HELLO FRIEND

First, thank you so much for reaching out and wanting to know more about me and my process. I understand hiring a photographer to capture your wedding can be stressful, but that's where I come in. I've got you covered. In this document, you'll find a breakdown of what I offer and, more importantly, what sets me apart from other photographers.

I want you to know that we're not just client and photographer, we're friends now. My goal is to make you feel comfortable throughout this entire journey leading up to your wedding day. With me on your side, you'll have one less thing to worry about when you wake up on your special day.

HOW I SHOOT WEDDINGS

I approach wedding photography with the couple's experience as my top priority. I'm not here to run the show or make decisions for you—my role is to capture your love as perfectly as possible through my lens.

Nobody likes a pushy photographer or awkward moments, especially on your big day when you're fully immersed in the love and beauty around you. With years of experience in the hospitality industry, I understand the importance of knowing when to step in and when to simply let the moment unfold naturally. Often the best photos are those taken when people are so comfortable, they forget the camera is even there.
