." It's why I'm always searching for more, never satisfied.

And it's one of the things I love most about others - when they push themselves past their own limits in search of that indescribable THING. That thing that some people will never go searching for, and others spend their whole lives seeking. It's that thing that makes you crave depth when others are content in the shallows. That thing that makes you want to stand out and be different when all others seek to be one of the same.

This week in France gave me a deeper taste of that intensity I've always sought after. It was a high I've yet to come down from. I've continued to be inspired by its power ever since.
