

Wedding Price Guide

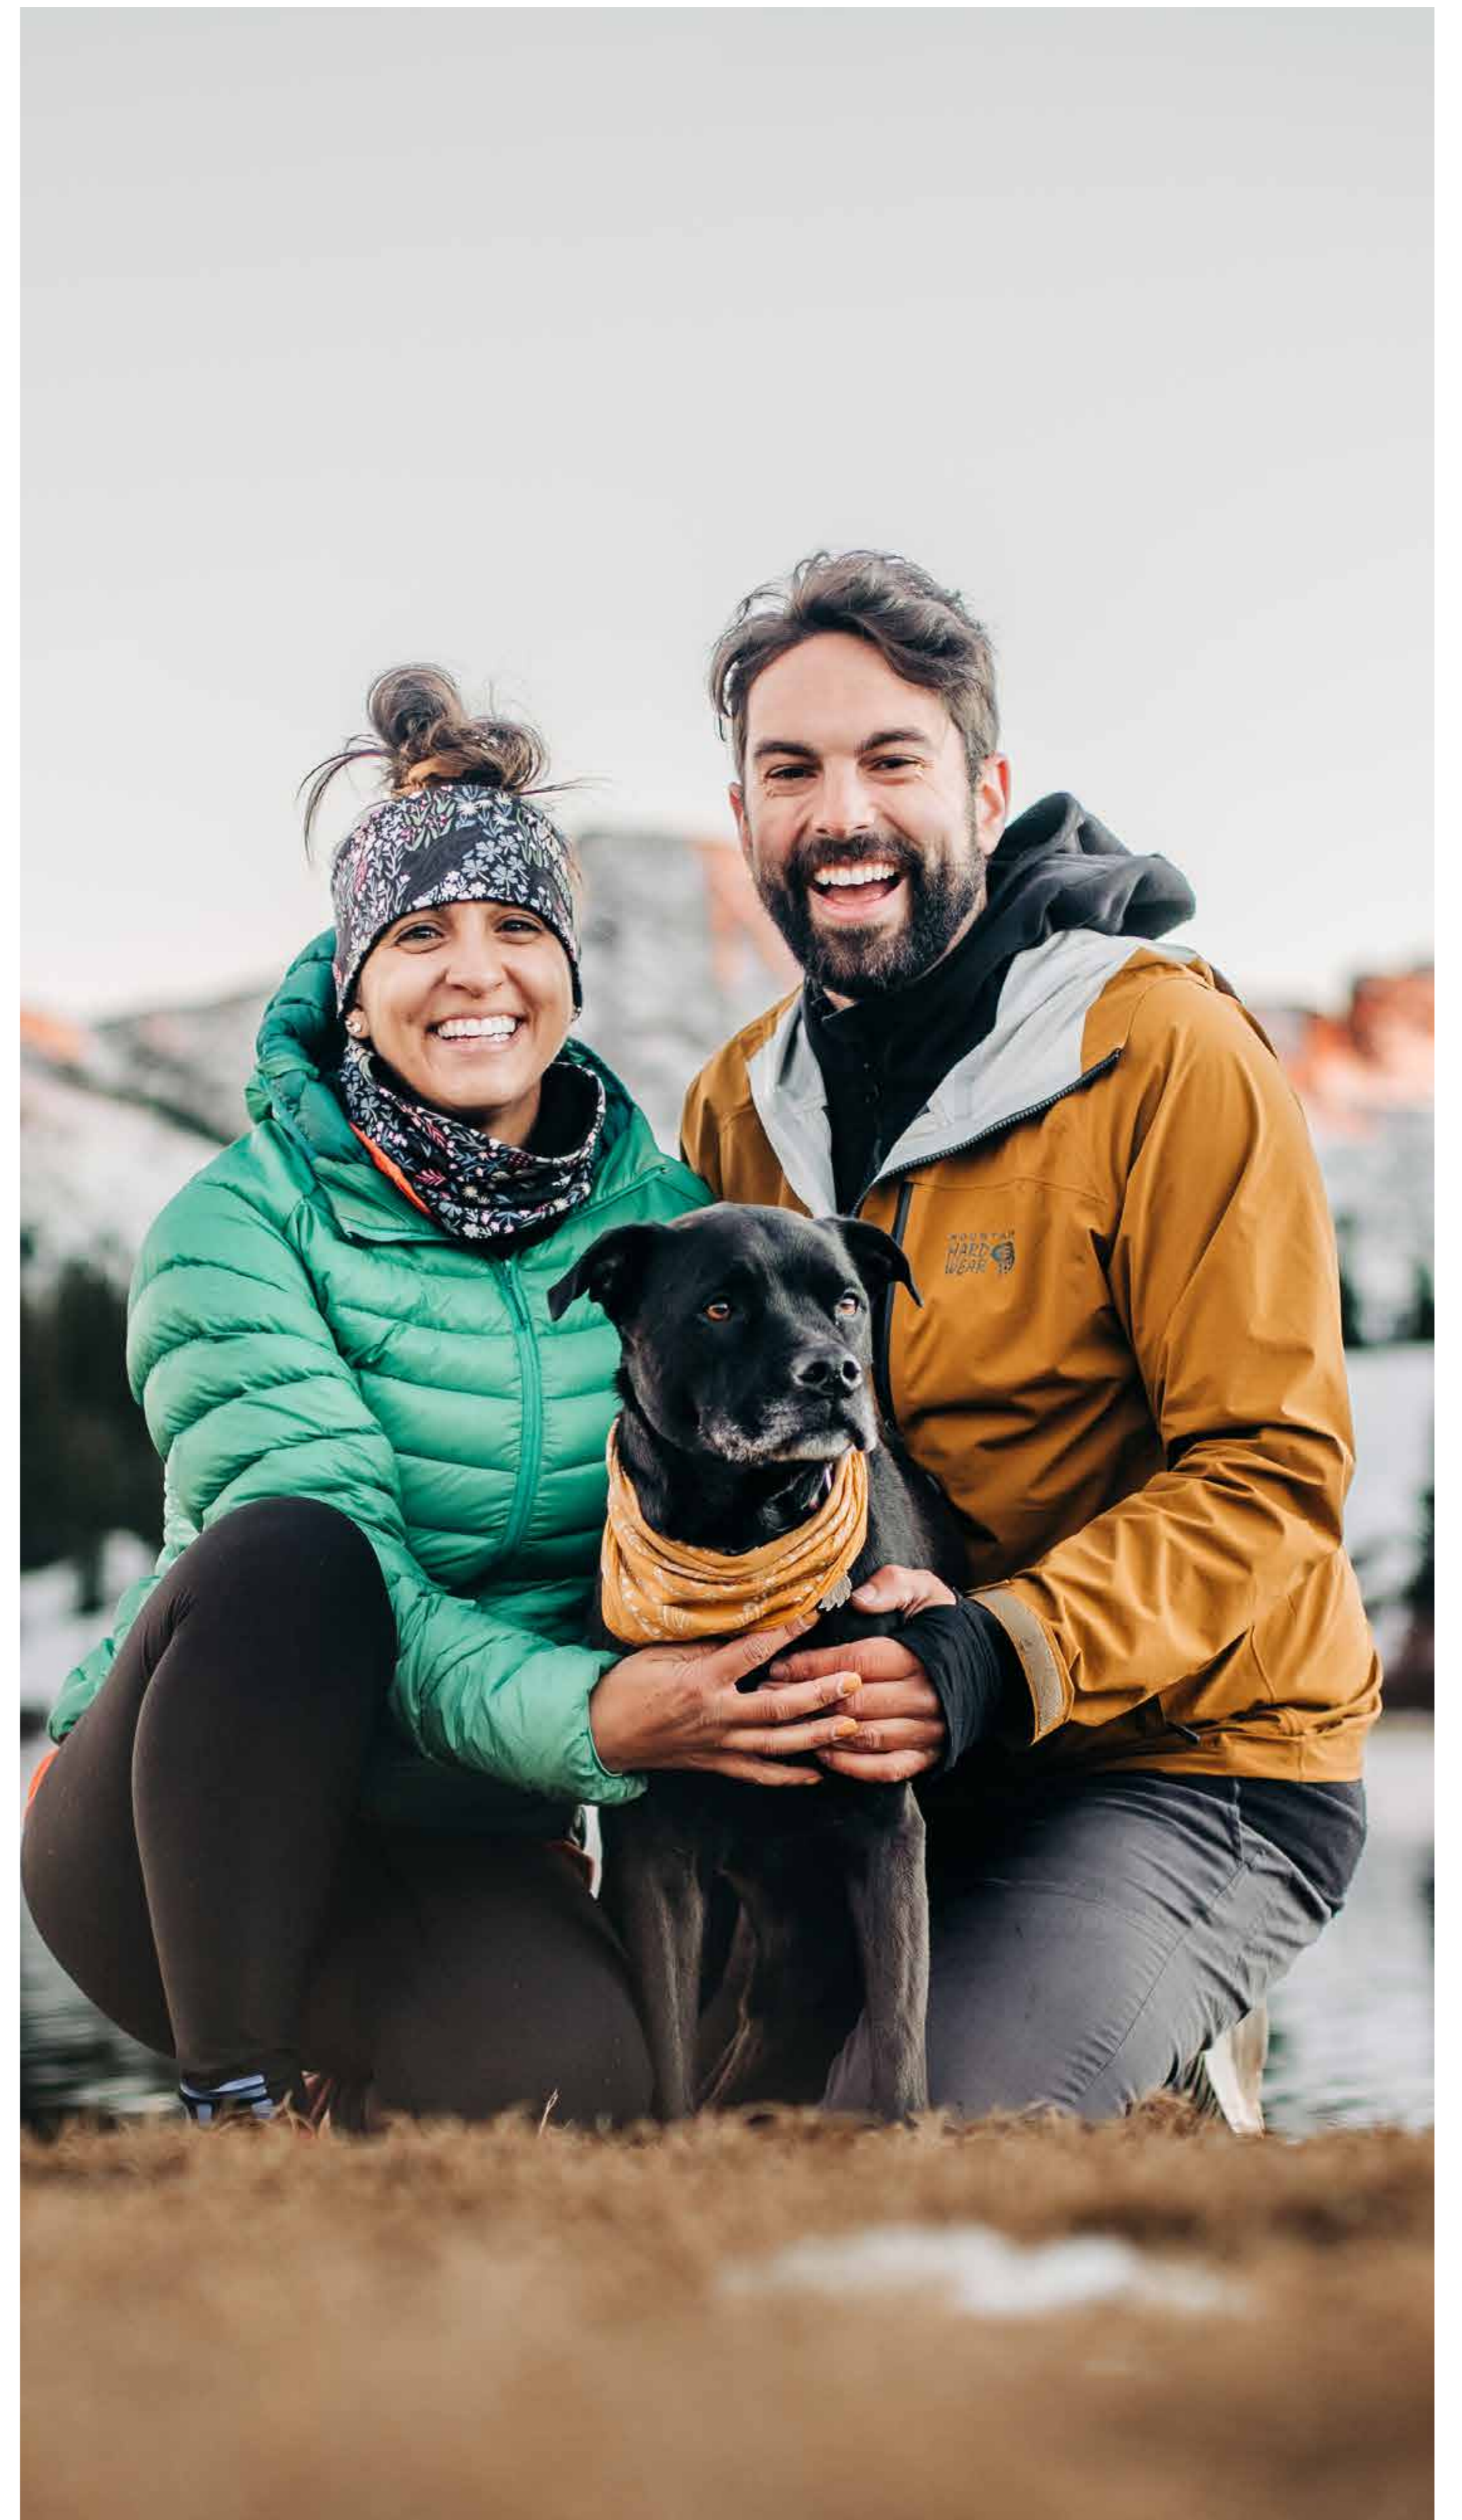

Hey There!

If you made it this far, you've probably seen these faces before, but just incase, our names are Tiffany & Austin. We are adventure-focused photographers based in the White Mountains of New Hampshire. We have a passion for the outdoors and for telling our couples amazing love stories.

Our style is laid back and natural, with an empahis on capturing real moments of real love. We focus less on those "stand here, look at the camera, tilt your head to the left" photos and more on the moments in between. We want the real moments , the moments that make your face hurt from smiling or the moments that make your heart beat faster. These are the magic moments and the ones that we live for. We want to photograph the things that make you who you are and that make your love unique.

You might be thinking...

Why TheWildBunch?

The truth is, you have tons of options when it comes to amazing wedding photographers. There are plenty of incredible people out there with different prices, styles, personalities, levels of experience and all the other stuff that makes every photographer different.

You choose TheWildBunch because at our core, we truly want to connect with our couples to create the absolute best images for you. After your wedding, when the ringing from the DJ's music fades, the last piece of cake is eaten and your flowers wilt, your pictures will remain. The last piece of tangible evidence of the best day of your life, and we want them to be unforgettable. We want your photographs to become keepsakes, passed down from generation to generation. We want your mom, grandmother, aunt and cousin, to all ask to see them at every family gathering, we want the walls of your home plastered with them, we want each image to invoke that same feeling you felt when you said "I do" standing at the altar with your best friend.

When you invest your trust and money in us, we invest everything in you, your experience and your memories. We are not there just to click buttons. Photographing your wedding is a big responsibility and you deserve a photographer who has experience, has professional equipment (with backups of backups), who knows how to work with any level of comfort in front of the camera, who can deal with the harshest of lighting conditions and the worst of weather and who is going to be there with you, and for you, **100% of the way.**

“You can’t go wrong with TheWildBunch. For our wedding, we asked for more candid photos, as well as the usual wedding pictures. Tiffany and Austin went above and beyond. They were happy and pleasant throughout the entire day. They seemed to capture special moments perfectly, without being in the way. Be sure to check out their amazing outdoor photographs. 10 out of 10 would recommend!” - The Rickers

“We got married this year in Waterville Valley and we couldn’t have asked for a better day. The most amazing part is that Austin and Tiffany captured every moment even the most smallest of details. The lighting and the individual captured moments made our day so incredibly special. We wish we could relive our wedding day over and over and now we can. These photos captured more than art, but magic, and we are beyond grateful.” - The Martins

“TheWildBunch are extremely talented, professional, and creative photographers and I would HIGHLY recommend them for any type of gathering. They shot our wedding and I know that they will be the first person I call when I have any future photography needs. They are flexible and accommodating to work with, and their passion and love for their work shines through in the incredible amount of time and effort they puts into the day-of event (Austin actually got into the lake so that he could get a good angle of us on a dock), and the following days and weeks as they compile and create the album of photos (he sent us a picture every so often as we were waiting for the full album, which was so thoughtful!). Bonus points to them because they’re fun to be around and loves what they do! If you can, book them!” - The Doyles

But don’t take our word for it...

The Package

\$7000

All Day Coverage

We start shooting 1-hour before you start putting the dress on and shoot until we capture everything at the reception. We don't think our couples should have to pick and choose which parts of their wedding they have photographed, so we capture it all! There is a lot that goes on throughout the wedding day, and our all-inclusive coverage ensures that we get photos of every moment!

Complimentary Engagement Session

Engagement Sessions are a great icebreaker and are always SO much fun! Mountain sunsets are our absolute favorite but we are happy celebrating your love anywhere! We can pop champagne on the beach, take a stroll through your favorite city or get cozy in front of a fireplace! We provide our custom "What to Wear guide" and offer location scouting and meticulous day-off planning!

Timeline Consultation

We will work 1 on 1 with you to ensure your timeline is dialed in, and every moment is covered. We have 10+ years of wedding experience and are happy to offer guidance and make suggestions.

We make sure to get you full coverage for every part of your wedding, so you can relive your favorite memories years later and even see some of the moments you may have missed!

Online Gallery of Images

We optimize an online gallery of your images for both print (tack sharp, 300dpi images that look beautiful on your wall) as well as for sharing with friends and family via social media (we include an option custom-made to look good on Instagram and Facebook, cuz we all know that's where these photos are headed!)

All the rights to your photos

Because they are YOUR photographs and you shouldn't have to pay extra for them! No hidden fees or processing charges, ever!

The Engagement Session

One of our favorite things is when our couples ask about an engagement session for their wedding package (which is why we include it for free!). Engagement sessions are the perfect icebreaker between us and the couples. A little (ok, a lot) less hectic than the wedding day, Engagement sessions allow us to slow down and readily get to know each other. With no timeline to stick to, we can really nail the perfect shot, everytime.

If you're like us, you probably havent had professional pictures taken since Senior year of high school and if your like us, you probably feel horribly uncomfortable when someone points a camera and a giant lens at you (thats why we prefer standing on the backside of the camera!).

But dont worry, we got you.

We take things slow and have soooo much fun at our engagement sessions. We have a movement-based posing style that keeps things fun and flowy and we promise, after 5 minutes, you are going to forget we are even there!

If poses like "in and out", "breath-check", "drunk walk" and "squish-face" sound like fun, lets chat about engagement photos!

The secret ingredients to the perfect Engagement session

Location

We're sure that, by now, you know Nature is kind of our thing. One of our favorite things to do is combine beautiful images with beautiful locations. For your engagement session, our first recommendation is always going to be the outdoors and probably a mountain. This isn't to say that we can't get beautiful photos at sea-level, it's just where we feel the most at home. The most important thing to us is that you feel comfortable. If you aren't up for a far drive, don't want to hike or just want to stay out of the cold, feel free to choose somewhere that is special to the two of you. We can shoot in a coffee shop, the location of your first date or in your home. Whatever location you choose, let it reflect your personality and your love.

Outfit

This is the most important part: choosing what to wear. The colors, patterns and textures of your outfit should compliment your location. Don't let this overwhelm you though! We have a full style guide that we will send over that makes choosing the perfect outfit a breeze. We'll give you one tip now though, dress like yourself. Wear what makes you feel good and what makes you feel comfortable and confident in. If you need tips, just ask! We'll be able to tell you which colors look best in your location and if you send us photos of your outfit options, we will give you our honest, professional opinion.

Timing

Sure, we could do your photos at high noon in the harsh sunlight, but the only thing that would accomplish is deep contrasting shadows and really squinty eyes. We're not sure about you, but we wouldn't be happy with images like this. The best time for photographs are sunrise and sunset. We recommend starting about 30 minutes before sunrise or an hour before sunset to get the best lighting. This ensures we won't get any harsh shadows and will get tons of that gorgeous, glowy light that makes everything look magical. Sunrise tends to have less crowds but getting up early can be rough (thank goodness for coffee!) so sunset sessions tend to be our go to (if you choose a popular location, just take in to account there may be spectators for your session!)

Have Fun!

Ok so remember when we said outfits were the most important, well we take it back, We want your session to be fun! All that stress that has gone in to wedding planning can melt away here and you and your partner can just be yourselves. You might be worried about how you look or how your photos are going to come out but that's what you have us for! We will do the heavy lifting and make sure everything is perfect. You can sit back, enjoy the moment and think about how you'll be married soon. Photos are the best when you are genuinely enjoying yourself - and a lot of our job is to help you do that and to make sure that you are feeling comfortable in front of the camera. So come to us with a positive attitude and come exactly as you are and leave the rest to us!
